Allen's

NURSERIES & SEED HOUSE

New Summer Long EVERBEARING Peach

Think of it! Now you can pick luscious, sun-ripened Peaches all summer long, from a single tree! The first fruits ripen in July and continue in succession until late September. Actual photograph shows Summer Long in its various stages, from blossom to matured fruit. An excellent freestone Peach, for eating fresh, canning, jams and fancy desserts. The flesh is golden yellow, firm, juicy and rich in delicious flavor.

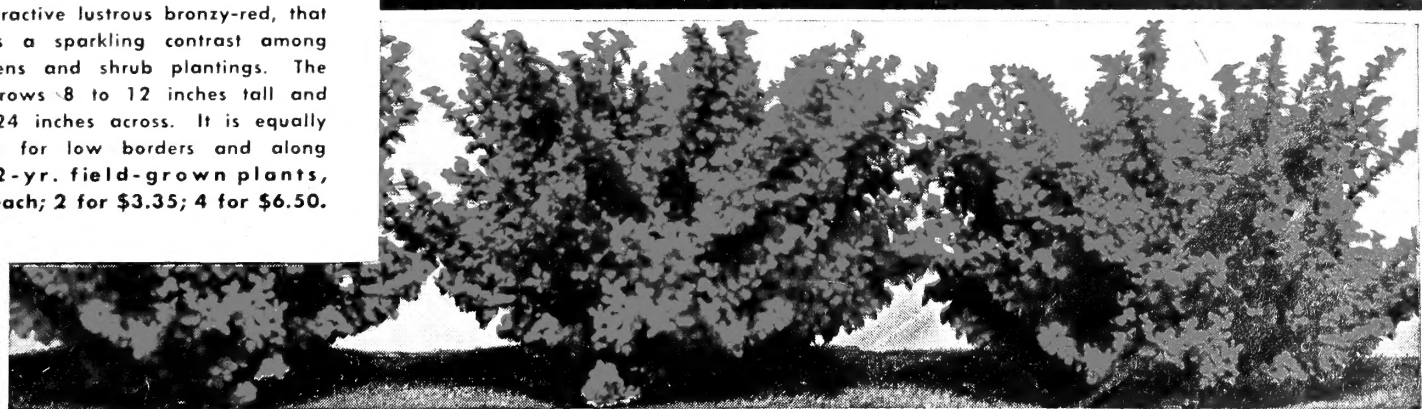

Summer Long bears young, usually the second year after planting; very hardy and vigorous, requiring no special care. Two trees will provide the average family with an abundance of fruit for every home use.

CRIMSON PIGMY DWARF RED BARBERRY

For rich color accents in your landscape planting, we highly recommend this lovely new Barberry. The foliage is a very attractive lustrous bronzy-red, that provides a sparkling contrast among evergreens and shrub plantings. The plant grows 8 to 12 inches tall and 15 to 24 inches across. It is equally effective for low borders and along walks. 2-yr. field-grown plants, \$1.75 each; 2 for \$3.35; 4 for \$6.50.

1958 CATALOG

65 Years of Continuous Service

Now More People Than Ever Before... SHOP-BY-MAIL

We, here at Allen's Nurseries & Seed House, wish to point out some of the many benefits you gain when you shop-by-mail:

YOU SAVE MONEY

... because you are buying direct from the grower. Our extensive acreage is devoted to the growing of vast quantities of nursery stock—and we ship-direct-to-you. The savings in "hidden" costs are passed on to you, the customer.

Experience and knowledge gained during our 65 years in the nursery business enable us to offer you the **BEST** nursery stock grown at **MONEY-SAVING** prices.

YOU SAVE TIME and EFFORT

... In the relaxed comfort of your home, you can plan your Spring gardening needs — and make your selections from the hundreds of items listed in our Catalog.

You avoid crowds and shopping around. Our large and complete listing of nursery stock includes many of the latest introductions — the best of the new, improved strains — and the always popular, long-time favorite varieties.

YOU AVOID LOSS

... when you shop-by-mail direct from the grower. You are protected by our written **GUARANTEE** that every item in our Catalog is true-to-name, and will thrive and grow. If any item proves to be otherwise, it will be replaced, see guarantee, page 3.

Our up-to-date methods of handling and packing ensures you receiving your nursery stock order from us in the best possible growing condition.

THE HISTORY OF ALLEN'S NURSERIES & SEED HOUSE

William A. Allen, our founder, was a farmer and orchardist. At this early date, it was very difficult to obtain good fruit trees for the setting of new orchards. This forced William Allen into propagating fruit stocks for the expansion of his orchards and replacing the older orchards. Soon friends and neighbors took notice of the fine orchards and high quality fruit being produced by the Allen Orchards and contracted with Mr. Allen to produce fruit trees for them. This demand for fruit trees lead to the establishing of the "Woodbine Nurseries" by William A. Allen, in 1892. As times progressed, so did the ever-growing demand for nursery stock. The orchard operations soon were discontinued and the range of stock produced was greatly widened to include shade trees, flowering trees, ornamental shrubs and many types of flowering plants and bulbs.

First Catalog Issued in 1904

The Woodbine Nurseries (later named ALLEN'S NURSERIES & SEED HOUSE) issued their first mail order nursery catalog in 1904. This, our 1958 Catalog, is the 54th annual issue without missing a single year since the beginning. The first issue consisted of twelve pages of mostly fruit trees and berries. Today our catalog consists of 48 pages and covers nearly every item used in home and commercial growing.

3 Generations of Experience and Know-How

Charles A. and Stephen A. Allen were admitted as partners in the Nursery in 1917 and the name was changed to "ALLEN'S NURSERIES & SEED HOUSE". The company continued to operate in this manner until the death of William A. Allen in May of 1936. Charles A. and Stephen A. Allen became sole owners at that time, as they are today. The present management of the company has been taken over by the sons of the owners — William A., Allen II, Stephen R. Allen and Robert L. Allen.

We believe that three generations in the nursery industry qualifies us to better serve you, by supplying the best stock obtainable. We look forward to many more years of successful service to our many customers.

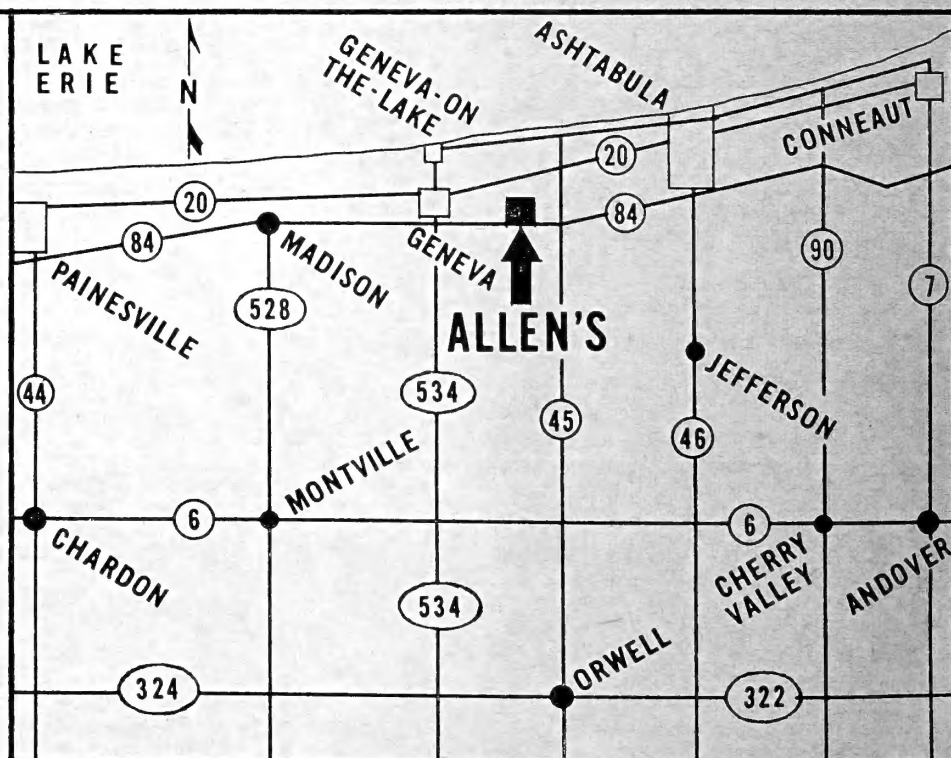

VISIT OUR MODERN NURSERY

We extend a most cordial invitation to our customers who wish to come to our nursery and personally select their nursery stock.

We are located on Ohio route 84, 3 miles east of Geneva; 7 miles west of Ashtabula, Ohio. Our sales center is open daily, including Sunday, from 8:00 A.M. to 5:00 P.M., during the spring and fall planting seasons.

We have not only all the items listed in this catalog, but offer many other items in bloom, potted, etc. We shall look forward to meeting you.

WHY ALLEN STOCK *Outproduces* ORDINARY STOCK

ONLY Allen's GIVES YOU LAKE ERIE-GROWN *Climatized* NURSERY STOCK

ASSURES HEALTHIER PLANTS • STRONGER ROOTS • GROW QUICKER • RESIST WINTER KILL

Allen's original Climatized nursery stock is Nature's special gift to anyone who loves living, growing plants and trees. Whether you are a commercial grower, or a person who just likes to plant a few shrubs, or a tree — Allen's Climatized nursery stock is IDEAL for you. You see, Climatized trees and plants are grown in the rich glacial soil of Lake Erie's shores — an area long famous as a producer of strong, heavy-rooted, rapid-growing plants. Early Lake Erie frosts and severe winters harden the young growth to resist winter kill — Climatized stock thrives readily under the most adverse conditions. This means that you get plants and trees of strength and superiority that grow and produce better than ordinary stock. Truly, you get more for your money when you buy Allen's Climatized nursery stock. You get growing success — you eliminate fear of losing a prized plant or tree — you save money on replacements.

**Our Stock Gets the Most Expert, Technical Care . . .
To Assure Your Complete Satisfaction**

ALLEN'S GUARANTEE

We guarantee our stock to be true to name. If it proves otherwise, we will replace free or refund the amount you paid us for it.

We guarantee our stock to be first quality and to arrive in good condition. Examine it carefully upon arrival and if you are not entirely satisfied, return it at once and we will replace it free or refund your money.

Our stock is carefully handled, and under ordinary conditions should grow for you. But if it does not, owing to the weather and other conditions over which we have no control, we will replace at one-half price the following season — you to notify us not later than October 1, 1958, accompanying your report with the remittance of one-half the original purchase price.

We want your complete satisfaction. If anything is wrong, we want you to write us.

Free! Planting Guide

The complete little pocket booklet on "How to Plant" will be sent with each purchase of nursery trees or plants. It's a very helpful and descriptive planting aid!

TERMS and CONDITIONS

Inspection. All our trees and plants are carefully inspected by the state and an inspection certificate accompanies each and every shipment.

Shipment. We ship via express, mail, freight. Stock marked mail is postpaid, otherwise is packed free and purchaser pays transportation charges. We start shipping in spring any time after February 1, and continue until June 1. Please state when you wish shipment made. Fall shipment October 1.

Payment. Our terms are cash with order. Money should be sent by check, postal money order, draft, express money order or registered mail.

Special Notice When Ordering. Please state how you wish shipment made. Write name, initial, post office, state, railroad station, R.F.D. number and R.F.D. box number very plainly so that no mistakes will happen in delivery; also use our order blank.

Our Reference. Geneva Savings Bank, Geneva, Ohio; Postmaster at Geneva, or any paper in which our advertisements appear.

Delivery Methods. Purchaser pays transportation unless marked mail postpaid. All prices in this catalog are listed by mail postpaid or express collect. Because of minimum rates imposed by the Express Company certain items usually sent by express can be sent cheaper by parcel post. In order to meet postal regulations it will be necessary to prune some of these trees. This will be expertly done leaving the stock ready to plant. Where we can save the customer money in this way we will do so, sending him a bill for the postage. This is in line with Allen's policy of prompt delivery of good stock as cheap as possible.

Cash On Delivery applies to Trees and Plants Only. To those who wish to book orders in advance without sending money with order, we will ship C.O.D. by express or mail.

Packing Methods. The nature of certain types of trees and plants require special packing methods and materials. We try, when possible, to ship entire orders complete in one container. Strawberry plants, Perennial plants and Seedling Evergreens require special packing and will very often be shipped separately and at a later date.

Shipment of Seeds. All seed orders are filled and shipped as soon after receipt as possible. Where orders consist of both seeds and trees, the seeds will be sent at once, the trees at proper planting time, or the date specified on your order form.

ALLEN'S *Free* GIFT OFFERS

In order to show our appreciation of both present and past patronage, it gives us great pleasure to offer these free premiums to you.

With every order of \$5.00 you may select any one of the 11 premiums we have listed.

With every order of \$10.00 you may select 2 of the premiums, alike or different.

With each additional \$5.00 you may select 1 more premium.

NOTE: The PREMIUMS you select MUST BE WRITTEN ON THE ORDER, or none will be sent, even if you notify us later. These must be sent with your order.

NOTE: Premiums are allowed only on orders for trees and plants at the catalog prices, and where orders are paid for when entered. (No premiums on C.O.D. orders.) **NO GUARANTEE ON PREMIUMS.** There are no premiums, as listed above, on seed orders. We select certain new varieties of seeds each year that are sent to our seed customers, that have orders that amount to \$5.00 or more. All seed orders, regardless of size, are sent a packet of ALLEN'S ANNUAL FLOWER SEEDS as a gift.

FREE PREMIUMS

- 10 Mammoth Mixed Gladiolus bulbs
- 4 Begonia bulbs, Double Camellia-flowered
- 5 Raspberry, Red Latham
- 1 Blueberry, Weymouth
- 1 Hydrangea PeeGee

ALLEN'S *Climatized* APPLE TREES

Profitable To Grow — Delicious to Eat — Apple Varieties For Every Season

Allen's Climatized Apple Trees bear heavier and earlier. We have spent thousands of dollars, and we have searched, and experimented, and developed — for 5 long years to produce apple trees that we can honestly say are "superior, quality producers." Everyone of our apple trees is budded and grafted on a strong, whole-rooted seedling — grown from the very best, world-famous FRENCH seed. They're big and husky, pest-free and

disease-free, and can withstand the severest kind of weather. And best of all — Allen trees give you fruit that can't be beat for flavor and coloring. This stock of superior scions and buds was taken from famous Ohio and Indiana orchards — from parent trees with a known record of heavier bearing. Bear in 3 to 5 years; space 35 x 35 apart, plant 35 trees to the acre.

Summer Apples

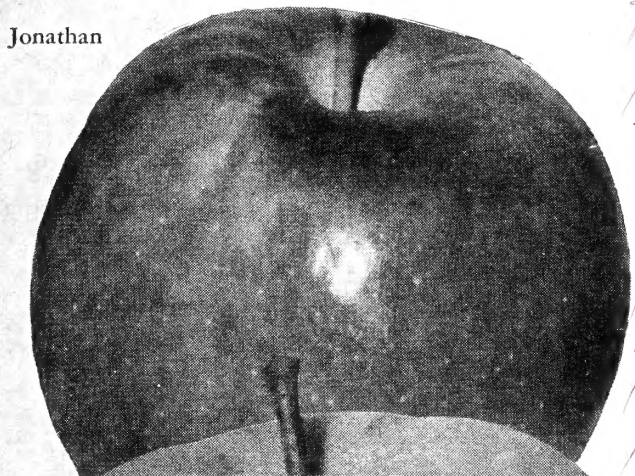

ANOKA. Famous for beautiful red striped fruit of excellent quality. Bears early, often producing apples the second year after planting. Ripens in late summer. Best adapted to central and northern districts of the country. Eating, Cooking, Market.

GOLDEN SWEET. Large, pale, yellow fruit with that very sweet mouth-watering flavor. A heavy bearer and strong grower. Bears in August. Eating, Cooking, Market.

RED ASTRACHAN. Well known, heavy producing variety. Gives you large, round fruit with brilliant crimson coloring. Juicy, rich acid flavor. A vigorous grower with dark foliage. Bears in August. Cooking, Eating, Market.

YELLOW TRANSPARENT. The earliest of all summer apples, gives you delicious white, tender, juicy fruit, sprightly sub-acid flavor. Grows rapidly, Bears young, a dependable profit producer year after year. Bears in August. Eating, Cooking, Market.

Jonathan

DUCHESS OF OLDENBURG. Starts bearing early in large yellow fruits, streaked with red, juicy sub-acid, heavy bearing. Fine for both commercial and home planting. Bears in September.

Autumn Apple

Crab Apples

Same price as Apple Trees

DOLGO. Produces a very juicy, bright red fruit which makes rich, ruby red jelly the whole family will rave about. Also makes outstanding cider. Very hardy, vigorous and productive. Bears in early September.

Winter Apples

BALDWIN. One of the most dependable varieties. Produces large, bright red fruit that brings in top prices on the market. Extra good keeper. Tree is large and very productive. Eating, Cooking, Market.

CORTLAND. A new apple originated by the Geneva, New York Experimental Station. Produces deep red fruit, a fine keeper. Tastes like McIntosh with firmer flesh that is white, crisp and delicate. Young bearing. Eating, Cooking, Market, Cider.

DOUBLE RED DELICIOUS. A remarkable variety rapidly taking first place among growers who want the best. Extra large, bright red fruit with fine-grained white flesh. Tangy, rich, juicy flavor. Sometimes bears as early as three years after planting. Heavy crops every year.

FRANKLIN APPLE. A new and promising Apple. A cross between the McIntosh and Delicious apples. Fruit flesh is faintly yellow, fine grained, mild and moderately juicy. Oblong shape; medium size.

GALLIA BEAUTY. (Red Rome Beauty). Produces huge crops of large, brilliant, red fruit. Crisp, juicy, aromatic white flesh. Vigorous, hardy, sure bearing. An excellent profit producer.

GRIMES GOLDEN. Produces medium size, beautiful golden, yellow fruit with an alluring flavor that will bring compliments from everyone, and a better price at market. Good keeper, vigorous growing, very productive. Eating, Cooking, Cider, Market.

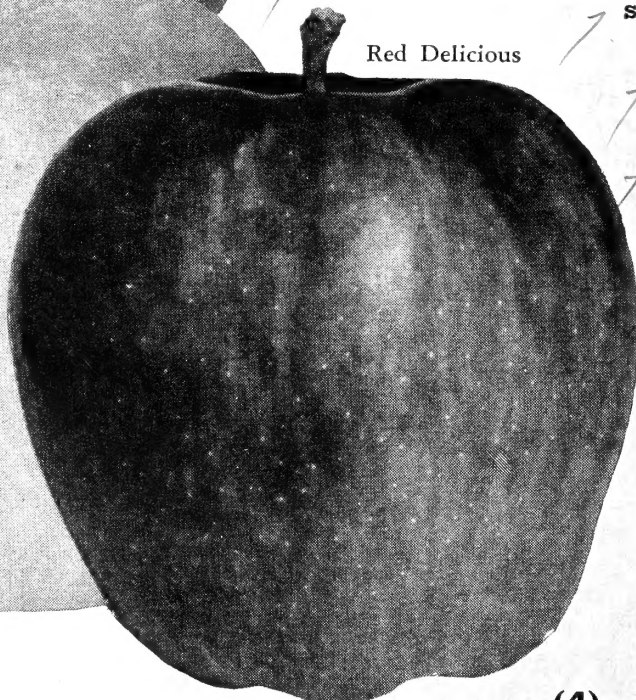

JONATHAN. The favorite early winter dessert apple if you like that snappy, sub-acid flavor. Medium size, delicately colored red fruit. Very tender. First class for either cooking or eating. A fine keeper. Especially recommended for commercial planting.

MCINTOSH RED. A tender juicy apple with flavor and color that makes it a sell-out in the stores. Medium size, dark red coloring. Flesh is white, tender, juicy and crisp. Very hardy, very productive. Starts to bear when very young.

RED SPY. Brilliant, red coloring without stripes or splashes. This color assures top market prices. Large fruit with crisp, firm, juicy flesh. Hardy, healthy, productive and reliable.

R. I. GREENING. Large greenish-yellow, tender, juicy fruit with mild acid flavor. Large, heavy bearing trees. Excellent keeper.

Red Delicious

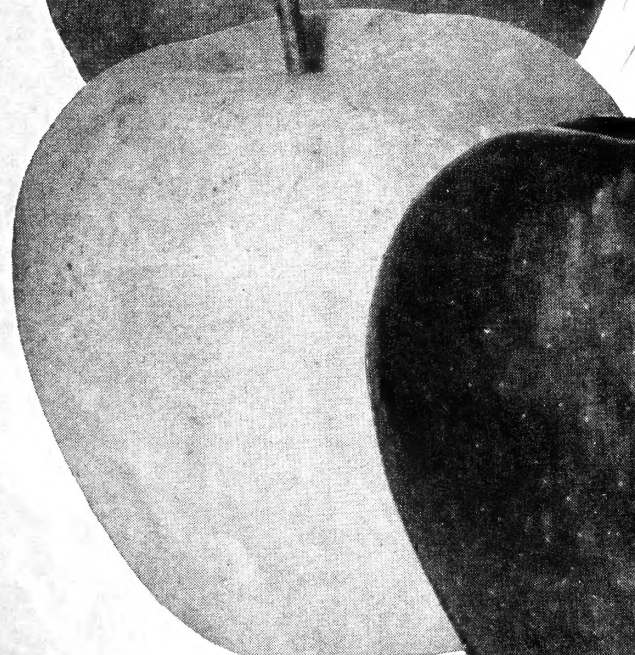

STAYMAN'S WINESAP. Red Strain. Large deep red fruit, juicy and crisp to eat. Keeps well, bearing young. Excellent for eating and cider.

TURLEY. A seedling of Winesap. Fruit is larger, smoother skinned and richer in color. Juicy; excellent flavor. Very hardy and young bearing.

WEALTHY. Early winter variety, keeping until Christmas. Deep red with white, very juicy flesh. If you want good flavor you must have this apple. Bears very heavy, starts very young. Dependable crops every November and December.

YELLOW DELICIOUS. Always brings highest market prices because of sparkling bright golden color and delicious sweetly acid-flavor. Fruit is very firm, crisp and juicy. Splendid keeper.

New PEACH VARIETIES

ERLY-RED-FRE

Hardy, disease-resistant, extra heavy yielder, early bearer, good shipper. These are some of the qualities that make ERLY-RED-FRE a great early Peach and a real money maker. The fruit is large and highly colored with an attractive bright red on a creamy white background. Flesh is firm textured and clear white through to the unusually small pit and completely freestone.

Originated in the orchard of Wm. Perry near Chase City, Va., in 1935, Erly-Red-Fre has proved its adaptability to a wide range of soil and climate. It has been called the "peach growers' friend" because it out-produces most other early varieties and can be depended on for big, profitable crops year after year.

SUN HIGH

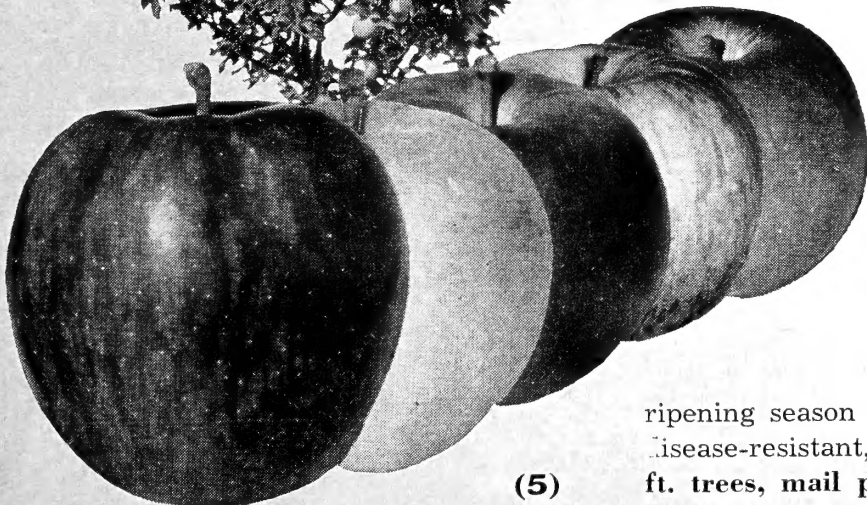

A recent introduction by the new Jersey Experiment Station. Here is a Peach that is noted for its wonderful, mouth-watering flavor. Ripens 15 days before Elberta. Fruit is large and bright red with yellow flesh; completely freestone. Ideal for canning, freezing and fresh desserts. Trees are hardy, bear young and highly productive.

RED SKIN

New red color! This origination by the Maryland Agriculture Experiment Station is a cross between the famous J. H. Hale and Elberta varieties. It combines the best qualities of both. Red Skin is so attractive, it commands highest prices on the early Peach market. Beautiful red color, truly delicious flavor, yellow flesh, large, round fruit. It is a leading shipper with excellent quality. Ripens with Elberta. Freestone; self-pollenizing.

DICKSON'S LATE RED

A new tree similar to Shipper's Late Red, but ripens a few days later. Flesh is yellow, completely freestone. Trees bear young and are very vigorous in growth. Destined to become a top commercial variety. Try a planting this spring.

5-in-1 APPLE TREES

A Whole Orchard On One Tree

Here it is! The most sensational development ever offered to the home owners of America. If you have room for only one tree, you can now enjoy 5 different varieties of apples — a bountiful supply from early summer until late fall. On this tree you get **Red Delicious, Yellow Transparent, Yellow Delicious, Stayman's and Jonathan.** Enough apples for eating fresh, pies, sauce and canning throughout the long ripening season from summer until late fall. The tree is hardy, disease-resistant, vigorous growing and very productive. 4 to 5 ft. trees, mail postpaid, for only \$3.25 each; 2 for \$6.00.

Allen's Climatized

**Famous Lake Erie-Grown
Peach Trees are the
Heaviest Producers**

- ★ **Extra Hardy**
- ★ **Heavy Bearing**
- ★ **Vigorous Growing**

OUR LOWER PRICES SAVE YOU MONEY

These hardy, young peach trees will stand up to any kind of weather, because they're Climatized. They're raised in the good, rich soil of Lake Erie's shores — and they're hardened by early Lake Erie winters to resist severe cold. This means that Allen's Climatized peach trees will grow in any region with amazing success. They really save you money, because their hardiness cuts replacement costs in half. Best of all, these trees are budded on famous, Southern, natural peach pits — for that delightfully tempting taste — selected from the best known bearing orchards. Yes, they're wonderful eating, and grand for a dozen different uses at home.

Every year we sell over 100,000 peach trees to our customers — besides supplying some of the biggest nurseries in the country. Isn't that proof that we've got superior, quality peach trees that can't-be-beat. Bear in 2 years; space 20 x 20 ft. apart; plant 108 trees to the acre. All peaches are Freestone unless otherwise stated.

GOLDEN JUBILEE. New and already one of the more popular varieties. Tree habits and fruit resembles Elberta. A beautiful, very early, large peach with a soft yellow skin tinted with red blush. Flesh is a bright, deep yellow. Juicy, tender, sweet and freestone. We recommend this above other earlier sorts.

HALEHAVEN. Gives you a combination of the quality and appetizing looking fruit of Hale with the hardiness, vigorous growing habits and early ripening of South Haven. Beautiful, highly colored fruit in gorgeous contrasting rich red and yellow. Its high color, even before complete ripening, gives it great market value because it allows premature picking, packing, and shipping without loss. Ready two weeks before Elberta. Good for home freezing, too.

SULLIVAN'S EARLY ELBERTA. A new variety that is proving itself well adapted to the entire Central peach growing areas as well as Southern peach states. An origination from the orchard of J. P. Sullivan of Zebulon, Ga., the tree and fruit characteristics were found to be identical with Elberta. It ripens much earlier than Early Elberta and Belle of Georgia. The fruit is uniformly large in size, extra fine quality and flavor, and a good shipper. Our hardy, northern grown trees are propagated from the original strain. We have long needed a good commercial peach to fill the ripening period before regular Elberta and believe this variety has real possibilities.

RIO-OSO-GEM. A beautiful peach that ripens from 7 to 10 days after Elberta. The fruit is large with brilliant red color and light pubescence. The flesh is firm and fine textured; flavor is outstanding. Firmness of flesh makes it a fine peach for canning, freezing and other uses. Has good shipping qualities. An excellent late peach. Trees are self-pollenizing and produce large, profitable crops.

Allen's "Sure-Crop" Elberta

Here is the most sensational Peach ever grown! It's big, extra-fine textured, sugary-sweet, and delicious. You'll love the flavor of this beauty! Yellow with a deep red cheek. Very prolific and hardy, and certain to bear a wonderful crop. Whether you're a home grower or a commercial grower, make no mistakes — this is the variety for you! Ripens mid-September.

ALLEN'S EARLY WHITE. The most excellent white Peach on the market today. Skin is well colored. The flesh is white. The fruit is round, firm and freestone. Ripens during the first week of August.

BELLE OF GEORGIA. Beautiful, creamy white skin with bright red shading. Very large fruit with luscious mouth-watering flavor. Flesh is white and very firm. Hardy, vigorous, dependable bearer in early September.

CHAMPION. One of the best white sorts. Rich, sweet, juicy fruit with creamy white skin and gorgeous red blush. White flesh. Bearings in August.

CUMBERLAND. One of the very finest for the home orchard. One of the heartiest varieties. Attractively colored fruit is oval in shape, white flesh. Heavy bearing and very vigorous grower.

FAIRHAVEN. A very hardy freestone peach that will produce a full crop in spite of a cold or foggy blossoming period, when many other varieties are unproductive. Fruit is round, bright golden with a red cheek. Ripens a week before Halehaven.

GOLDENEAST. A very large, firm, attractive, yellow-fleshed freestone of high quality, ripening about two weeks before Elberta.

**All varieties good for eating,
cooking, canning, market.**

DELICIOUS, CAN'T-BE-BEAT FLAVOR

All commercial peach growers who plan to plant 200 or more trees this year can save by writing today for our list of special, low grower's prices.

J. H. HALE. A beautiful, round, golden-yellow Peach with wonderful flavor. Keeps well and is an all-around, most attractive freestone sort. Ripens 5 days earlier than Elberta. Free from grain and stringless. Very firm flesh—exquisite coloring. Good for freezing, too.

LEMON FREE. Lemon shape and color, light yellow skin and flesh. Extra good for canning and one of the best bearers in existence. Very hardy in all climates. Recommended for commercial as well as home plantings.

MIKADO. (June Elberta.) Semi-Cling ripens 30 days advance Elberta, very highly colored. Skin Red, flesh deep Yellow, very attractive, an excellent Roadside early market Peach. Hardy and productive.

ORIOLE. Bears medium to large sound fruit with very attractive yellow coloring. Tree is large, very productive and bears the middle of August. Freestone fruit is very good in quality.

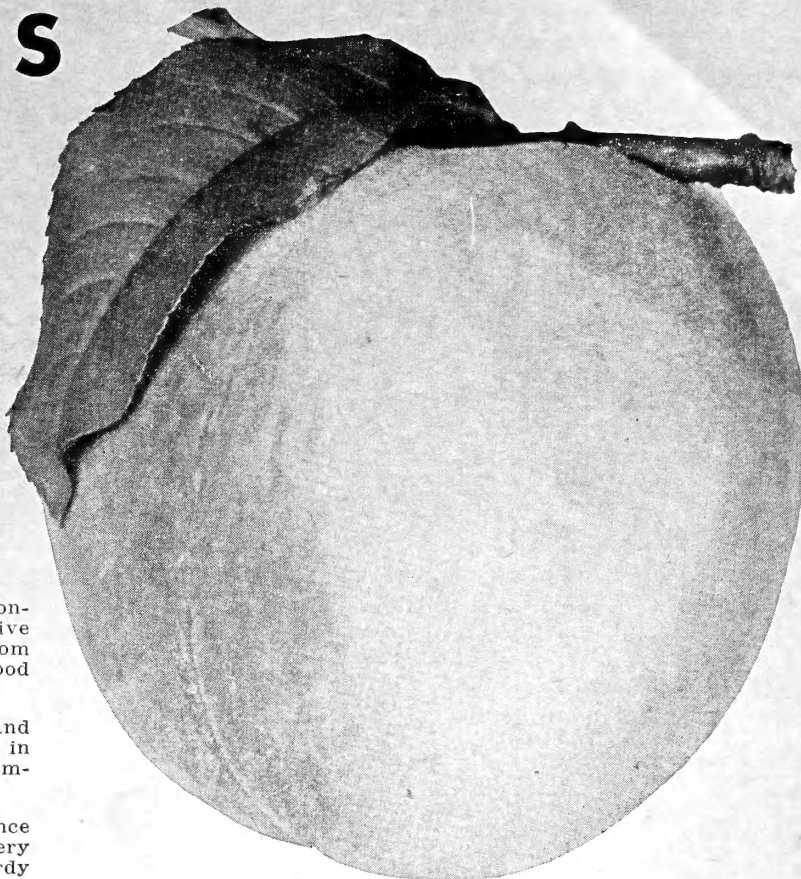

RED ELBERTA. U. S. plant patent 232. Produces 10 days earlier than Elberta. Fruit has that brilliant red coloring that commands such a high price on the market. Very profitable because it bears so early. Mouth-watering flavor and excellent quality fruit can be yours with this new creation. Good for freezing, too.

REDHAVEN. The earliest shipping peach grown. Ready a full 30 days before Elberta. A beautiful rich red before it is actually ripe. Yellow freestone of unusual flavor. Very hardy. Fruit is red all over and could be picked 10 days before ripe, thus offering an opportunity to the peach grower to extend his picking over a long period. Tree bears very young, produces heavily year after year. Good for freezing, too.

ROCHESTER. Fine, early yellow freestone that ripens about August 10th. Fruit is large, attractively colored in a yellow red. A strong grower that bears young. One of the best for orchards.

SALBERTA. A highly successful cross between Salway and Elberta, combining the size and quality of Elberta and the lateness of Salway. Everybody has been pleased who has tried it. Bears in late September.

VALIANT. A seedling of Elberta of Canadian origin. Large, yellow fleshed, brightly colored fruit. Very hardy and productive. Ripens earlier than Elberta.

SHIPPER'S LATE RED (Big Red). A new peach whose fruit is round, and bulkier than Elberta, with beautifully flushed red coloring. The flesh is yellow, sweet, juicy and very tasty. A real taste thrill. Freestone. Bears young, heavily, very hardy. Its greatest commercial advantage, aside from splendid quality, lies in its ability to stay on the tree much longer than most varieties, thus many times saving the entire crop where lack of time, continued rains or glutted markets create losses.

TRIOGEM. A firm, yellow-fleshed freestone of highest quality, ripening two or three days later than Golden Jubilee. Very attractive and a good shipper. An excellent commercial variety to follow Golden Jubilee.

FERTILE HALE. Another popular member of the Hale family. Ripens later than regular Elberta, increasing the late Peach profits. Fruit is rich in flavor and firm textured. Fine shipper and canner; freestone. A very hardy variety; heavy yielding ability.

Bartlett
Pear

ALLEN'S *Climatized* PEARS

**HEAVY BEARING
MONEY-MAKERS**

They'll Melt in Your Mouth

All budded on superior French seedling roots. Hardy, healthy — truly the stock you will always prefer. Bears in 3 to 4 years. Space 20 x 20 feet apart; plant 108 trees to the acre.

ANJOU. A large yellow Pear shaded with crimson. The flesh is highly flavored, sprightly, vinous, melting and juicy; one of the best fall Pears in existence. Ripens in November. Good for eating, cooking, market.

BARTLETT. Large, brilliant yellow, pliant Pear; rich in flavor and very juicy. Tree hardy, dependable and prolific bearer. Undoubtedly the world's most popular Pear for home use and commercial purposes. Ripens September.

BOSC. Distinctive long-necked Pear. Shape and exquisite quality make it popular everywhere. Fruit large, yellow, juicy, extra sweet. Trees bear regularly. A profitable market variety. Ripens November or December. Eating, Cooking, Market.

CAYUGA. Fruits average as large as Bartlett, but are similar to Seckel in shape. Flesh firm, fine textured with the rich delectable flavor of Seckel. Eating, Cooking, Dessert.

CLAPP'S FAVORITE. A splendid Pear, resembling Bartlett and ripening 10 days earlier. Hardy and vigorous. Fruit juicy, fine-grained and highly flavored. One of the best Pears on the market. August.

DUCHESS. (Duchess of Angouleme) Extremely large (often weighs over a pound); color yellow, appealingly mottled with russet, juicy, excellent quality — the housewife's favorite. Should be planted in all home orchards and for market. Good for Eating, Cooking, Canning.

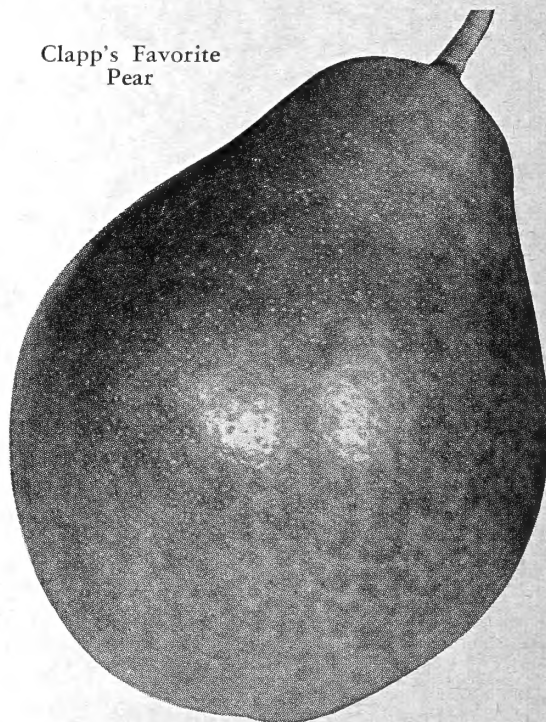

SECKEL. A small juicy, spicy, honey-flavored Pear, used a great deal for pickling. Color is dark greenish-brown. Sells well on the market. Ripens September 15th.

SHELDON. A large, round, russet and red Pear of very rich, fine quality, melting and delicious. Tree vigorous; bears well. Ripens October.

Clapp's Favorite
Pear

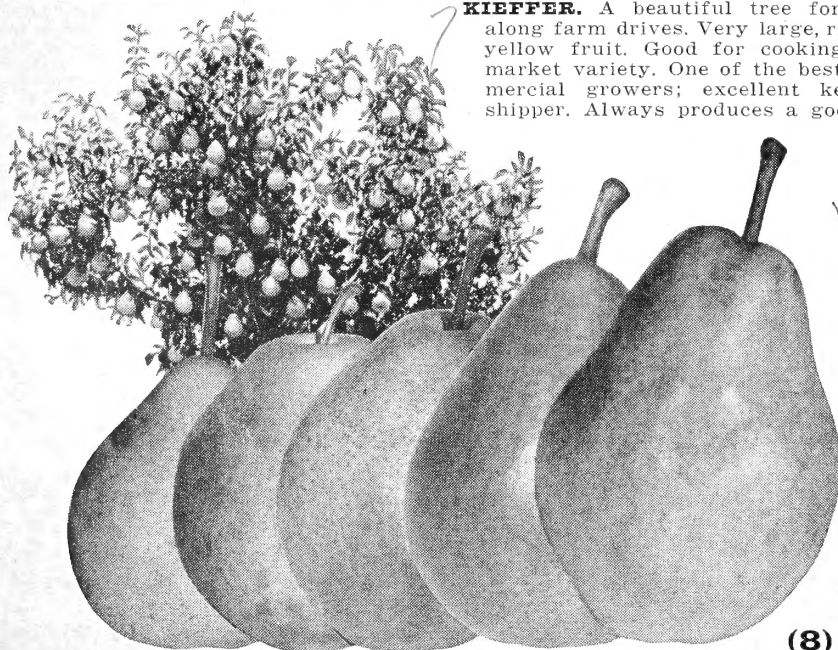

MAX RED BARTLETT

(Pat. No. 741). A red sport of Bartlett with all the desirable qualities of Bartlett, plus an attractive red color and 10% more sugar by actual test. As the color does not carry through the flesh, this excellent canning Pear is being widely planted for commercial canners. Trees are very hardy and highly productive. 4-5 ft. trees, \$3.00 each; 2 for \$5.90; 4 for \$11.50, postpaid.

FLEMISH BEAUTY. A large, beautiful "melt-in-your-mouth" sweet flavored Pear! Flesh is fine grained and juicy. Hardy, vigorous grower and heavy yielder. Succeeds well in all climates. Ripens September.

GORHAM. Ripens two weeks later than Bartlett and keeps a month longer. Resembles Bartlett in size, color and shape. Flavor is sweet and vinous, with a very pleasing aroma. Trees are vigorous growers and highly productive. A good variety for eating, cooking and market.

KIEFFER. A beautiful tree for planting along farm drives. Very large, rich golden yellow fruit. Good for cooking and fine market variety. One of the best for commercial growers; excellent keeper and shipper. Always produces a good crop.

5-IN-1 PEAR TREE

You Get Five Outstanding Varieties On One Tree!

Small home owners, with very limited space, can now have a miniature Pear orchard — by planting the 5-in-1 Pear tree. The trees are budded to the following varieties: **Kieffer, Bartlett, Orient, Seckel and Garber.** From summer through fall, you'll get a bountiful supply of delicious, nutritious fruit — for eating fresh, canning and pickling.

The trees are hardy and vigorous growing. They make beautiful ornamentals in spring when the branches are loaded with beautiful white blossoms. Easy to grow and long-lived; you will enjoy their spring loveliness and delicious fruit for years to come.

4 to 5 ft. trees, \$3.75 each; 2 for \$7.00, Mail Postpaid.

Climatized PLUM TREES

BIG PROFIT-MAKERS

Heavy Yields, Plump, Juicy Fruit

Allen's climatized Plum Trees are budded on Genuine French Myrobalan stock, assuring you of long-lived, quick-growing plum trees, and highest-quality, delicious fruit. Now, many growers bud plum trees on inferior peach root, which naturally gives you a very poor kind of tree. Allen will never sell you this kind of tree! You can be sure your Allen plum tree has been expertly budded — the one right way. Our Myrobalan stock is so far superior to peach root stock — that no comparison can be made. Remember, Allen will only sell you hardy, strong-rooted, heavy-bearing Climatized plum trees. Bear in 3 to 4 years: space 20 x 20 ft. apart, plant 108 trees to the acre.

ABUNDANCE. Japanese origin. Brilliant, striking, cherry red in color. Flesh very juicy, tender, but firm, and very sweet; heavy bearer and brings top price on the market. Ripens early August.

BURBANK. Japanese origin. A triumph of the "Master Horticulturist." Remarkably productive, and succeeds in any soil. Fruit large, deep rich red or purplish with thin lilac bloom. Flesh amber yellow with rich sugary flavor. Ripens early August.

FELENBERG. (Italian Prune). Large fine purple fruit that is firm, sweet and delicious. Excellent for drying, preserving or dessert. Excellent for home growing, also one of the best market types.

MONARCH PLUM. A widely planted and very popular variety. Ideal for the home orchard and commercial grower alike. Has all the desirable qualities that make an outstanding Plum. The fruit is juicy and pleasantly tart; large, beautiful purple color. Ranks high among dessert plums. Trees are hardy and vigorous growing. Always bear heavy. Fruit ripens late — about September 20th.

REINE CLAUDE. (Green Gage.) Fruit large, greenish-yellow spotted with bright red; firm, juicy, "sweet as honey." Excellent for Cooking, Eating, Canning, Market. No home or market orchard is complete without it.

SHROPSHIRE DAMSON. Largest of the Damson class. Fruit deep purple, juicy, rich, small stone, fine for preserves. Hardy, vigorous grower, a fine yielder. Damsons are money makers and should be in every orchard.

STANLEY. Large, dark blue, prime type; very sweet and freestone. Bears at an early date. Adapted to a large range of soils. Recommended by all northern experimental stations for culinary purposes and commercial use.

YELLOW EGG. Fruit of large egg shape, gorgeous golden yellow color; sweet, juicy, and tender. Wonderful for eating and canning; extremely productive. Ripens August.

APRICOT TREES

New Improved
Delicious for Eating Fresh, Cooking,
Canning, Freezing, and Drying.

Hungary's Best. The original tree has not failed in bearing throughout a long term of years, thus assuring us of its hardiness. Tree grows to immense size; fruit large, good quality, beautifully colored, deep yellow, with yellow flesh, very sweet and juicy.

SUPERB. This variety excels in productiveness and bears where others fail. Especially good for the North; large, sweet, juicy, well-colored fruit.

ALLEN'S CHERRY TREES

SWEET CHERRIES

Commercial growers and home gardeners alike, will profit by growing Allen's Climatized Cherry trees. Our hardy, strong-rooted, northern grown trees insure healthy, vigorous growth and big, dependable crops of top quality fruit year after year.

All varieties listed are good for canning, eating fresh and market! Bear in 3 to 4 years. Plant 60 trees to the acre. Space 25 x 25 feet apart.

BING. This valuable black cherry succeeds everywhere. Flesh is very solid and flavor is of highest quality. Many consider it the leading dessert cherry. A fine shipping and market variety; one of the most profitable for commercial growers. Ripens in July.

BLACK TARTARIAN. Very large, purplish-black Cherry. Flesh is firm, yet juicy and richly flavored. Ripens in June and brings good prices on the early Cherry market.

LAMBERT. Fruits are jet-black when fully ripe. Flesh is solid, rich in flavor and juicy. Good all purpose Cherry. Strong grower and heavy producer.

NAPOLEON (Royal Ann). Large, pale yellow with red blush; firm, sweet and productive. A good market sort. Good cooker, too.

SCHMIDT'S BIGARREAU. One of the better late sorts, especially for northern sections. Dark red, very large and sweet; very firm and therefore ships well. July.

WINDSOR. Fruit large, dark red, distinct. Flesh firm and of very high quality. Hardy and prolific; a valuable late variety. July.

YELLOW SPANISH. Large, pale yellow, red cheek; known as Yellow Oxheart in some places; firm, juicy, excellent. One of the very best light colored cherries. June ripening.

| (1 and 2 year old trees) | | | | |

SOUR CHERRIES

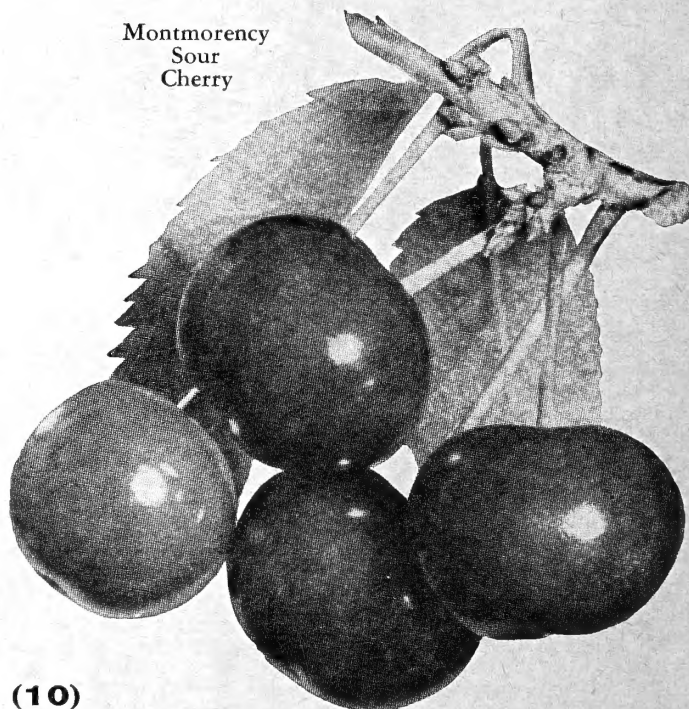

We bud these on French Mahaleb stock. They don't bush up like the old sorts and make a hedge row. Should be planted on well-drained soil, 20 feet apart. We have a fine lot of 1-year and 2-year stock and they certainly please.

LARGE MONTMORENCY. The best and largest Sour Cherry grown for market and canning. Ten days later than Early Richmond. Dark red, very firm, one of the best-flavored Sour Cherries. A regular bearer of enormous crops, bringing good prices and shipping well; in fact, is the best market Cherry. Marvelous for pies.

EARLY RICHMOND. Fruit small but good and the earliest of the sour. Unsurpassed for cooking purposes. This is the variety that yields such marvelous crops in home gardens. Most hardy of all varieties. Uninjured by the coldest winters. Tree slender in growth with a roundish spreading habit. Ripens June 25-30.

Chinese Chestnut

NUT TREES

Shade in Summer — Nuts in Autumn

CHINESE CHESTNUT

New, Blight-Resistant Strain

This wonderful new strain makes it possible to again grow Chestnuts. Extremely hardy and vigorous, and the only blight-resistant Chestnut. The trees are rapid growing, quick-to-bear, and heavy yielders. Will thrive in any well-drained soil and require little care once they have been set out.

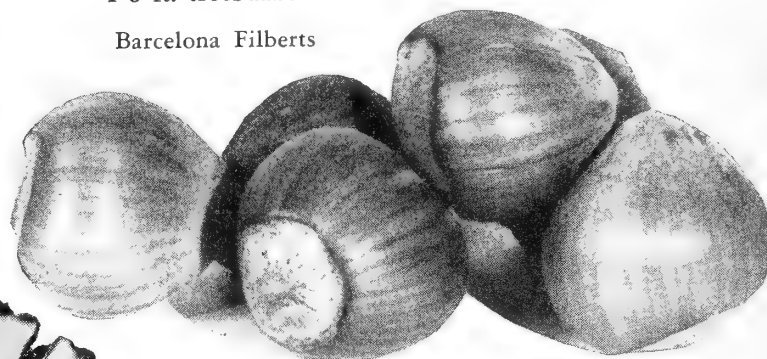

Grow Them for Profit and Pleasure

The Chinese Chestnut is a very decorative lawn tree, providing good shade around the house, besides yielding a bountiful crop of the finest, meatiest nuts each fall. These delicious, nutritious nuts are a favorite with everyone and always in big demand.

Plant Chinese Chestnut this spring — they will repay you with beauty, shade and cash income. For perfect pollinization, we recommend planting two or more trees.

| Postpaid | Each | 3 |
|---------------------|--------|--------|
| 2-3 ft. trees | \$2.00 | \$5.50 |
| 3-4 ft. trees | 2.50 | 7.00 |
| 4-5 ft. trees | 3.00 | 8.50 |

Barcelona Filberts

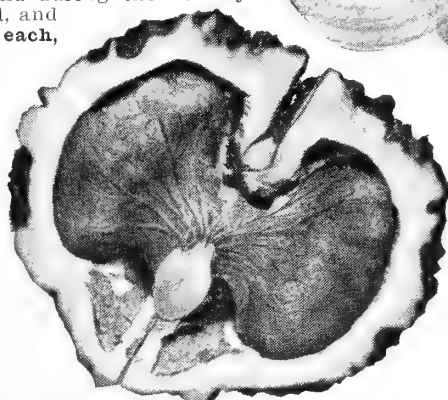

FILBERTS (Hazelnuts)

BARCELONA FILBERT. New and possibly the most widely planted commercial type in the Northwest. Larger than native Filbert. Roundish nut with thin shell. Sweet flavorful kernels. Young bearing; consistent heavy bearer. One of the best. Not a self-pollenizer. 2 to 3 ft. trees, \$2.00 each, postpaid.

DuCHILLY FILBERT. Widely used to pollinate other types. Large attractive nuts, always in demand during the holiday season. Bears young; thrives in any soil, and yields big crops. 2 to 3 ft. trees, \$2.00 each, postpaid.

Thomas Black WALNUT

(Grafted) One of the largest and finest Black Walnuts yet found. Kernels large, light-colored; nearly all crack out in whole halves. Tree extremely vigorous and hardy. Supply limited this year. 2 to 3 feet, \$2.95 each; 3 for \$8.50; 3 to 4 feet, \$3.65 each; 3 for \$9.95, postpaid.

JAPANESE WALNUT

A rapid growing tree with dense foliage. In color, texture, and flavor of kernel the Japanese Walnut is very similar to Butternuts. Bears enormous crops. Desirable as an ornamental and also valuable for shade. 2-3 ft. tall, \$2.00 each, postpaid.

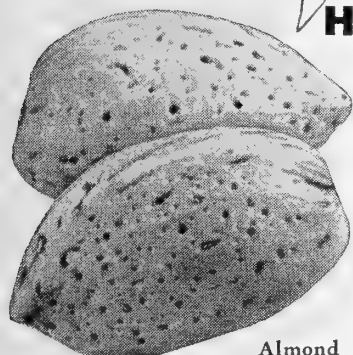

HARDY PECANS

A strong growing, heavy producing, hardy variety. The nuts are very large, thin shelled; easily opened. Kernels are meaty; very delicious. 2-3 ft. tall, \$2.25 each; 3 for \$6.25 postpaid.

HALL'S HARDY ALMOND

This new, improved Almond makes a very attractive ornamental in addition to bearing large, profitable crops of delicious nuts. Our northern grown trees are rapid growing, young-bearing and perfectly hardy. Can be grown successfully wherever it is possible to grow peach trees. The nuts are large and fine quality; much in demand by commercial bakers, confectioners and housewives. For best results plant two or more trees.

| Postpaid | Each | 2 | 4 |
|---------------------|--------|--------|---------|
| 2-3 ft. trees | \$1.95 | \$3.50 | \$ 6.75 |
| 3-4 ft. trees | 2.25 | 4.25 | 8.25 |

Almond

Thin-Shelled ENGLISH WALNUT

Nut trees should be grown more extensively for they not only beautify the landscape, but provide one of our most nutritious foods as well. They are easy to grow; require little care. The annual, bountiful harvest of nuts is readily marketable — returning the grower a handsome profit on his investment.

English Walnuts are well-known from coast to coast and a big seller everywhere. The nuts are large, thin-shelled and well filled with full-meated kernels of extra-delicious flavor. The trees are very ornamental, hardy everywhere and heavy, dependable bearers. Plant two or more trees for perfect pollination. 2-3 ft. tall, \$2.95 each; 3 for \$8.40, postpaid.

Dwarf

Allen's
Dwarf
Apple

Dwarf Apple Trees

**Bear Earlier Than Standard Trees
Take Only 15 Feet of Space**

Now every home can have luscious home-grown apples. All you need to do is plant one or more Allen Dwarf apple trees, which can be planted in a space of 15 to 20 ft. They make a beautiful addition to your landscape and you will enjoy crops of fruit each year. These trees grow only 12 to 15 ft. tall at maturity. You will be able to pick the fruit from these trees standing on the ground within two years after planting.

Allen's Dwarf apple trees are propagated by budding the variety desired on a special type of Malling root stock, imported from England.

VARIETIES

Red McIntosh, Red Delicious, Yellow Transparent,
Yellow Delicious

Allen's
Dwarf
Pear

**Full Size,
Delicious Fruit**

Dwarf Pear Trees

**Produce Large, Full Size Pears
Will Take Only a Corner
of Your Yard**

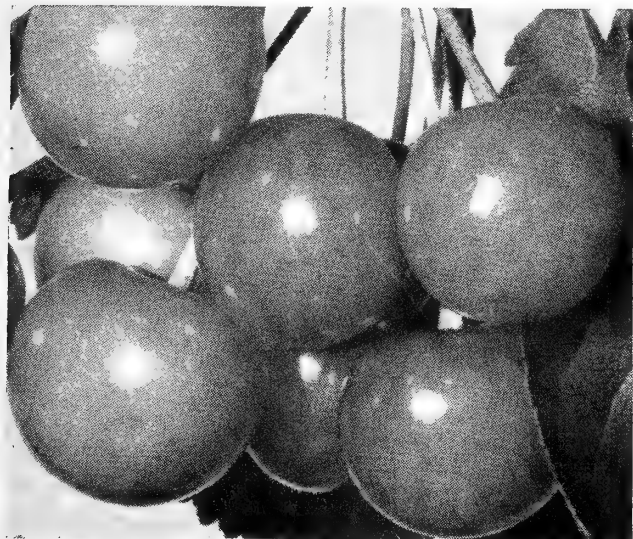

Now, you too, can have delicious home-grown Pears... fresh, sugary sweet, right in your own backyard. Plant a few Allen Dwarf Pear trees. You can plant five times as many dwarfs as standard size trees in the same space, 12 x 12 ft. apart. They're hardy and quick-bearing... many bear the second year. Delicious, full-size fruit. Beautiful ornamental trees when in blossom. These sturdy dwarfs grow only 10 to 12 feet tall — and they're loaded to the ground with fruit. Easy to pick — you don't need a ladder.

Allen's Dwarf Pear trees are propagated by budding the variety desired on Quince roots — the only successful way known to horticulturists.

Varieties: Bartlett, Duchess and Seckel.

Prices — Shipped by Mail Postpaid:

New Dwarf Cherry Trees

NORTH STAR

METEOR

A new dwarf Cherry originated by the University of Minnesota. Very hardy; will succeed farther north than any other Cherry of equal size and quality except Meteor. Fruit ripens early; is large, dark red and sprightly acid. Stone is small and easily removed. Excellent for pies and sauce. Trees grow 5 to 7 feet tall and are branched low to the ground. Very productive.

Price: 9/16 in. trees, 2-3 ft. tall, \$2.25 each. Two or more trees at \$2.10 each, postpaid.

New super-hardy dwarf Cherry. This variety will thrive in even the severest climates. Fruit is very large, with attractive color and thin skin. Flavor is pleasant and mildly acid. Stone is small and very free. Flavor is excellent for eating fresh, canning and pies. Ripens early July. The trees grow 8 to 10 feet tall and are extremely heavy bearers.

Price: 9/16 in. trees, 3 to 3½ ft., in height, \$2.25 each. Two or more trees at \$2.10 each, postpaid. (12)

Fruit Trees

New Dwarf Peach Trees

We are indeed pleased to offer, for the first time, our new Dwarf Peach Tree. Bears the same delicious, **large size fruit** as the full size trees, and gives you these additional advantages: The low-growing Dwarf Tree is **easy to care for—easy to pick—and requires little space**. Home gardeners with only limited space can now enjoy luscious, sun-ripened Peaches picked from your own trees!

The trees are very hardy and quick-to-bear. Will produce a big crop of excellent fruit every year. Grow to a height of 6 to 7 feet; 3 or 4 can be planted in the space required for one large tree. Here is a tree you will enjoy for its spring beauty and delicious fruit for years to come. **Order yours early—while they last.**

Varieties: Elberta, Hale Haven, Red Haven, Golden Jubilee.

Hansen's BUSH CHERRY

A sensational hybrid bush Cherry, valuable not only for its excellent fruit, but for its ornamental quality as well. Grow 3 to 4 feet tall; bears great quantities of large, glistening black cherries, which make delicious jam, jelly and sauce. Extremely hard and well adapted to cold climates where standard Cherries fail. Lovely white flowers cover the bush in spring, followed by silvery green foliage which turns maroon-red in fall. **18-24 in. plants; \$1.00 each; 2 for \$1.80; 10 for \$8.25, postpaid.**

COMBINATION DWARF TREES

Dwarf 4-in-1 Apple

Have delicious Apples from first of season to last—4 different varieties on one tree! **3 to 4 ft. tall, \$7.00 each; 2 for \$13.00, mail postpaid.**

Dwarf 3-in-1 Apple

Gives you a good crop of Apples all season. Three varieties of large size excellent fruit. **3 to 4 ft. tall, \$6.00 each; 2 for \$11.00, postpaid.**

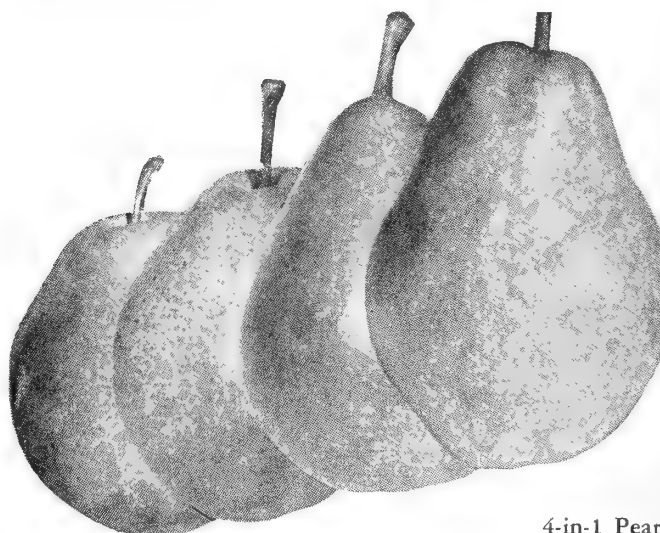

The above combination Dwarf Apple Trees are made up of the very best commercial **EARLY—MIDSEASON** and **LATE** varieties.

Dwarf 4-in-1 Pear

If you have space for only one or two small trees—you can still enjoy a full season of delicious, healthful fruit. The Dwarf 4-in-1 Pear gives you a succession of fruit, from **EARLY** to **LATE**. The trees are hardy, long-lived, quick-to-bear. They produce bountiful crops of large size fruit—for eating fresh, canning and preserves. **Varieties: Duchess, Seckel, Clapp's Favorite and Bartlett. 3 to 4 ft. tall, \$4.25 each; 2 for \$8.00, postpaid.**

4-in-1 Apple

4-in-1 Pear

New! HARDY HYBRID GRAPES

The Grapes with the sweet, flavorful skins.

Hardy Hybrid Grapes are a completely new type of Grape to most northern folks. These new Grapes resemble the California table grapes in appearance and flavor. The **Hardy Hybrid** bears very young, produces large crops, and is hardy in almost every state. The superb flavor of these Grapes cannot be matched. The skin is very tender, sweet flavored, and edible. All varieties are very well suited to wines, jellies, and table. We offer the following varieties:

SEIBEL No. 1000. Large bunches of thin-skinned, well filled, large size berries. An early, mid-season blue grape of good quality. Vine is hardy, vigorous, and very productive.

SEIBEL No. 9110. Large, compact bunches of good size, golden white berries. Vine is vigorous, producing a large amount of new wood each year. Wonderful for wine, jelly and table. Mid-season.

1 yr., No. 1 \$1.25 each; 2 for \$2.30, postpaid.

GOOSEBERRIES

DOWNING. The large, handsome, pale yellow fruits are thin skinned, tender, juicy and sweet. Splendid for cooking and table use. Vigorous grower, free from mildew. Midseason.

PIXWELL. A tremendous bearer of large, fine quality berries. Berries hang on slender stems 2 inches below regular branches, making them easy to pick. Large oval, light green berries turning to pink when ripe. Yield enormous crops; very hardy.

Red Lake CURRANTS

**Finest of all Currants—Large Berries—Excellent Quality
Long Well-Filled Clusters of Cherry Red Fruits**

The leading Red Currant for both home gardens and commercial growers. The berries are exceptionally large and of excellent quality; borne in long clusters that are well-filled out to the top, and with stems sufficiently long to make picking easy. The berries are high in pectin, and have a beautiful, light red color and delicious, rich flavor — everyone enjoys them in jelly and jam — and simply wonderful pies!

Our Red Lake Currant bushes are vigorous, upright growers and highly productive. Just a few bushes in the garden will supply the average family with enough fruit for every home use. The berries ripen early midseason and hold on over a long period, so they may be harvested and marketed as desired, making them an ideal crop for the commercial grower. We recommend **Red Lake** as the world's best Red Currant.

GRAPE VINES

- True-to-Type
- A Lifetime Investment
- Dependable Profits Every Year

Here is the fruit of kings — down through the ages grapes have provided the world with dessert, jelly, jam, juice — and warm, friendly wines. Allen's grapes proudly further the fine tradition of wonderful grapes. Allen's excellent quality 2-year old grape vines are grown near Fredonia, New York (the Grape Center of the World) — under the expert personal supervision of William Allen. Tremendous, life-giving roots grown from 2-eye cuttings give you hardy, long-producing vines. Cut only by the members of the Allen family from the biggest and healthiest of the famous Ohio and New York vineyards. Guaranteed True-to-Type. Guaranteed to fulfill your fondest wishes!

Bear in 2 years: Space 6 x 8 ft. apart, plant 907 vines to the acre.

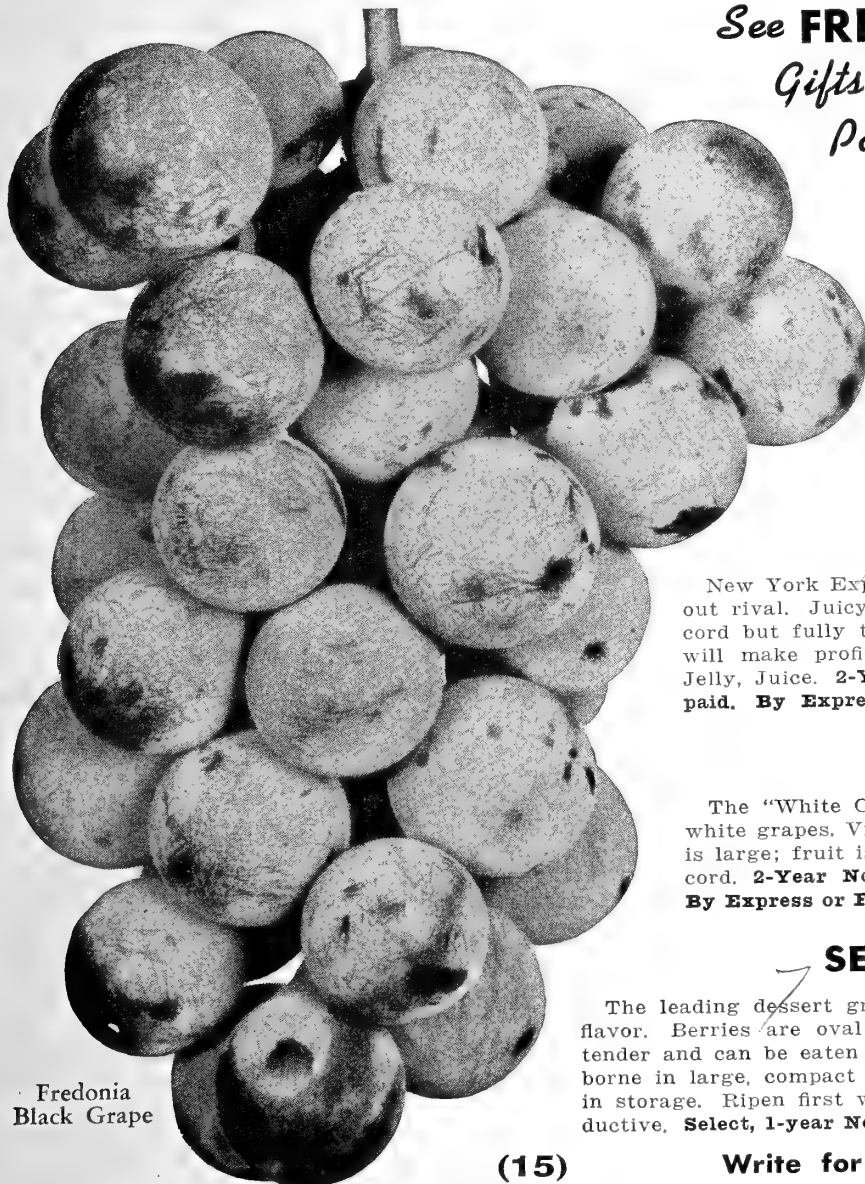

INTERLAKEN SEEDLESS

Originated at the Agricultural Experiment Station at Geneva, New York after 30 years of experimenting and close breeding. Interlaken was developed from crossing the Thompson Seedless, a California Grape, with our own Ontario. It has proved hardy in temperature to 15 degrees, and no material harm has been noticed until after temperatures have reached 20 degrees or below. Fruit is golden yellow in color, very sweet, flesh meaty and crisp and of excellent texture. Cluster of berries is of medium size. Ripens about August 30th or earlier. **Selected 1-year No. 1 vines, \$1.25 each; 3 for \$3.50, postpaid.**

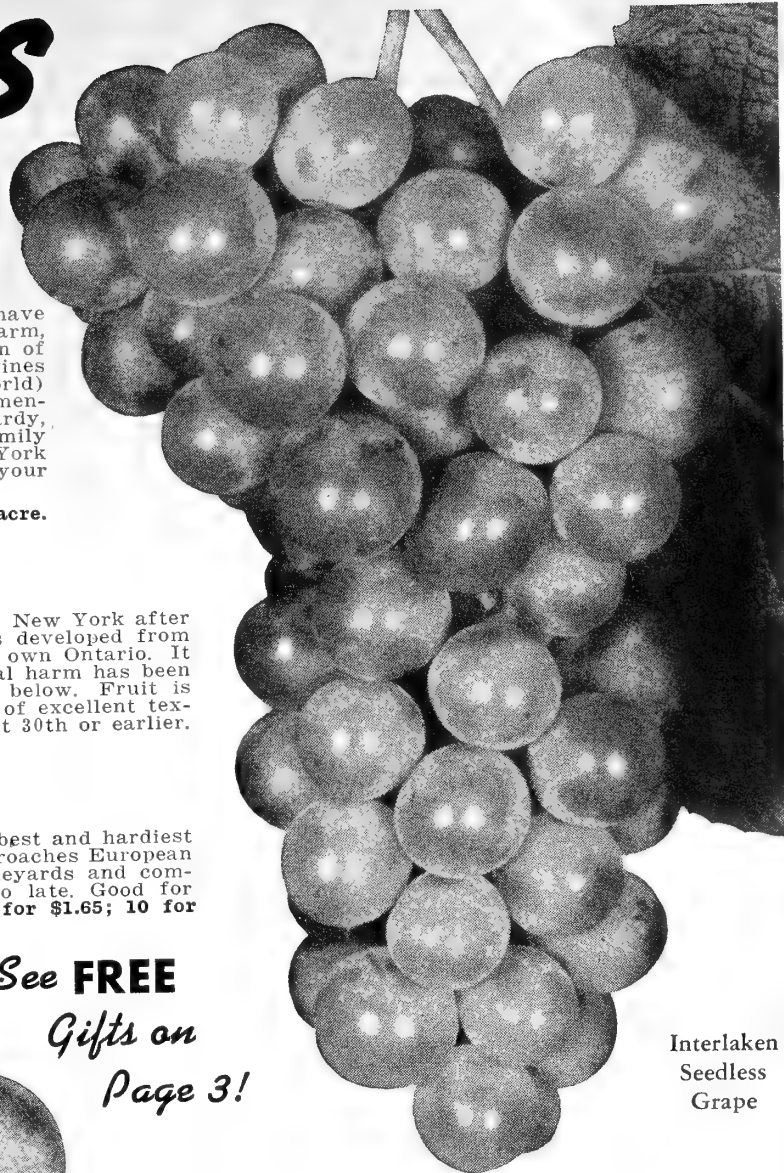

CACO — Red

The best red Grape. This new, amber red is considered the best and hardiest of its kind. Its bunches are large and the flavor of its fruit approaches European Muscat for rich, sweet qualities. Recommended for home vineyards and commercial use. Holds fruit well after ripening — midseason to late. Good for eating fresh, juice, market. **2-year No. 1 vines, 60c each; 3 for \$1.65; 10 for \$5.00 Postpaid. By Express or Freight Collect, 100 for \$20.00.**

Fredonia
Black Grape

Interlaken
Seedless
Grape

CONCORD — Blue-Black

Most popular, most widely planted of all Grapes. The bunch and the berries are very large. Hardy, vigorous — will produce more fruit than any other variety. Ripens midseason. The leading wine and market grape. Very good for Eating, Juice, Jelly, too. **2-year No. 1 vines, 40c each; 3 for \$1.10; 10 for \$3.25, Postpaid. By Express or Freight Collect, 100 for \$15.00; 1000 for \$120.00.**

FREDONIA — Black

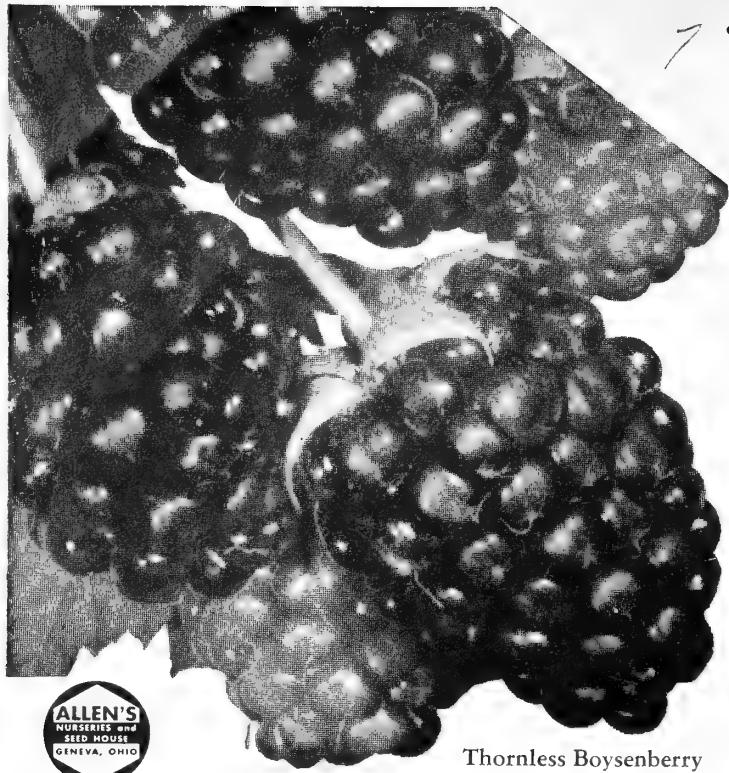

New York Experiment Station production. The early Black Grape without rival. Juicy, tender fruit; good clusters equal in every way to Concord but fully two weeks earlier. This is a tried and tested variety and will make profits for the home grower and shipper. Good for Eating, Jelly, Juice. **2-Year No. 1 vines, 60c each; 3 for \$1.65; 10 for \$5.00, Postpaid. By Express or Freight Collect, 100 for \$20.00.**

NIAGARA — White

The "White Concord." One of the most widely planted and best known white grapes. Vine ranks with Concord in vigor and productiveness. Bunch is large; fruit is wonderfully flavored. Most characteristics same as Concord. **2-Year No. 1 vines, 60c each; 3 for \$1.65; 10 for \$5.00, Postpaid. By Express or Freight Collect, 100 for \$20.00.**

SENECA — Golden Yellow

The leading dessert grape. Famous from coast to coast for its really delicious flavor. Berries are oval in shape and have a rich, golden-yellow color. Skin is tender and can be eaten with the berry; flavor is sweet and aromatic. Grapes are borne in large, compact tapering bunches; keep exceedingly well on the vine and in storage. Ripen first week in September. Vine is vigorous, hardy and very productive. **Select, 1-year No. 1 vines, 75c each; 3 for \$2.10, Postpaid.**

Thornless Boysenberry

7 Thornless **BOYSENBERRY**

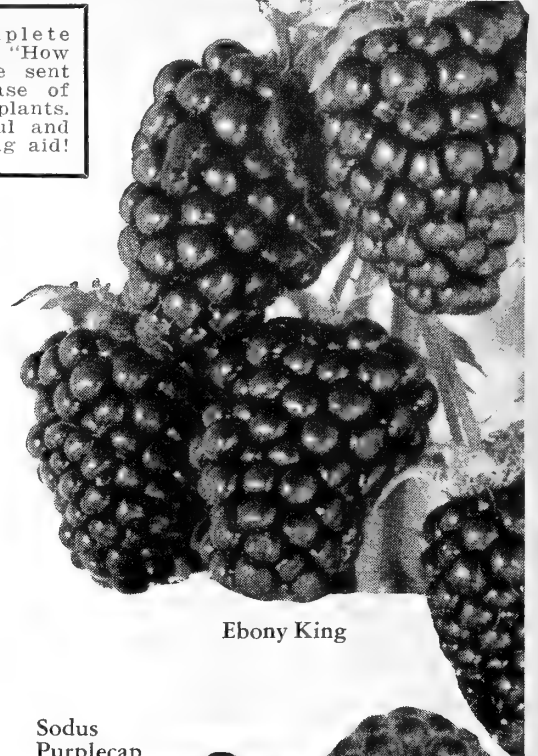

Tastiest, Juiciest Berry Ever Grown

The berries are of immense size, of the Blackberry type but grow like Dewberries. The dark berries often measure $2\frac{1}{2}$ inches in length and have few seeds. Boysenberries have a distinctively different flavor and when allowed to fully ripen on the vine are much sweeter than any other vine berry. The fruit will hang for days on the vine after ripening. They are very juicy, and the tastiest berries you have ever eaten, fresh or canned; make delicious pies. Hardy, requiring no protection under normal conditions. Ideal for quick-freezing.

By Mail Postpaid, No. 1 plants, 40c each; 5 for \$1.40; 10 for \$2.65. By Express or Freight Collect, 100 for \$11.00; 250 for \$22.50.

FREE! The complete pocket booklet on "How to Plant" will be sent with each purchase of nursery trees or plants. It's a very helpful and descriptive planting aid!

Ebony King

Easy-to-Grow **BLACKBERRIES**

EBONY KING. The sensational new, super-bearing Blackberry. Every plant will yield an excellent crop of fine quality, full-sized fruit. Berries are glossy black, large and jam-packed with tangy, sweet flavor. Excellent for pies and canning. Plants are hardy, vigorous growing.

By Mail Postpaid, No. 1 plants, 6 for \$1.95; 12 for \$3.75; 25 for \$7.25.

By Express Collect, No. 1 plants, 50 for \$13.50; 100 for \$21.50; 500 for \$87.50.

ELDORADO. One of the largest Blackberries in existence. Perfectly hardy in all sections — will stand 20 degrees below zero. Berries are jet black, very sweet and juicy, and practically coreless. Very popular for canning; holds its firm texture and dark color. An exceptionally heavy producer. In our opinion, the best commercial Blackberry.

By Mail Postpaid, No. 1 Plants, 10 for \$1.50; 25 for \$2.50; 100 for \$9.50.

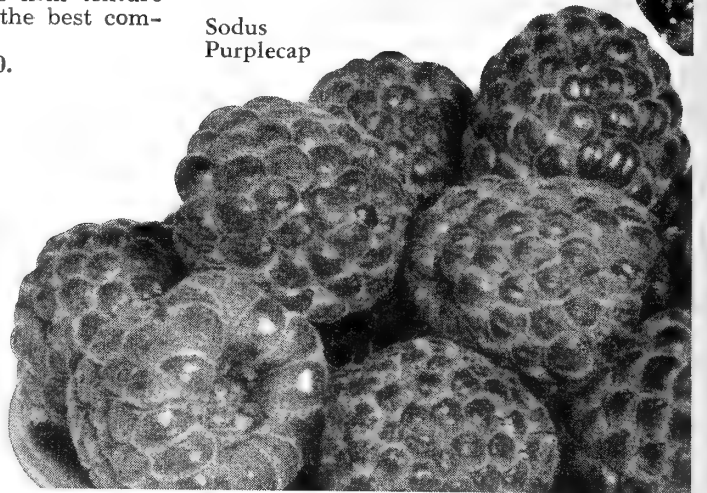

By Express Collect, No. 1 Plants, 250 for \$18.00; 1000 for \$70.00.

PURPLE RASPBERRIES

SODUS PURPLECAP. Best for every home use! Produces extra large berries, about twice the size of other Purplecaps. You will especially enjoy the distinctive flavor of Sodus — whether you eat them fresh or canned, in pies or jam and jelly — they offer a real taste-thrill! The berries are round in shape, have an attractive bright purple color and extra-firm quality, with no tendency to crumble. The plants are very vigorous, hardy and bear enormous crops. Ripen shortly after Latham. By Mail Postpaid,

10 for \$1.85; 25 for \$3.50; 50 for \$6.75. By Express Collect, 100 for \$11.00; 250 for \$20.00; 1000 for \$65.00.

Black Hawk Raspberry

Sodus Purplecap

BLACK HAWK Raspberry

Large Berries — Delicious Flavor — Heavy Producer

Originated at Iowa State College and introduced in 1955, this new Hybrid has a record for exceptionally high yield — producing as many as 5000 pints per acre in tests made in Iowa. The berries are unusually large, often measure $\frac{3}{4}$ -inch in diameter. Ripen about midseason. Beautiful, glossy black berries, firm yet juicy and sweet and richly flavorful. Wonderful for eating fresh, canning, freezing, and for jams, pies and fancy desserts.

Black Hawk is proving a leading Black Raspberry for commercial growers and home gardeners alike. The berries hold up well in shipping and handling; they are firm, easy to pick and do not crumble. The plants are very hardy and strong, vigorous growers. We believe you'll want to give Black Hawk a trial this spring and suggest you order early. By Mail Postpaid, No. 1 Plants, 3 for 90c; 6 for \$1.75; 12 for \$3.25; 25 for \$6.25; 50 for \$11.00; 100 for \$20.00.

Indian Summer

Allen's *Climatized* RASPBERRIES

Will do well in any ground that will produce a good corn crop. Soil should be thoroughly prepared and well enriched; ground bone is one of the best fertilizers. Keep well cultivated and free from weeds and suckers. As soon as bearing is over—cut out old wood to give more vigor to the young canes. All Raspberries are benefited by mulching in both summer and winter. Plant in rows 5 feet apart, 3 feet apart in the row.

RED RASPBERRIES

NEW SEPTEMBER — Everbearer

A superior, new variety that bears a full crop of berries in June and another large crop in September. Developed by Dr. Geo. L. Slate of the New York Experiment Station. The berries are larger and of excellent quality; show no tendency to crumble when ripe. Keep well on the bush and after picking. Fruits ripen several days before earliest spring bearing varieties. Fall crop matures 2 to 4 weeks ahead of other fall varieties—thus avoiding failure due to early fall freezes. Plants are hardy and vigorous. A good variety for home gardens and commercial growers. Supply is limited—Order yours today.

By Mail Postpaid: 3 for \$1.00; 5 for \$1.60; 10 for \$3.10; 25 for \$6.50; 50 for \$12.00; 100 for \$20.00.

INDIAN SUMMER

A tremendous sensation because of its giant size, delicious taste, and appealing glossy red beauty. And, sensational also because it starts to bear early in the season and produces two (2) big crops every year. So hardy that it thrives even in Canada. High quality berries. Ideal for quick-freezing and many culinary uses.

By Mail Postpaid: 5 for \$1.40; 10 for \$2.45; 25 for \$4.95; 100 for \$15.25.

LATHAM

Certified absolutely mosaic-free and acceptable anywhere. Latham is perfectly hardy, withstanding Manitoba winters without protection. Its production is superlative, outyielding all others. The berries are large and round, with profitable shipping firmness. The color is rich, brilliant red. Delightful on the table and a perfect canner.

By Mail Postpaid, 5 for \$1.10; 10 for \$2.00; 25 for \$3.60.
By Express Collect, 100 for \$11.00; 250 for \$24.95; 500 for \$45.00; 1000 for \$85.00.

BLACK RASPBERRIES

CUMBERLAND

Large, plump and tasty berries. Healthy, vigorous grower; heavy bearer. Flavor sweet. Grown for many years but it is still the leading black-cap variety.

By Mail Postpaid: 10 for \$1.65; 25 for \$2.75; 100 for \$8.25.
By Express Collect: 250 for \$17.50; 1000 for \$60.00.

DUNDEE

New, extra-heavy fruiting black Raspberry. Excellent quality, large size, glossy black berries; ripens 3 or 4 days ahead of Cumberland. This variety has been grown in every type of soil in New York State and has produced bumper crops where other varieties have failed. Out-produces all other varieties three to one.

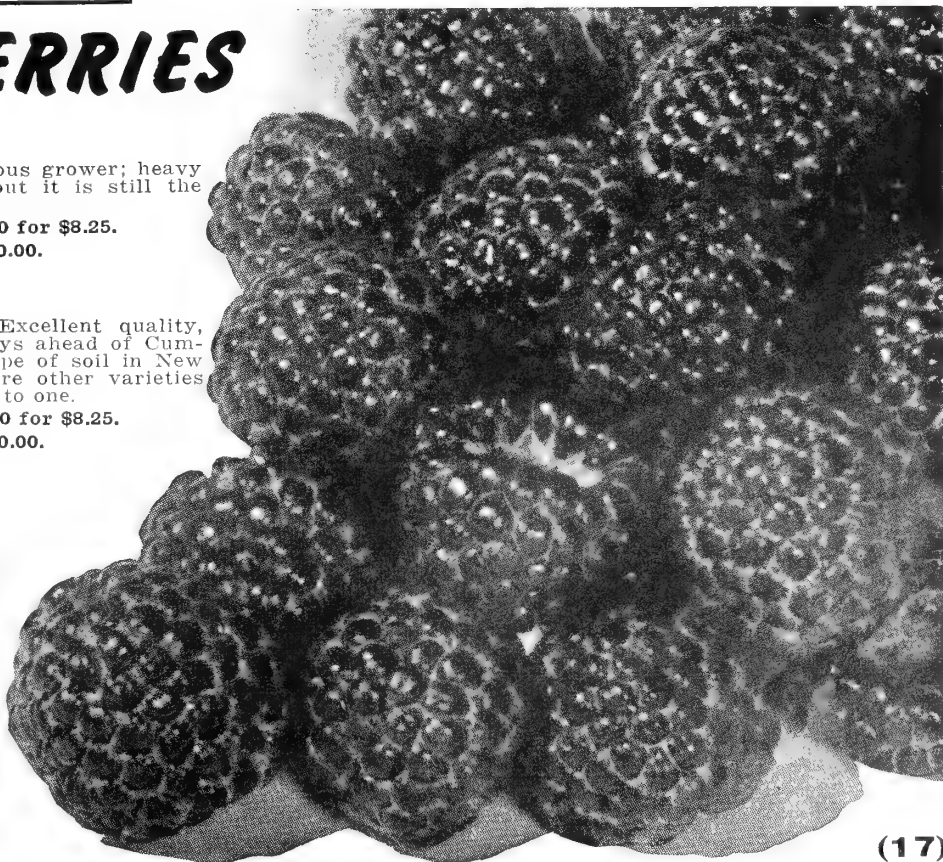

By Mail Postpaid: 10 for \$1.65; 25 for \$2.75; 100 for \$8.25.
By Express Collect: 250 for \$17.50; 1000 for \$60.00.

NEW MORRISON

An outstanding new variety, originated in northern Ohio. Berries are extremely large, nearly an inch in diameter and do not crumble. Hold up well after picking and shipping long distances. Ripens a little later than Cumberland. Fruit has rich glossy black color and very delicious flavor. Plants are hardy, disease resistant and heavy bearers. Will grow on all types of soil. For vigorous growth and quality of fruit, they cannot be surpassed.

By Mail Postpaid: 10 for \$1.65; 25 for \$2.75
100 for \$8.25.

By Express Collect: 250 for \$17.50;
1000 for \$60.00.

New RED RICH

FAMOUS NEW EVERBEARER

(Plant Pat. No. 993). A recent development by the University of Minnesota, new Red Rich is a cross between Wayzata and Fairfax and combines the best qualities of both. Bears the reddest, sweetest berries you ever saw. Yields a heavy crop in June and keeps right on producing all summer and into fall. Red Rich berries

are perfect for freezing — big, red and solid clear through to the core; they won't mush-up when thawed. The big, beautiful berries make you hungry just to look at them. When you eat them, you will agree that they certainly have that sweet delicious, real strawberry flavor. The plants themselves are so attractive with their abundance of large, deep green leaves, that some folks who do not have a fruit garden, set the red Rich plants in the perennial border. Red Rich is a thrifty, vigorous grower and abundant plant maker and heavy yielder. You get good foliage, plus the blossoms, plus the wonderful fruit. A dependable new everbearer for home gardens and commercial growers. 12 plants for \$2.95; 25 for \$5.00; 50 for \$8.50; 100 for \$15.00, postpaid.

BERRY-SET

Bigger Berries—Bigger Yields

A Hormone Spray for Raspberries, Blackberries. Makes berries grow 50% to 100% larger, meatier, sweeter and more luscious. Increases yields greatly. Sprayed berry plants bear ripe fruit over a longer period. Easy to use—just mix with water as directed on package.

1 oz. (makes 4 gal.) \$.50 p.p.
3 oz. (makes 12 gal.) 1.00 p.p.

BRILLIANT EVERBEARER

This sensational new variety is becoming the leading Everbearer of all time! Originated in northern Michigan by that plant wizard, F. J. Keplinger, the plants are extremely hardy and productive. In tests made with numerous other everbearing varieties, Brilliant produced 2000 quarts more per acre than any other variety tested. The plants are so vigorous you can start picking ripe berries just a few weeks after the plants are set out.

Brilliant succeeds under all conditions of weather and produces great big, luscious berries that are so attractive they always sell at premium prices. The color is brilliant red clear through; flavor is rich and tangy — wonderful for fresh desserts, canning and freezing. For greater profits per acre than ever before, we recommend planting Brilliant this spring. Prices: 12 plants, \$1.75; 25 for \$3.25; 50 for \$5.75; 100 for \$9.95 postpaid. 250 for \$23.50; 500 for \$42.85, Express Collect.

Brilliant

SUPERFECTION

A top variety of Everbearer that merits your attention. Plant in April and May and you'll be eating large, delicious berries about 60 days later. Get 3 big crops in 18 months. The berries are big, firm and bright red all the way through. Firm texture makes Superfection a wonderful shipper and all-purpose berry — holds its deep red color, keeps its flavor and delicacy even when canned or frozen.

Superfection has proved to be rugged and hardy in northern Michigan; withstands adverse weather conditions. Plants are thrifty, vigorous growers and make a good fruiting row. Superfection is another Keplinger origination and was developed to succeed under all climatic conditions. Give Superfection a trial this spring—you won't be disappointed. Prices: 25 plants \$2.25; 100 for \$6.00, postpaid. 250 plants for \$12.00; 500 for \$18.75; 1000 for \$30.00. Express Collect. Write for prices on quantities larger than those listed.

(18)

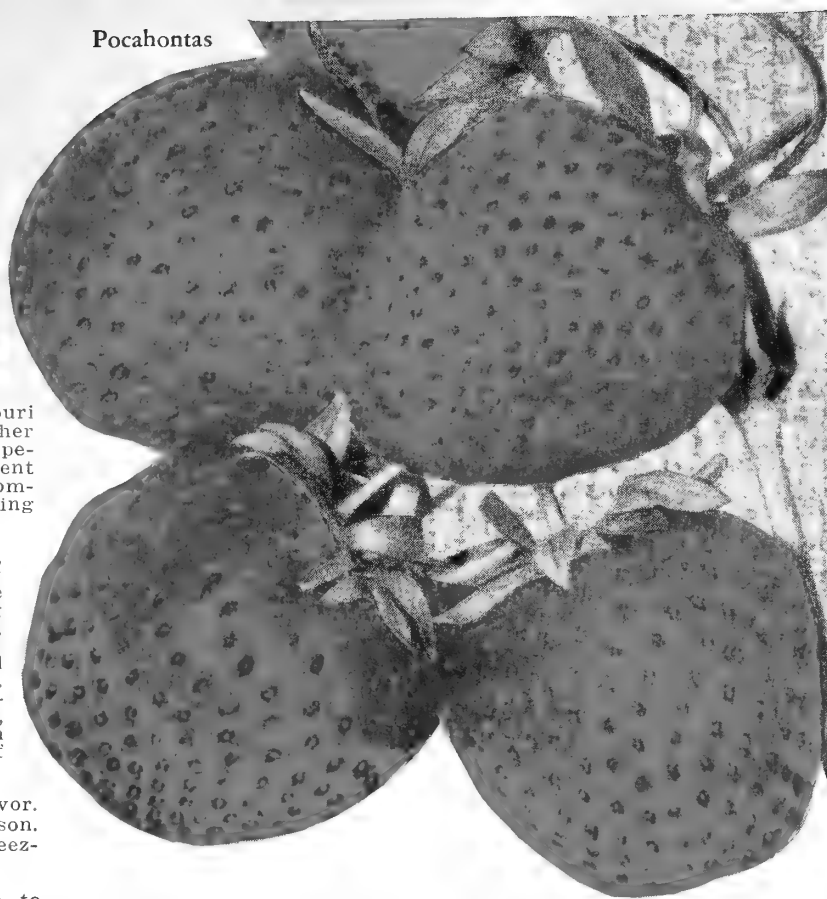

JUMBO

JUNE-BEARING STRAWBERRY

This exceedingly vigorous grower produces large quantities of berries which are extra large and the flavor is mild and sweet. Plants are strong, vigorous and very healthy; makes an excellent fruiting row. Berries are firm and solid and when fully ripe, they are a very dark red. Berries may be picked when they reach the color of Premier, or allowed to remain on the plant until completely ripe. Not quite so early as Premier. Proven one of the heaviest yielding strawberries known. Especially good for preserving and home freezer. It keeps and ships well, too. Prices: Postpaid, 25 for \$2.15; 50 for \$3.50; 100 for \$6.00. Express Collect, 250 for \$13.50; 500 for \$22.50.

Pocahontas

ARMORE. This new June bearer, introduced by the Missouri Experimental Station, has proved more productive than 60 other varieties in actual growing tests. Produces over a long period and makes a good fruiting row. Berries are of excellent quality and hold up well in handling and shipping. We recommend it for trial throughout the Premier, Blakemore growing areas.

EMPIRE. (June bearer.) Ripens late midseason. Great big, luscious glossy red berries, so attractive in appearance they are always in demand and command high prices on the fancy fruit market. An excellent keeping and shipping variety. Plants are vigorous growers and dependable bearers.

FAIRFAX. Honey-sweet . . . "the most deliciously flavored of them all." Very large, very uniform, bright red berries. Firm ideal for shipping. Excellent for home use, and canning and quick-freezing. An extremely high-quality berry, considered by most people to be of better flavor than Premier. Very productive, having produced at the rate of 5,120 quarts per acre. Ripens with Premier.

FAIRLAND. Attractive, brilliant red color; tangy-sweet flavor. Highly productive. Large berries ripening in early mid-season. Resistant to Red Stele. Firm berry — excellent for home freezing and canning. One of the best shippers.

PAYMASTER. (June bearer.) Ripens midseason. Similar to Sparkle but in tests it proved to be a superior variety. Plants are highly productive, thrifty growers and good runner makers. Berries have good dark red color clear through and are juicy yet firm, making it an excellent freezing and shipping variety.

PLENTIFUL. Ripens late midseason. Here's the variety that earned its name by performance. The plants are extremely heavy bearers. The berries are exceptionally large and top quality; brilliant red color and excellent flavor. For heavy production, when the demand is high after earlier varieties are through, we highly recommend this berry. Resistant to red stele and leaf spot. An outstanding June-bearing variety.

POCAHONTAS. An unusually vigorous variety that merits the attention of the small home gardener as well as commercial grower. Ranks with Premier as a shipping berry, being of extra firm quality and tough skin. The color is a glossy, vivid red. The flavor is tart and tasty. Ripens a week later than Premier. Well worth a trial.

PREMIER. Premier has everything that its name implies. One of the most popular of all varieties. It is the first strawberry to ripen. The fruit is large, of deepest red, with firm, high-quality flesh. A heavy yielder with thrifty growth. You can depend on Premier for a good crop when other varieties are a failure. Foliage is not susceptible to the leaf spot which has ruined many Strawberry patches. We unhesitatingly recommend Premier for either home or commercial planting.

ROBINSON. Scarlet Beauty. Medium-Late. Fine June variety. The fruit is large, conical, scarlet-red all through. Very firm and glossy. Delicious for table use; a wonderful canner and preserver.

TEMPLE. Delicious, large, beautiful, deep rich-red berries. One of the first to ripen. Highly resistant to Red Stele. Exceptionally vigorous variety. Excellent for jam and table use. Plant some this spring.

PRICES ON ALL JUNE BEARING STRAWBERRIES (Except Jumbo)

Write for Special Quotation of Prices on Larger Quantities

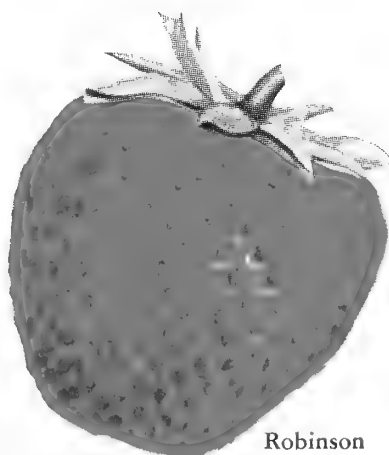

SPARKLE. A high quality berry with rich red color clear through. One of the best for freezing and other processing. Ripens late. Sparkle is highly resistant to red stele. Plants are very vigorous and make a good fruiting row under almost all conditions of weather.

STELEMASTER. One of the most recent introductions of the Beltsville, Md., U. S. D. A., and practically "red stele proof"! Ripens about the same time as Premier. Berries are uniform smooth and of good size. Flesh is light red, juicy and firm, with mildly sub-acid flavor. Plants are very vigorous and productive.

VERMILION. New June bearing variety from the Illinois Agricultural Experiment Station. Ripens about the same time as Premier. The plants are thrifty, vigorous growers; resistant to red stele, leaf spot and leaf blight. Yields good crops of medium large, glossy red berries. The flavor is sweet and highly aromatic. The berries are uniformly round in shape and of excellent quality. This variety is recommended for all sections where Premier has been grown and fallen victim to red stele. A top-notch variety for home gardener and commercial grower.

Climatized CULTIVATED BLUEBERRIES

To Make Those Luscious Pies, Jams, and Jellies
EVERYONE WILL RAVE ABOUT

These giant cultivated blueberries are far superior to ordinary wild berries. They are the result of years of scientific breeding by State Experimental Stations. Two to six bushes in your backyard will furnish your family with more than enough berries for baking and canning. Commercial growers will find an eager market for these highly profitable berries.

Here's a friendly tip: For best results blueberries must have an acid soil with plenty of moisture. Add a liberal amount of acid peat, rotted leaves, pine needles, or sawdust to your soil when planting. Space plants 4 x 10 ft. apart.

Two varieties should be planted together for pollination.

BURLINGTON. (Very late variety.) Extends the blueberry season 5 to 10 days. A sturdy upright bush, noted for its high production of medium size, aromatic berries. An appealing color and firmness and fine dessert qualities. A very good berry to ship.

DIXIE. (Late variety.) No other bush yields fruit so big. A very large and vigorous bush. Ripens about the same time as Rubel. Berries are firm, pleasingly aromatic and one of the most popular commercial variety.

PEMBERTON. (Late variety.) Considered the most vigorous of all. A very fast grower of big firm berries. Firmness and slight aroma, make wonderful dessert. Very fast grower.

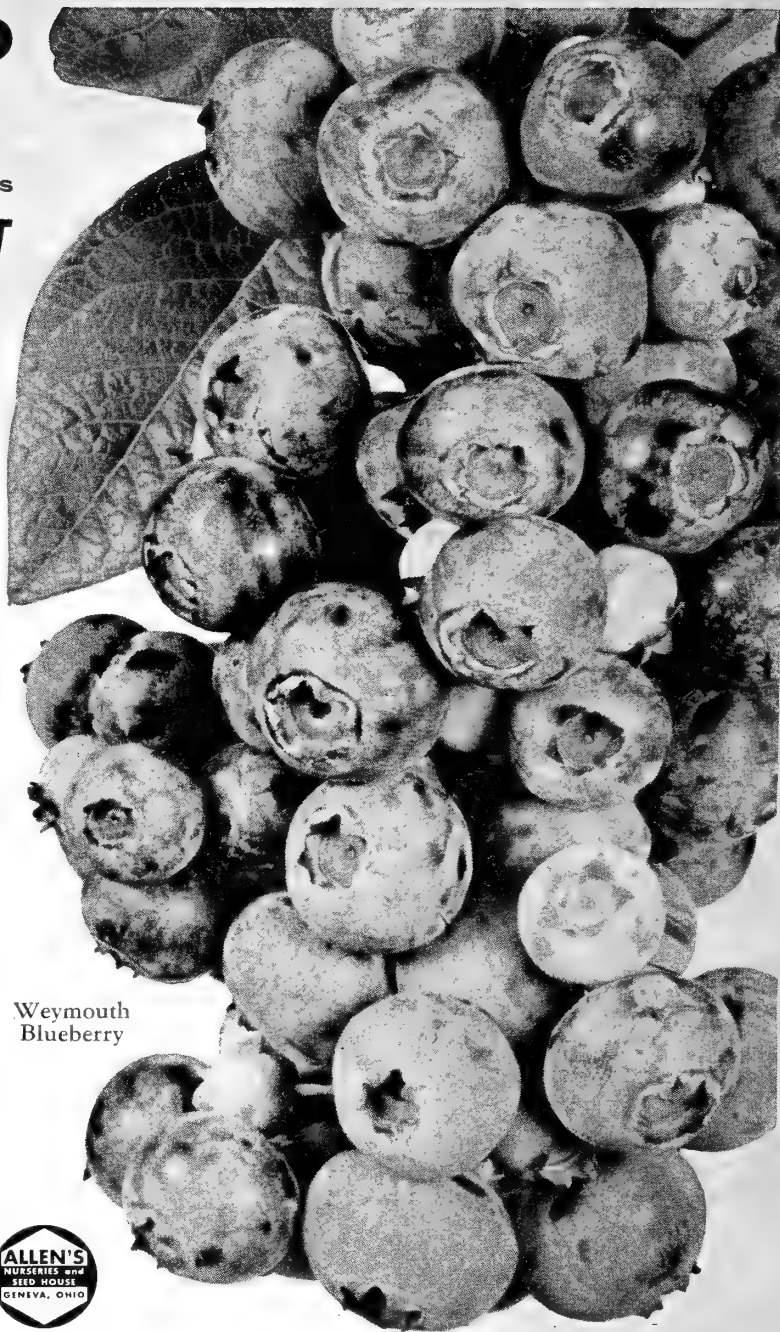

RANCOCAS. (Early.) Upright, vigorous, hardy. Fruit medium to large size; very fine flavor. Sets very heavy crop. Needs pruning.

JERSEY. The berries are the largest of any here listed, of a light color, firm and sweet. Ripens late, mid-season. The bush is of vigorous habit and grows very large. The winter color of the young growth is a light red over gold brown.

STANLEY. (Late.) Plants tall, vigorous with large, thick shiny leaves and very productive. Fruit large, perfumed and most delicious in flavor. Ripens late mid-season.

WEYMOUTH. (Earliest.) Developed on our own farm. Medium upright bush, yielding extra-large, dark blue berries. A very heavy cropper of fast-ripening fruit. Commercially, crops can be sold for early market prices.

ALLEN'S *Climatized* MULBERRY TREES

FINE FOR FRUIT AND SHADE

(20)

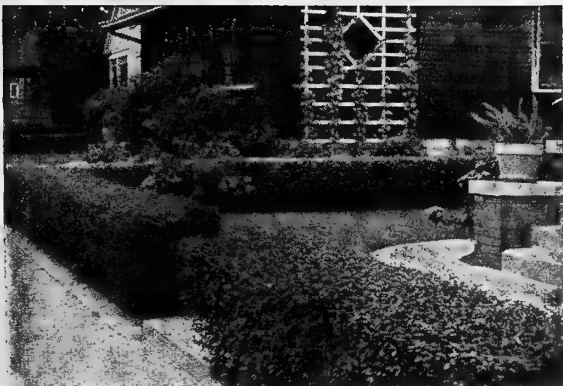

New American Mulberry

DOWNING EVERBEARING We consider this variety one of the most prolific of all Mulberries. Bears an abundance of jet-black, enormous fruits all summer. Trees are very hardy and long-lived; yield big crops of top quality berries year after year. The berries have a delicious rich flavor and are wonderful for fresh desserts, jams and jellies — for mouth-watering pies, they are without equal!

The trees grow rapidly and make a large, wide-spreading, graceful shade tree. Perfectly hardy and easy to grow; require very little care. The Mulberry is a fine ornamental and a worthwhile addition to any location. For shade, beauty and luscious, sweet fruit, we believe you will agree, the Mulberry tree is outstanding.

It is interesting to note that all species of birds prefer Mulberries to other types of berries and cherries. Many fruit growers plant them in their cherry orchards in order to keep the birds from their cherry crop. **First class, 3 to 4 ft. trees; \$1.65 each; 2 for \$3.00, postpaid.**

ORDER EARLY

Amur River North Privet

Multiflora Roses

MULTIFLORA ROSES

A LIVING FENCE IDEAL FOR FARMS

Here is the ideal farm fence. A living fence that will last for years and requires no expensive upkeep or repair bills. Grows rapidly; makes a hedge dense enough to keep farm animals from straying and provides a wonderful wild game refuge. Multiflora Roses add beauty to your farm property as well as being a practical way to fence. Grows rapidly and succeeds in all types of soil. Grow 8 feet tall, but may be trimmed to any desired height. A good conservation planting size, 18 to 24 in., heavy, branched, 10 for \$2.25; 25 for \$4.25, postpaid. 100 for \$12.95, not postpaid.

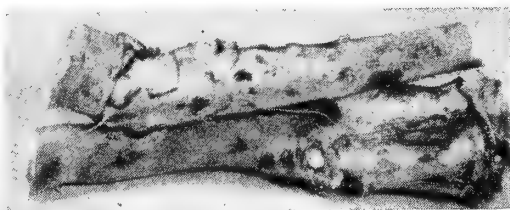

VEGETABLE PLANTS

RHUBARB ASPARAGUS

CANADA RED. Beautiful red color clear through; tender and very sweet. Retains its bright color in cooking. Very delicious for pies and sauce. Strong field divisions. By Mail Postpaid: 60c each; 10 for \$5.50; 25 for \$12.50.

MYATT'S VICTORIA. The old-fashioned Rhubarb. Very tender; excellent flavor. Our stock seed plants are carefully selected and protected against cross pollination from inferior strains, to assure you of getting large, well-colored Rhubarb from the plants we sell. Strong, whole roots, 1 to 1½ in. caliper. By Mail Postpaid: 35c each; 10 for \$2.50; 25 for \$6.00. By Express Collect: 50 for \$10.50; 100 for \$18.00.

Bohemian Horseradish

For that good strong old country flavor. An improved Horseradish. Large roots with a mild flavor. By Mail Postpaid, No. 1 roots, 10 for \$1.25; 25 for \$2.50; 100 for \$7.50.

WASHINGTON RUST-PROOF.

New government origination that is rustproof, early and very productive; the heads are solid and compact; stalks are often an inch or more in diameter, crisp and delicious. Good green color. Mild, rich full flavor. A standard variety producing the finest shoots of Asparagus in abundance. In great demand for shipping, canning and freezing.

BIG No. 1 ROOTS

By Mail Postpaid, 10 for \$1.25; 25 for \$2.15; 100 for \$6.00.

ALLEN'S HARDY HEDGES

THE FRIENDLY WAY TO FENCE

Prices each postpaid: 10, 25 and 100 by Express or Freight Collect.

BERBERIS thunbergi atropurpurea. Red-leaf Barberry. Rich, lustrous, rich red like the richest red-leaf Maple — becoming a brilliant vivid scarlet in Autumn. An easily grown shrub of medium height. Of great value in all types of landscaping. The abundant scarlet berries persist throughout the winter along the dense network of spiny twigs. A sunny exposure is necessary to bring out and retain its full red color. 2-yr., 12 to 15 in., 60c each; 10 for \$5.00. 2-yr., 15 to 18 in., 75c each; 10 for \$6.50. 2-yr., 18 to 24 in., \$1.00 each; 10 for \$8.00.

BERBERIS thunbergi. Japanese Barberry. A thorny all-purpose dwarf shrub. Compact. Bushy. Small light green leaves, turning to orange and scarlet in Autumn. Bright red berries hang on bush all winter. One of the finest ornamental hedging and bank plants. Nothing can rival it when used informally along sidewalks. By Mail Postpaid: 2-yr., 12 to 18 in., 45c each; 5 for \$1.95, postpaid; 10 for \$3.75; 25 for \$6.95, Exp. Collect. 2-yr., 18 to 24 in., 60c each; 5 for \$2.75, postpaid. 10 for \$4.95; 25 for \$8.95, Exp. Collect.

AMUR RIVER NORTH PRIVET. One of the hardiest and best of all Privets. Leaves not so shiny; stiff, upright grower. Makes a very dense hedge. 2-yr., 15 to 18 in., branched. By Express, 25 for \$4.00; 100 for \$14.00. 18 to 24 in., 25 for \$5.00, 100 for \$18.00. 2 to 3 ft., 25 for \$6.00; 100 for \$20.00.

HARDY OHIO-GROWN CALIFORNIA PRIVET. The most popular of all hedge plants. Leaves stay on until Christmas and are beautiful waxy green. Can be trimmed any shape. A mass of green ten months of the year. 2-yr., 15 to 18 in., branched. By Express, 25 for \$4.00; 100 for \$14.00. 18-24 in., 25 for \$5.00; 100 for \$18.00. 2 to 3 ft., 25 for \$6.00; 100 for \$20.00.

BLUE LEAF HEDGE (DWARF SALIX). Perfect low-growing hedge plant for edging and low border. Has beautiful finely cut, grayish blue-green foliage. Makes a thick, compact growth; thrives in all soils and is extremely hardy. 12-18 inch sturdy hedging, 10 for \$3.95; 25 for \$8.95, postpaid.

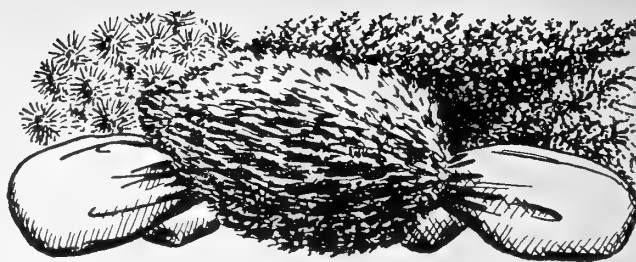

BRIDAL WREATH SPIREA

(Spirea Van Houttei). One of our most useful and popular flowering shrubs. Hardy, dependable; grows with equal success anywhere. Can be trimmed any time; makes a perfect informal hedge or tall, screening hedge. Produces masses of tiny white flowers during June. For a nice compact hedge, set bushes 2½ to 5 feet apart. 15-18 in., 30c each; 5 for \$1.45; 10 for \$2.85; 50 for \$10.95. 18-24 in., 40c each; 5 for \$1.95; 10 for \$3.85; 25 for \$7.95; 50 for \$13.95.

PLANT ALLEN'S EVERGREENS

For Year Round Beauty

All of Allen's Evergreens are carefully dug — all the roots protected with a ball of earth, and wrapped with burlap to prevent drying out.

Because this expert protective proc-

ARBORVITAE AMERICAN (*Thuja occidentalis*). Pyramidal shape; soft green foliage in spring and summer, which changes to brown or bronze in winter; rapid grower, fine for massing, hedges. 2 to 3 ft., **\$3.50 each.**

ARBORVITAE, Globe (*Thuja occidentalis globosa*). Forms a dense, low globe that is ideal for foundation plantings. Handsome shades of green, 15 to 18 inches, **\$3.50 each.**

ARBORVITAE, Siberian. A superb hardy variety, somewhat similar to American, with heavier and fuller foliage and more compact in habit; bears trimming well. This variety is extensively used in foundation planting, where dense bushiness is required rather than height, 24 in., **\$3.50 each.**

ARBORVITAE, Oriental (*Thuja orientalis*). A comparatively low, broadly pyramidal tree native to Asia. Its color is a refreshing yellowish green, similar to Hovey's, changing to bronzy green in winter. 2 to 3 ft., **\$3.50 each.**

ARBORVITAE, Pyramidal (*Thuja pyramidalis*). Most compact and erect of the entire family with a graceful dignity. Foliage deep green, retaining its color well. 2 to 3 ft., **\$3.50 each.**

JUNIPER, Irish (*Juniperus communis hibernica*). Erect, slender, and formal in habit. Foliage sage-green. Very compact, making a splendid column, finally reaching 12 to 15 feet. Selected specimens. 2 to 3 ft., **\$3.50 each.**

BLUE FITZER'S JUNIPER (*Juniper Hetzi*). This evergreen grows like its parent, the Pfitzer's Juniper, of which it is a sport. A much more rapid grower with a decidedly blue cast. It is a dense grower and very beautiful. Likes plenty of trimming. B & B., 18 to 24 in., **\$4.50 each.**

JUNIPER, Pfitzer (*Juniperus Chinensis Pfitzeriana*). Very dark green, spiral branches, long and whip-like, spreading and keeping quite close to the ground. 18 to 24-in. spread, **\$4.50 each.**

JUNIPER, Spiny Greek (*Juniperus excelsa stricta*). A very dense dwarf variety with beautiful blue-green color. Cone shaped, slow growing and very useful in borders and foundation plantings. 18 to 24 in., **\$3.50 each.**

CANADA HEMLOCK (*Tsuga Canadensis*). "Most graceful of all evergreens" is the title often given this beautiful tree. Generally conical in shape, the branches taper evenly from a broad base to a long sheet at the top. The soft, delicate needles, $\frac{1}{4}$ to $\frac{1}{2}$ inch long, are dark green on the surface and whitish underneath. Will stand a great amount of pruning and shearing, making them ideal for specimen use and foundation planting. Prefer a shaded location. 2 to 3 ft. tall, B & B., **\$4.50 each.**

ess makes the trees too heavy to mail, they are shipped Express or Freight Collect.

DOUGLAS FIR (*Pseudotsuga douglasi*). Among the tallest trees in the world. Reaches a height of 200 feet or more. Good dark green foliage. We are offering the Colorado silver-gray strain, considered the best for ornamental purposes. 2 to 3 ft., **\$3.50 each.**

MUGHO PINE. A low-growing pine with short stiff needles. Ideal for boxes, terraces, corner plantings and wherever a dwarf evergreen is needed. Heavy 15 to 18-inch spread. B & B., **\$3.75 each.**

SPRUCE, Colorado Blue Select (*Picea pungens glauca*). This is one of the showiest and most impressive evergreens, noble and majestic. The blue shade usually improves and deepens with age. Especially valuable for specimen plantings, and for accent among darker evergreens. Makes a rapid, symmetrical growth. 18 to 24 in., **\$5.50 each.**

SPRUCE, Norway. A loftier, open tree of pyramidal habit, picturesque against the sky, so statuesque. Hardy, rapid growing; thrives everywhere. Very popular and effective in groups, foundation plantings; excellent for windbreaks and shelters. Compact, heavy foliage. 2 to 3 ft., **\$3.00 each.**

YEW, Hicks (*Taxus Hicks*). Upright. Beautiful, dense, columnar form; bright red berries in fall. Heavily sheared, it makes a striking specimen. Maturity height 5 feet. 18 to 24 in., B & B., **\$4.50 each.**

YEW, Japan (*Taxus cuspidata*). Spreading. Beautiful Yew of moderate bushy growth. Upright branches densely clothed with short leaves of dull green. Fine for planting around cottages and brick houses. 18 to 24 in. spread, B & B., **\$5.50 each.**

SCOTCH PINE (*Pinus Sylvestris*). A long-needle Pine of rich dark green color. Growing habit is upright and broad. This is an excellent tree for planting on very sandy or otherwise poor soils, where other types will not grow. Makes a tall, dense growth. Fine for specimen planting, and an ideal tree for screening purposes and windbreak. 2 to 3 ft. tall, B. & B., **\$3.50 each.**

Pyramidal Arborvitae

Pfitzer Juniper

Colorado Blue Spruce

BROADLEAF EVERGREENS

Hybrid Azaleas

Hybrid Evergreen Azaleas

These Japanese evergreen Azaleas are beauties of the garden and landscape planting. They are dwarf and spreading of growth. Being evergreens, they blend well with other evergreen trees, adding brilliant color in spring to otherwise drab foundation plantings. These small plants will be the envy of the neighborhood. We offer the following name varieties:

BOUDOIR — brilliant, glowing pink.

CARDINALIS — Deep red.

LOUISE GABLE — double bright, salmon pink.

ROYALTY — double, velvety, deep purple.

9 to 12 in. plants, \$2.59 each; 3 for \$8.55; 4 for \$11.20, postpaid.

Lily-of-the-Valley Shrub

(Japanese Peiris). These low growing broad-leaf evergreen shrubs obtain their name, Lily-of-the-Valley Shrub, from the tiny bell like blossoms arranged in clusters on the tips of the branches. Foliage is medium green and glossy, turning to scarlet bronze in the fall. They are very often used for a low growing type shrub in the very best landscape plans. We are certain these uncommon bushes will delight you. 9 to 12 in. plants, \$2.50 each; 2 for \$4.50, postpaid.

← Little Leaf Japanese Holly

Ilex crenata convexa. This is a very choice broadleaf evergreen shrub. The use is unlimited. Because it will reach 4 feet in height and may be sheared conical in shape, it lends well to foundation planting. The growth is broad and spreading, making it adaptable to use as a hedge plant. Since this plant is an evergreen, a hedge of these plants is a thing of uncommon beauty the year around. Foliage is a glossy, wax-like, dark green. Very hardy. 12-15 in. plants, \$2.00 each; 3 for \$5.50, postpaid.

Lily-of-the-Valley Shrubs

RELIANCE SPECIAL FERTILIZER

For Azalea — Rhododendron — Blueberry — Broadleaf Evergreens

This special fertilizer is designed as an all-purpose plant food for Azaleas, Rhododendrons, Camellias, Blueberries, and any plants requiring an acid type of soil. Does away completely with all old methods of producing acid soil artificially—as well as supplying all necessary food. Complete directions for use on each bag. 5-lb. bag, \$1.50, postpaid.

American Christmas Holly ↑

(*Ilex opaca*) Now this famous American tree can be grown right in your own yard. Holly experts have produced this variety that is extremely hardy, and comparatively free from insect and disease attacks. The deep, glossy green foliage and bright red berry is an outstanding addition to any landscape plan. It offers readily obtainable branches for your Yule season decor.

Plants are available in either MALE or FEMALE plants. Please specify which is desired. For best results, plant one of each.

9 to 15 in. plants, \$2.25 each; 2 for \$3.95; 4 for \$7.50; Postpaid.

Baby Evergreen Seedlings

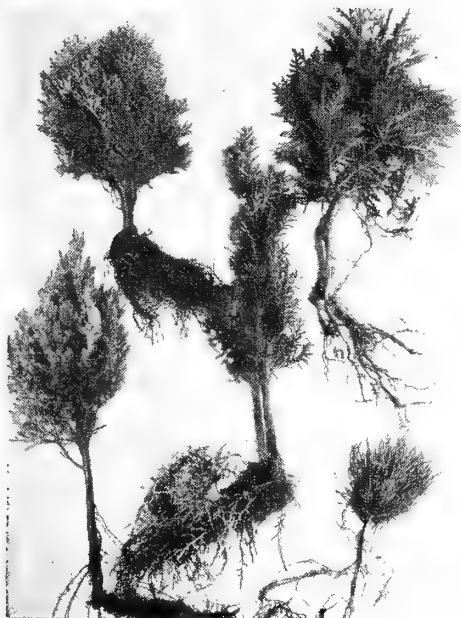

There fine seedling are offered for Reforestation and Christmas tree plants. We guarantee that they will arrive in a satisfactory condition, but we do not guarantee them to grow.

All prices listed here are by MAIL POSTPAID. Plants will be mailed separate from other items on your order, at proper planting time.

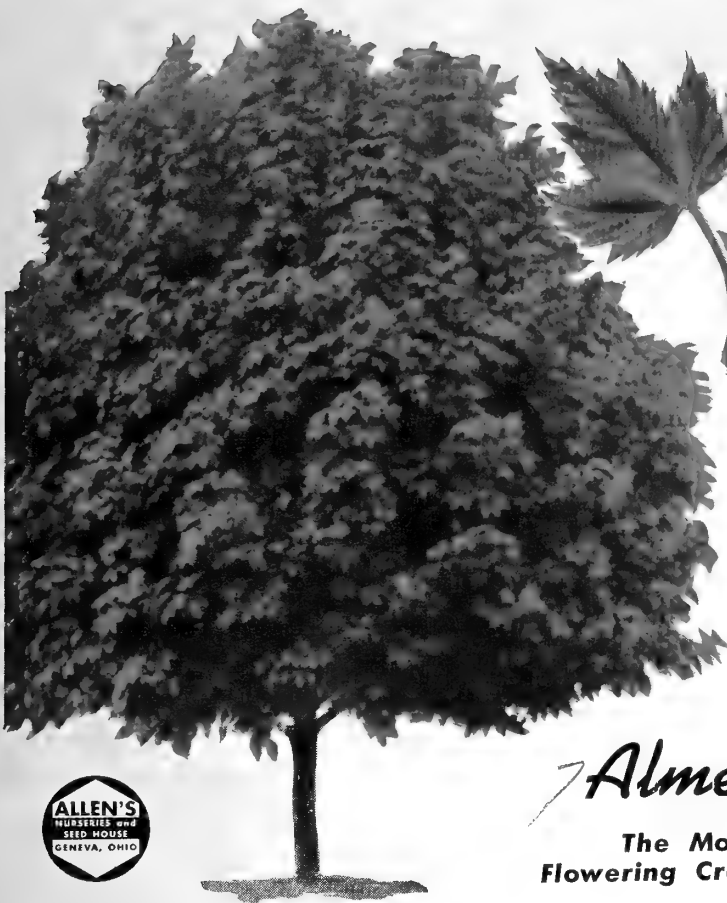

No orders accepted for less than 10 of a kind.

ORNAMENTAL TREES of Unusual and Lasting Beauty

Crimson King

← **MAPLE**

Spectacular Color All Season!

(Plant Pat. No. 735). Truly a King of the ornamental trees. Originating in Europe, it is a beautiful form of Schwedler Maple. The foliage is a rich, maroon-purple from the time it leafs out in early spring until the leaves drop in late fall. This brilliant coloring, lasting through the entire season, makes a spectacular color accent whether you plant it among other trees or use it as a single lawn specimen.

Crimson King is a hardy, slow-growing, long-lived tree. It will reach a height of 50 feet at maturity. Develops a rounded, compact top of uniform symmetry. It has proved to be a perfect tree for city planting; it is not harmed by smoke, gases or dust. A row of these along driveways or tree lawns make a magnificent sight all season.

Here is a tree that will live for many generations, becoming more attractive with each passing year. You will find a lifetime of pleasure in this colorful tree. 4 to 5 ft. trees, \$4.75 each, postpaid. 6 to 7 ft. trees, \$6.50 each. Express Collect.

✓ *Almey* **CRAB**

**The Most Sensational
Flowering Crab Ever Introduced!**

Almey Crab has more than lived up to all our expectations since it was first introduced. It is spectacularly colorful in early spring when huge blooms of a rich, glistening, fiery crimson load the branches. Each petal has at its base, pure white markings that give the blossom the appearance of a five-pointed star. From a distance the tree looks as though it were a mass of flame. A single tree planted on the lawn will enliven the whole neighborhood with its fiery color.

In addition to its colorful display in early spring, Almey produces a profusion of small scarlet fruits that cling tenaciously to the branches long after the leaves have dropped — providing another high spot of color long into the winter. Almey is hardy and vigorous and attains its mature height quite rapidly — about 12 to 15 feet. It is graceful in growth and a tree you will appreciate more and more with each passing year. Dress up your home grounds by planting Almey Crab this spring. 3 to 4 ft. tall trees, \$2.50 each, postpaid. 4 to 5 ft. tall trees, \$3.00 each, postpaid.

Thunder Cloud Plum

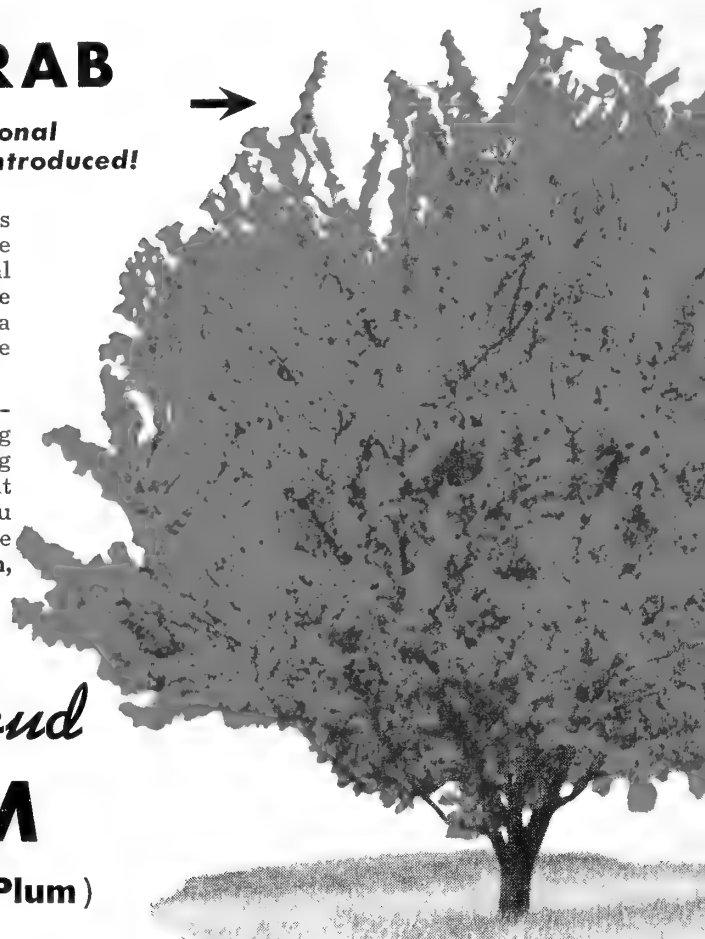

✓ *Thundercloud*

PLUM

(Purple-Leaved Plum)

Something new and different in ornamentals! Makes a beautiful specimen tree for the lawn; also valuable for color contrast among shrubs and other trees. Thousands of lovely pink flowers cover the branches in spring, followed by "purple" foliage. The foliage retains its rich, purple color throughout the season. The tree is compact, low-growing; about 10 feet tall at maturity. We consider this variety an improvement over the more common types, particularly as to color and growth habit. 3 to 4 ft. trees, \$1.95 each; 2 for \$3.80; 4 for \$7.50. 4 to 5 ft. trees, \$2.50 each; 2 for \$4.50; 4 for \$8.50, postpaid.

Chinese Elm

Silver Maple

BIRCH, Cut-Leaved Weeping. One of the most elegant of all weeping or pendulous trees. It is of tall, slender, yet vigorous growth and graceful drooping habit. Silvery white bark and delicately cut foliage. 8 to 9 ft., branched, \$4.25 each.

BIRCH Clump or Multiple. These picturesque trees with three stems growing from one root, are a very beautiful addition to any lawn or tree park. When trees are mature, they reach a height of 40 ft. or more. Leaves are a lovely deep green, very silvery white bark. 6 to 7 ft. tall, 3 stems per tree, \$5.50 each, 2 for \$10.50.

BIRCH, WHITE (European). An individual tree which stands out with distinction when included in the landscape plan. Erect growing with delicate flexible branches support the small green leaves that turn gold in autumn. Branches are slightly drooping and attractive bark is almost white. 6 to 8 feet, \$3.50 each; 3 for \$10.00.

ELM, Chinese (Ulmus pumila). A new introduction from China. This variety is a very rapid grower. Known to have reached a height of 20 feet six years after planting an 8 to 10-foot tree. Resembles the popular Norway Maple in shape. Good foliage, more dense than other elms. Exceptionally adapted for street and for shade planting where quick results are desired. Grows 75 feet high. 8 to 10 ft., \$3.25 each; 3 for \$9.25.

LINDEN, American. Basswood. A beautiful, rapid-growing tree with large, broad leaves and fragrant flowers. The bloom furnishes the best of bee pasture. The Linden should be extensively used as a lawn tree; it is also very valuable for park and street planting. Thrives in moist, rich soil but does well in any good soil, 6 to 8 ft., branched, \$3.50 each.

MAPLE, Norway. One of the most beautiful shade trees. Deep green foliage and strong branches which resist storms and require no pruning. Natural globe-shaped, compact head. Attains height of 60 feet. Popular for lawns, avenues, parks. 6 to 8 ft., branched, \$4.50 each. 8 to 10 ft., branched, \$5.50.

MAPLE, Schwedler's. A beautiful variety of the Norway Maple with leaves of bright crimson color, changing to purplish green late in the autumn. 6 to 8 ft., branched, \$4.50. 8 to 10 ft., branched, \$5.50.

MAPLE, Silver. Probably the best of all Maples for quick and good shade. Leaves of silvery green color, slightly cut leaf; excellent for street planting. One of the most popular, 8 to 10 ft., branched, \$3.50 each; 6 to 8 ft., \$3.00 each; 5 to 6 ft., \$2.25 each.

MAPLE, Sugar or Rock (Acer saccharum). Large, long-lived trees grow to 120 feet, with gray bark. Grows well except in damp, soggy soils. An excellent street and shade tree of upright, dense growth. Leaves turn bright yellow and scarlet in autumn. 8 to 10 ft., branched, \$3.25 each.

ORIENTAL PLANE or EUROPEAN SYCAMORE (P. Orientalis). A rapid growing, erect tree with bright green foliage; much more esteemed than the American variety as a shade tree. Very desirable for parks, streets and lawns. 6 to 8 ft., \$4.00 each, 5-6 ft., \$3.50.

OAK, Pin. This very handsome, long-lived tree is one of the very best for shade. It has horizontal drooping branches and finely divided, shiny dark green leaves which turn red in the fall. A rapid grower. 8 to 10 ft., \$3.75.

POPLAR, Lombardy. Picturesque Italian tree. Used in garden plantings to screen poor views or buildings, or to give accent. Tall, slim-growing with branches down to the base. 6 to 8 ft. branched, \$1.50 each; 10 for \$12.50.

TULIP TREE. Whitewood. One of the grandest of our native trees; of tall, pyramidal habit, with broad, glossy, fiddle-shaped leaves and beautiful tulip-like flowers. Allied to the Magnolia. Leaf color clean, bluish green; in fall turns brightest yellow. Flowers are 1½ to 2 inches long, light greenish yellow marked inside base with orange, appearing in May and June. 8 to 10 ft., \$3.75 each.

WILLOW, Wisconsin Weeping. Huge, well-known weeping tree. Its fresh green color and drooping branches make it very beautiful, 6 to 8 ft., branched, \$2.75; 8 to 10 ft. branched, \$3.50.

Pin Oak

Wisconsin Weeping Willow

Clump Birch

Moraine Locust — Plant Pat. No. 836

MORaine LOCUST

Fast-Growing Seedless Shade Tree

(Plant Patent No. 836)

This amazing new shade tree has so many outstanding qualities, we are indeed proud to offer it to our customers. It is a rapid growing tree that succeeds well on a wide range of soils. It withstands drought and extremes of temperature and it is not susceptible to disease. Unlike many fast growing trees, it is long-lived and extremely hardy. Being sterile, it does not produce seed pods to clutter up the lawn.

The Moraine Locust is a beautiful tree, similar in form to the American Elm. It makes a wide spreading growth. The finely cut foliage provides good shade, yet allows enough sunlight to filter through to promote healthy lawn growth. Attains a height of 25 to 40 feet.

Here is a most desirable tree for the average yard where good shade is wanted quickly. New home owners especially will benefit by planting the Moraine Locust, for in addition to its other outstanding qualities — **it will provide good shade quicker than any tree we know of!** Valuable for tree lawns and parkways, too. We recommend it highly, for here is a tree that will give a lifetime of pleasure.

SUNBURST LOCUST

Spectacular New Color and Lasting Beauty

A spectacular new tree color that will add distinctive beauty to your landscape. New Sunburst Locust is so named because the outer tips of the branches are covered with golden yellow foliage in rich contrast with the deep green inner foliage. In Spring, it looks like a flowering tree bursting with "golden" bloom. And it retains this beautiful appearance all summer long.

Sunburst Locust is a tree of stately form and perfect symmetry. It grows rapidly, attaining a height of 35 to 40 feet. Exceptionally hardy; withstands extremes of temperature and will grow rapidly in almost any soil. The lacy foliage provides light shade, which actually promotes fine lawn growth. Add enduring new beauty to your home grounds by planting Sunburst Locust this spring. 5 to 6 ft. trees, \$6.95 each; 2 for \$12.95; 4 for \$24.95. Express Collect. 6 to 7 ft. trees, \$7.95 each; 2 for \$14.95; 4 for \$27.95. Express Collect.

Silver Queen Maple

You can have ample shade within a few short years by planting the sensational new Silver Queen Maple. A hybrid of the well-known Silver Maple, it retains all of the good qualities of the parent tree and none of the faults. It is extremely hardy, drought-resistant and adaptable to a wide variety of soils. Of pyramidal form with beautiful cut-leaf type foliage. For beauty and shade at little cost, you cannot do better. 4 to 5 ft. trees, \$4.75 each, postpaid. 6 to 7 ft. trees, \$5.95 each, Express Collect.

Little Leaf LINDEN

(Tilia cordata). A dense, pyramidal type tree with compact, glossy foliage. Does very well under city conditions. It is a medium fast grower and will reach a height of 50 feet or more at maturity. The branches are covered with unusually fragrant flowers in early June. An ideal tree for lawn specimen, parkways and tree lawns. 6 to 8 ft. branched trees, \$4.50 each.

Silver Queen Maple

Linden Tree

Allen's Flowering Shrubs

Beautiful Blossoms, Foliage, and Berries

All shrubs sent by mail postpaid unless otherwise noted

ROSE OF SHARON

ALTHEA syriacus. Rose of Sharon. Many colors. Beautiful, large, double flowers set on a background of shamrock-green leaves. Blooms August to frost. A welcome sight in the fall. Often grows to small tree. Good for individual planting.

Jean de Arc — double white

Lady Stanley — double pink

Ardes — double purple

Lucy — double red

All four variations, 18 to 24 in., \$1.00 each; 3 for \$2.70.

SUMMER LILAC (Butterfly Bush)

BUDDLEIA Burtoni. A rather low growing type. Bears long, full spikes of rich blue flowers with orange eye. Very beautiful when grown in combination with the pink and purple types, also very effective for massing alone. No. 1 field-grown bushes, \$1.00 each; 3 for \$2.70.

BUDDLEIA Ile de France. Masses of fragrant, rosy violet-purple flower spikes borne profusely during the summer. Very uniform in growth. Flower spikes often a foot tall. 2-yr., No. 1 plants, \$1.00 each; 3 for \$2.70.

BUDDLEIA Pink Charming. A glorious new shrub bearing throughout the late summer and autumn, elegant long sprays of beautiful pink blooms — often 12 to 15 inches long. Produces a bushy plant 5 ft. high. 2-yr., No. 1 plants, \$1.00 each; 3 for \$2.70.

BUDDLEIA Purple Glory. Very glorious, and distinctive. Growth is very upright and compact. Large, tapering, very deep purple-blue colored spikes. A new, worthwhile variety. No. 1 plant, \$1.00 each; 3 for \$2.70.

SWEET SHRUB (Spice Bush)

CALYCANTHUS. The sweet-scented Shrub or Strawberry Shrub; also called Chocolate Shrub and Carolina Allspice. Flowers very double, a brownish purple in color, and deliciously fragrant. Blooms nearly all summer. Even the roots are very fragrant. Matures 8 to 10 ft. 18 to 24 in., \$1.00 each; 3 for \$2.70.

BLUE MIST

CARYOPTERIS. A low-growing shrub with narrow silvery-green foliage and clusters of dainty blue flowers. Grows 2 feet tall, rounded in form. An excellent shrub for border or foreground of shrub planting. No. 1 plants, \$1.00 each; 3 for \$2.70.

PINK CORALBERRY

CORALBERRY. A 3 to 4-foot shrub with delicate, little, pink flowers against a reddish-green foliage, followed by coral colored berries that remain most of the winter. Keeps song birds nearby. Beautiful foliage for cover planting. 18 to 24 in., 80c each; 3 for \$2.15.

FLOWERING DOGWOOD

CORNUS Lutea (Yellow Twig). A striking, bright-yellow, branched form. Very decorative — prunes easily. Grows to 10 ft. Excellent for contrast planting. 18 to 24 in., \$1.00 each; 3 for \$2.70.

CORNUS Sibirica (Red Twig). Grows 6 to 10 feet high, with clusters of fine white flowers, succeeded by a fall crop of ornamental berries. Stem and branches blood-red. 18 to 24 in., \$1.00 each; 3 for 2.70.

CORNUS Silver Leaf Variegated.

A very beautiful accent plant. Foliage is deep green in center with wide border of silvery white. Produces white flowers in early June, followed by white berries in late summer. 18-24 in., \$1.50 each; 2 for \$2.85. 2-3 ft., \$2.00 each; 2 for \$3.75, postpaid.

FLOWERING QUINCE

CYDONIA Japonica. Japan Red Quince. Very early spring, this fine old Shrub is completely covered with dazzling scarlet flower, followed by small, quince-shaped fruits that are quite fragrant. Growth bushy, with protecting thorns. 18 to 24 in., \$1.25 each; 3 for \$3.50.

DEUTZIA

DEUTZIA Crenata. Tall, pink, flowering variety. They come alive when a slight breeze caresses them. Excellent for mass plantings, and as gorgeous single bushes. 18 to 24 in., \$1.00 each; 3 for \$2.70.

DEUTZIA Gracilis. A charming little "must" for every garden. Slender bowing branches are wreathed with pure white flowers in May and June. Charming habit; rarely growing over 2 ft. high. Excellent for bordering high-growing shrubs. 12 to 15 in., \$1.10 each; 3 for \$3.00.

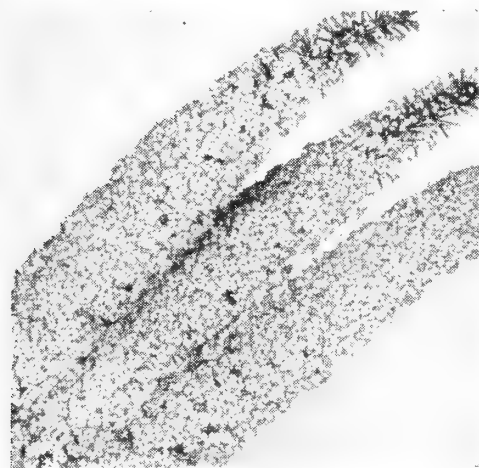

DEUTZIA, Pride of Rochester. An upright bush covered with masses of large, double white flowers, slightly tinted with rose. The best of the family. It blooms profusely and is a mighty good shrub for all uses. 18 to 24 in., \$1.00 each; 3 for \$2.70.

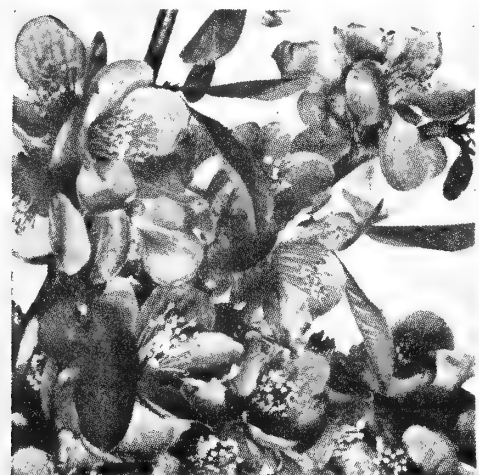

Althea

Calycanthus

Butterfly Bush

Cydonia Japonica

Red-twig Dogwood

Deutzia, Pride of Rochester

Provide Eye-Appeal from Spring until Fall

GOLDEN BELL

FORSYTHIA fortunei. Brilliant yellow flowers in early spring. Tall, willowy, slightly arching branches covered by huge masses of gorgeous flowers. Grow 10 to 12 feet tall. Wonderful for gracious groups, entrances, and foundations. 18 to 24 in., \$1.00 each; 3 for \$2.70.

FORSYTHIA intermedia. Border Golden Bell. Golden festoons of bright yellow flowers in early spring. Tall and spreading—very picturesque. Wonderful specimen plant. Grow vigorously to a height of 8 to 10 feet. 18 to 24 in., \$1.00 each; 3 for \$2.70.

FORSYTHIA spectabilis. Golden Bell. One of the finest shrubs Nature ever gave us. Branches are literally covered in early spring with golden bell-shaped flowers. Beautiful wax-like leaves. It is tall, growing to a height of 6 feet and with drooping effect. Very good for planting in banks with other shrubs. 18 to 24 in., \$1.00 each; 3 for \$2.70.

FORSYTHIA "Spring Glory." New, improved variety. Masses of golden-yellow, bell-shaped blossoms in early spring. 2-yr. plants, \$1.10 each; 3 for \$3.00.

FORSYTHIA "Lynwood Gold". This splendid new Forsythia originated in Ireland. Branches are erect, and covered with golden yellow flowers from top to bottom, very full and not affected by the weather. Excellent for cutting and flowering in the house during the winter months. Price: 2 to 3 ft., \$2.00 each.

HYDRANGEA

HYDRANGEA, arborescens grandiora. Hills of Snow. Blossoms from June until frost. Colossal round heads of pure white flowers often 10 inches in diameter, resemble a huge snowball. Medium height. Excellent for planting in front of taller shrubs or around foundation. Succeeds even in partial shade. 2-yr., 18 to 24 in., \$1.10 each; 3 for \$3.00.

HYDRANGEA. Peegee. Enormous cone-shaped blooms, often a foot long, during July and August. White changing to bright pink in late summer. Very showy flower — heads may be dried and used for winter bouquets. Medium to tall growing. Useful as bush shrub or can be trained to tree form. Gorgeous as a single specimen, or in shrub borders. 2-yr., 18 to 24 in., \$1.10 each; 3 for \$3.00.

HYDRANGEA Otaska (Blue Hydrangea). Gorgeous deep blue flowers 6 to 10 in. across, and attractive broad-leaved foliage. Height 2 to 3 ft. No. 1 plants, \$1.75 each; 2 for \$3.20.

YELLOW KERRIA

KERRIA japonica. Large, double, globe-shaped flowers. Beautiful bright-yellow in July and throughout the summer. Splendid medium-dwarf shrub, bright green branches attractive in winter. 18 to 24 in., \$1.50 each; 2 for \$2.80.

Blue Hydrangea

BUSH HONEYSUCKLE

LONICERA. Dainty, small, trumpet-shaped flowers in May, followed by a profusion rich red berries. Make a large shrub, 6 to 8 feet both in height and width. Excellent for screening and specimen planting. Grows in the poorest soil in sun or shade. 18 to 24 in., \$1.00 each; 3 for \$2.70. Offered in the following colors:

Pink Tartarian — Plush Pink
Zabeli — Ruby Red
Tartarica — Sparkling White

MOCK ORANGE

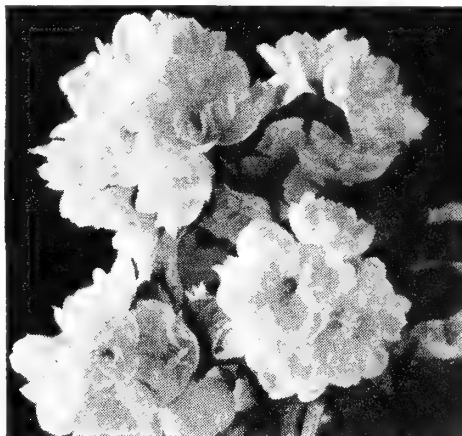

PHILADELPHUS grandiflorus. Mock-orange. A beautiful shrub, arching and very graceful. Covered with colossal creamy-white flowers. Will tolerate smoke and other hard city conditions. 18 to 24 in., \$1.00 each; 3 for \$2.70.

PHILADELPHUS, Snowflake (Double Mock Orange). Bears large clusters of sweetly fragrant, white flowers in June and July. Height 5 to 6 ft. 2-yr., blooming-age bushes, \$1.25 each; 2 for \$2.30.

PHILADELPHUS virginialis. Moderately tall, with good foliage and compact habit. The flowers (fully double, semi-double and single) are the largest and most sweetly fragrant of any known variety, with longest blooming season. Best of the modern Mockorange. 18 to 25 in., \$1.00 each; 3 for \$2.70.

PINK BEAUTY BUSH

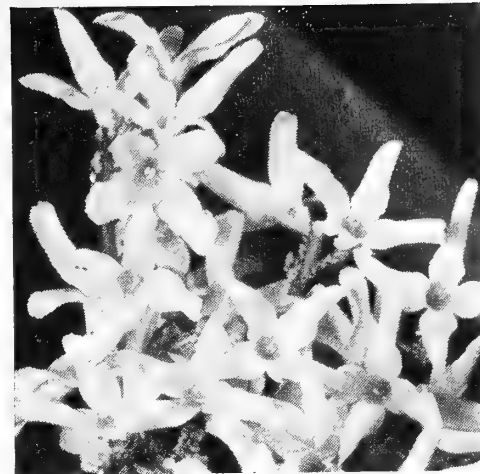

KOLKOWITZIA amabilis. Has a general resemblance to both Weigela and Honeysuckle, with beautiful trumpet-shaped flowers appearing in great profusion during June, in pairs which cluster closely into cymes of about twenty-five. A charming shrub discovered among the high peaks of Hupeh's mountains. Its progeny in America is proving likewise hardy in New England's severe climate. The attractively leaved bush attains about 6 feet, the center upright, the outer branches gracefully arching. 18 to 24 in., \$1.10 each; 2 for \$2.00.

Philadelphus, Virginal

Pink Beauty Bush

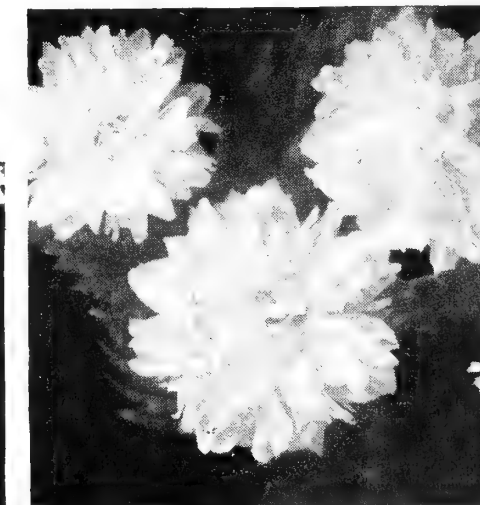

Forsythia

Hydrangea A.G.

Bush Honeysuckle

Kerria Japonica

Allen's Flowering Shrubs

Beautiful, Blossoms, Foliage, and Berries

FLOWERING ALMOND

PRUNUS japonica. Pink double-flowered Almond. A vigorous, beautiful bush, covered in May with light pink blossoms like small roses; hardy. 18 to 24 in., \$1.15 each; 3 for \$3.15.

RHODOTYPOS

RHODOTYPOS kerrioides. White. May and June. Very ornamental shrub with bright green, pleated leaves and large white flowers $\frac{1}{2}$ to 1 inch across. Produced in the ends of the branchlets and followed by conspicuous shining black fruits that adhere practically all winter. A desirable shrub. 18 to 24 in., \$1.00 each; 3 for \$2.70.

GOLDEN LEAF ELDER

SAMBUCUS canadensis aurea. Golden Elder. Thrifty shrubs that will do well in any locality. Should be planted where they receive sunlight, otherwise leaves may not be golden in color. The foliage is beautiful, green and gold mixed. Grows tall but can be kept pinched back. 18 to 24 in., \$1.00 each; 3 for \$2.70.

SNOWBERRY

SYMPHORICARPOS Racemosus. Dainty pink flowers in June or July. Waxy, white berries from August until spring. Attractive dense foliage, and the berries keep friendly birds about. Grows under the most adverse conditions. 18 to 24 in., 90c each; 3 for \$2.40.

SYMPHORICARPOS Chenaultii. An improved red Snowberry. Graceful form, fine foliage, lovely flowers and attractive berries. Perfectly hardy. Pink flowers in June; red berries in fall. Grows tall. 18 to 24 in., \$1.00 each; 3 for \$2.70.

SPIREA

SPIRAEA Dwarf Pink Anthony Waterer. Blooms from July until frost. A hardy dwarf shrub. Bright, rosy, crimson flowers in clusters often 4 inches across. Heavy, rich green foliage. Favorite for foundation, entrances, and as a low blooming hedge. 12 to 18 inches, \$1.00 each; 3 for \$2.70.

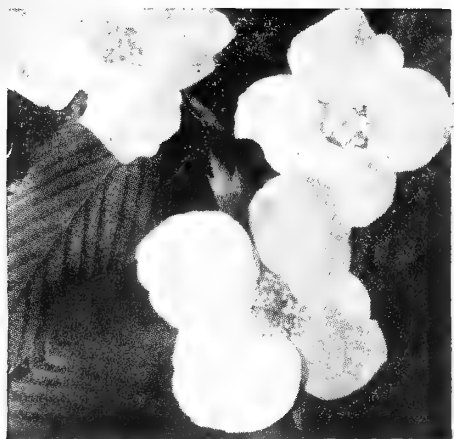

SPIRAEA White Arguta. One of the finest early-flowering shrubs. Blooms with the coming of the leaves, a mass of small white flowers. Foliage is cut-leaved and very pleasing in appearance. 18 to 24 in., \$1.00 each; 3 for \$2.70.

SPIRAEA Billiardi (Tall Pink). We can furnish this tall Spiraea in pink. Has spearmint-shaped leaves and cone-shaped blossoms. It is a very nice shrub for planting with others, in banks. 18 to 24 in., \$1.00 each; 3 for \$2.70.

SPIRAEA Froebeli (Crimson). Rich crimson flowered, resembling Anthony Waterer, but foliage is reddish green. A very attractive semi-dwarf, reaching 2 to 3 feet at maturity. Excellent for hedging and cover work. 18 to 24 in., \$1.00 each; 3 for \$2.70.

SPIRAEA Vanhouttie (White Bridal Wreath). This is the most popular flowering shrub. The small white flowers are borne in clusters and the whole bush takes the appearance of a graceful white fountain during May and June. Leaves red and yellow in the fall. Thrives anywhere. 2-yr. heavy, 18 to 24 in., 65c each; 3 for \$1.50; 10 for \$4.50; 2-yr., heavy, 2 to 3 ft., by Express 70c each; 3 for \$1.85; 10 for \$5.50; 100 for \$45.00.

SPIRAEA Thunbergi (Dwarf White Fine Leaf). Myriads of delicate, white blossoms before leaves appear. The feathery foliage is a very different and attractive shade of yellow-green, changing in autumn to brilliant red and orange. Forms a dense, fluffy, all-purpose bush, 3 to 5 ft. high. 2-yr., 18 to 24 in., \$1.00 each; 3 for \$2.70.

Provide Eye-Appeal from Spring until Fall

LILAC (Syringa)

SYRINGA, French Budded Lilacs
2-Yr. No. 1 Plants, \$1.50 each;
3 for \$3.95

Chas. Joly. Double, purple-red.
Ludwig Spaeth. Single, purple violet-red.
Mme. Abel Chatenay. Double, white.
Pres. Poincare. Huge, light pink.
Von Horstenstein. Double, red purple.

SYRINGA Vulgaris. White. (Old-Fashioned White Lilac.) Extra large, very fragrant clusters on Decoration Day. The living landmarks; hardy and vigorous in any soil or climate. 18 to 24 in. \$1.00 each; 2 for \$1.80.

SYRINGA Vulgaris. Purple. (Old-Fashioned Purple Lilac.) Large, very attractive, pleasing fragrant clusters in May. Most popular and loved Lilac of them all. Hardy and vigorous. 2-yr. heavy. 18 to 24 in., \$1.00 each; 2 for \$1.80.

SYRINGA Persian Red. A narrow-leaf Lilac with gorgeous reddish-purple flower. Blooms profusely, one of the best and most fragrant of all Lilacs. 18 to 24 in., \$1.15 each; 2 for \$2.10.

PINK TAMARIX

TAMARIX Africana. Pink flowers in great profusion are borne in early summer. Deep-green foliage resembling asparagus leaves gives them a soft, feathery appearance. A large, lovely shrub excellent for many decorative purposes. 18 to 24 in., 90c each; 2 for \$1.60.

VIBURNUM

VIBURNUM Americanum (High Bush Cranberry). Similar to Opulus but more open and spreading, with longer, more numerous, more showy and longer lasting fruits. Broad flower corymbs with usually only the outer fringe opened. Fruits bright scarlet, persisting from July until spring, mainly because the birds won't eat them. 18 to 24 in. \$1.10 each; 2 for \$2.00.

VIBURNUM Lantana (Wayfaring Tree). Beautiful lantana-like leaves; large white flowers in May and June. Fruits color from crimson to black. 18 to 24 in., \$1.10 each; 2 for \$2.00.

VIBURNUM CARLESI (The Pink Snowball). Produces delicate, spice-scented flowers in May and June. The buds are pink, opening into clusters of pure white. The large flowers preserve their form and purity of color an unusually long time. Bush is low growing and of rounded form. Field-grown, bushy 15-18 in. shrubs, \$1.65 each; 2 for \$3.00.

VIBURNUM Opulus Sterile (Old Fashioned Snowball). There are few June-flowering shrubs which can match the rare beauty of the pure white flowers growing in perfectly round "snowballs". 3 to 4 inches across. Stately and erect, dressed in rich green foliage. 18 to 24 in., \$1.25 each; 2 for \$2.30.

VIBURNUM Tomentosum (Japanese Snowball). Erect, compact, grows 6 feet in height. Covered with a mass of white in June. One of the best of the Snowball family. 18 to 24 in., \$1.35 each; 2 for \$2.50.

WEIGELA

WEIGELA Abel Carriere (Everblooming). Sensational new everblooming Weigela. Covered thickly with rose-colored flowers from May until frost. Grows to graceful medium height. 18 to 24 in., \$1.00 each; 2 for \$1.80.

WEIGELA Bristol Ruby (Pat. No. 492). Magnificent new variety. Flowers are rich ruby-red color that does not fade. Hardest of all Weigelas. Grows about 6 ft. tall. Heavy-rooted, 2-yr., blooming size, \$1.25 each; 3 for \$3.50.

WEIGELA Eva Rathke (Semi-Dwarf — Red Flowering). Dark rich red, trumpet-shaped flowers in late spring and usually through summer. Bright green foliage, erect and leafy, 4 to 5 ft. tall. Excellent as specimens or in front of tall shrubs and foundations. 18 to 24 in., \$1.00 each; 3 for \$2.70.

WEIGELA Floribunda (Crimson Floribunda Weigela). Brilliant crimson flowers in great abundance; blooming several times during the season, starting in early Spring. Glossy, thick, bright green foliage. Grows to 7 or 8 ft. A hardy, superior red-flowering shrub. 18 to 24 in., \$1.00 each; 3 for \$2.70.

WEIGELA Rosea (Pink Trumpet Weigela). Bright pink trumpet-shaped flowers, blooming profusely in June and again and again through the summer. Grows tall (7 to 8 ft.) with vigorous, compact habits, beautiful light green foliage. 18 to 24 in., \$1.00 each; 3 for \$2.70.

WEIGELA Variegata (Silver Leaf Weigela). A shrub of striking beauty, with sprays of delicate pink, trumpet-shaped flowers. Blossoms in June. Foliage is a handsome green, edged with creamy white. 18 to 24 in., 95c each; 2 for \$1.80.

ALLEN'S *Climatized* FLOWERING TREES

ADD COLOR ACCENTS TO YOUR PLANTING

PINK FLW. DOGWOOD

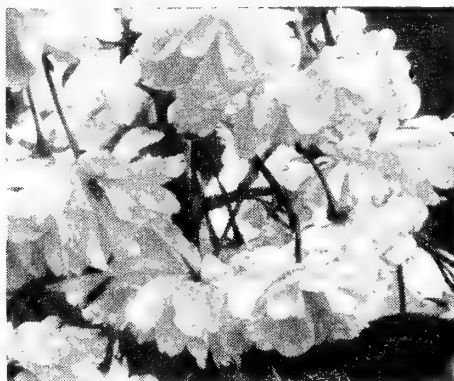

CORNUS rubra. Pink Flowering Dogwood. Outstanding ornamental tree. A profusion of showy, rose colored blossoms in spring, followed by deep red foliage in fall. Balled in peat. 2 to 3 ft. trees, \$3.25 each, postpaid.

Pink Dogwood

KWANZAN FLW. CHERRY

Most famous and best variety of Pink Flowering Cherry. Makes a striking appearance on the lawn because of its unique form; it is especially attractive when covered with clusters of dainty rose-pink flowers before leaves appear in spring. 3 to 4 ft. tall, \$3.00 each; 4 to 5 ft. tall, \$3.50 each, postpaid.

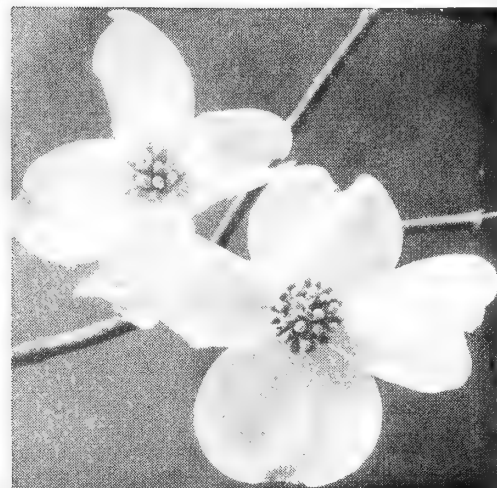

Kwanzan Flw. Cherry

BECHTEL'S FLW. CRAB

This choice variety of Crab has endeared itself to growers because of its spectacular flood of large, double rose-like flowers in spring, which completely hide the branches. Blooms every year. Very fragrant. Ideal for small lawn. 4 to 5 ft. tall \$2.50 each, postpaid. 3 to 4 ft., \$1.95 each, postpaid.

MAGNOLIA SOULANGEANA

Most popular and decorative of any of the Magnolias. Fragrant, huge, tulip-shaped flowers in early spring, rosy white inside, lively rose color outside. Blooms early spring before leaves appear — often see five to ten flowers on plants 2 feet high. Leathery, deep green, waxy foliage follows the flowers, providing a restful mass of cool green for the summer. Hardy and easy to grow. Reaches a height to 10 to 15 feet at maturity. Widely used for specimen planting. Balled in peat. 2 to 3 ft. trees, \$4.25 each, postpaid.

WHITE DOGWOOD

CORNUS florida. White Flowering Dogwood. One of the most beautiful of all spring flowering trees. Lovely, four-petaled white blossoms are borne on spreading dark green foliage in summer. Gorgeous when used as specimen plants. Unmatched naturalizing effect. Grows 10 feet tall. 2 to 3 ft. tall, \$2.25 each, postpaid.

Bechtel's Flowering Crab

GOLDEN CHAIN TREE

This is one of the most beautiful low-growing ornamental trees we know of. Flowers of purest golden-yellow are borne in long, graceful clusters 12 to 18 inches long, during spring. Easy to grow; does well in partial shade or full sun. Large, clover-shaped foliage make it attractive in all seasons. A rare show-piece for every garden or landscape plan. 4 to 5 ft. tall, \$2.75 each, postpaid. 5 to 6 ft. tall, \$3.25 each; 6 to 8 ft. tall, \$3.75 each, Express Collect.

TREE WISTERIA

For sheer, breathtaking beauty, the Tree Wisteria in full bloom is without equal. The purplish-blue flowers are produced in long, graceful racemes and completely cover the branches during May. Grows to a height of 6 to 8 feet. The trees are long-lived and make wonderful lawn specimens, as they grow and attain greater beauty each succeeding year. Grafted, sure-to-bloom trees, balled in peat, 3 to 4 ft., \$4.50 each, postpaid.

Tree Wisteria

ALLEN'S *Climatized* FLOWERING TREES

WILL MAKE YOUR HOME THE SHOWPLACE OF THE NEIGHBORHOOD

You Will Admire Their Fresh, Natural Beauty

ASH, European Mountain (*Sorbus aucuparia*). An ornamental deciduous tree with abundant and beautiful foliage, which turns to brilliant, golden-red in the fall. The fruits are showy and colorful, and often remain all winter, hanging in clusters that resemble Bittersweet berries. 4 to 5 ft. tall, \$3.00 postpaid. 5 to 6 ft., branched, \$3.50 each; shipped collect.

HOPA CRAB. Bright red flower buds are followed by masses of fragrant, deep rose colored blossoms which load the branches in early spring. Very colorful all season. 4 to 5 ft. tall, \$2.50 each; postpaid. 3 to 4 ft. tall, \$1.95 each, postpaid.

ELEYI PURPLE LEAF CRAB. An outstanding new type among the flowering crab varieties. Tree is covered in the spring with a mass of wine-red blossoms. Bronze foliage turns to bright red in the fall. Attractive red fruits persist into the winter making a beautiful red jelly if desired. About 10 to 12 ft. tall at maturity and an ideal ornamental specimen. 4-5 ft. tall, \$2.50 each, postpaid.

PAUL'S SCARLET HAWTHORNE. Great masses of double, scarlet-crimson flowers on irregular branches, and yellow-green bark make this a very showy tree and a perfect color accent among other plantings. Grows 20 ft. tall. 4 to 5 ft., \$3.25 each, postpaid. 5 to 6 ft., \$3.50 each, express collect.

TREE HYDRANGEA. Large, pyramidal trusses of snow-white blossoms appear in early August, changing to luminous pink in the fall. When cut and dried, blossoms make fine winter bouquets. 3 to 4 ft., \$3.00 each; 2 for \$5.50, pp.

JUDAS TREE or REDBUD. Fable tells us that when Judas betrayed Christ this tree immediately dripped all over with drops of blood, and that is the way it looks today when its blooms first come out. Later they turn into beautiful rose-purple flowers. Blossoms in April before the leaves appear. 15 to 20 feet maturity height. 3 to 4 ft. tall, \$2.25 each. Postpaid.

RED-LEAF PEACH. Sensational two-purpose tree! Bright red foliage deepening to dark maroon in the fall is highly ornamental all season. Also bears delicious, edible peaches, fine for pickling. Well-branched, 4 to 5 ft. trees, \$1.95 each; 2 for \$3.75, postpaid.

PRUNUS NEWPORT. Small-growing tree which retains its purple foliage during the summer and has small red fruits in late summer. 4 to 5 ft. tall, \$2.25 each. Postpaid. 5-6 ft., \$3.00 each. Express Collect.

FLOWERING PEACH (*Prunus Persica*)

At its blooming time in May, every twig and branch is alive with brilliant, beautifully-formed, double flowers. Extremely showy and attractive even from a distance. 20 feet tall at maturity. Excellent where foliage contrast is wanted. Offered in these two varieties:

CARDINAL—Branches are profusely laden with double rose blooms of brilliant scarlet red with a rich crimson sheen.

PINK CHARMING—Lovely double rose-pink blossoms grow in abundance making the small tree look like a huge bouquet.

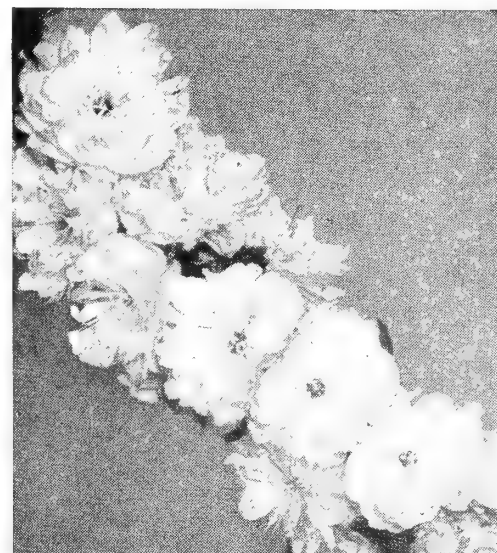

PRICES: 3 to 4 ft. tall, well branched, \$1.50 each; 2 for \$2.75, postpaid. 4 to 5 ft. tall, \$1.95 each; 2 for \$3.75, postpaid.

PRUNUS TRILOBA. Double-flowering plum. Double rose-pink blossoms that completely cover the limbs. Excellent specimen type. 4 to 5 ft. tall, \$2.75 each. Postpaid.

WEeping FLOWERING CHERRY. A weeping form of the popular Double Flowering Cherry. Has slender, pendulous branches hanging nearly to the ground. In early May the branches are strung with showy rose-pink flowers. Comes single flowered or double flowered. 5 to 6 ft. tall, \$6.50 each. Exp. Collect.

Patented HYBRID TEA ROSES

Newest and Best Varieties

Chrysler Imperial

CHARLOTTE ARMSTRONG. (Plant Pat. 455) Magnificent blooms of vivid cerise develop from lovely long carmine-red buds. Handsome, abundant, disease-free foliage. \$2.25 each; 3 for \$6.00, postpaid.

PEACE. (Plant Pat. 591) A vigorous, healthy growing bush with shining, dark foliage. Yellow buds picoté cerise open to alabaster blooms flushed pink. Long lasting. \$2.50 each; 3 for \$6.60, postpaid.

CHRYSLER IMPERIAL. (Plant Pat. 1167) Long, slender buds and large, high-centered blooms of oxblood-red overtones and lustrous garnet in the depths of the bloom. \$2.50 each; 3 for \$6.60, postpaid.

NEW YORKER. (Plant Pat. 823) A gorgeous, fragrant rose of scarlet with rose-red overtones and rich velvety sheen. Very large and long-lasting blooms. \$2.25 each; 3 for \$6.00, postpaid.

SUTTER'S GOLD. (Plant Pat. 885) Beautiful, long pointed yellow buds richly shaded with coppery red. When fully open, it is a superb yellow rose with coppery veins in the flower petals. \$2.25 each; 3 for \$6.00, postpaid.

HELEN TRAUBEL. (Plant Pat. 1028) Sometimes lively pink but more often with lovely apricot tints. Long slim buds and elegant 5 to 6-inch flowers. Hardy and free flowering. \$2.75 each; 3 for \$7.20, postpaid.

Patented FLORIBUNDA ROSES

Masses of Bloom All Summer Long

VOGUE. (Plant Pat. 1259) A marvelous Floribunda of an iridescent, brilliant glowing color of begonia-rose flushed with salmon. Individual flowers measure 3 to 4 inches in diameter. The blooms are perfectly formed, high centered and of Hybrid Tea shape. The plants grow 2½ to 3 feet tall. It is a superb garden plant also excellent for cutting. \$2.00 each; 3 for \$5.25, postpaid.

FASHION. (Plant Pat. 789) An indispensable floribunda, tops in every way. The color is luminous coral-pink overlaid with gold which softens to clear coral and then deepens into darker tinted tones. Blooms have a delightful old rose fragrance. Open flowers measure about 3½ inches across; bush grows about 2½ to 3 feet tall. Good foliage and prolific blooming. \$2.00 each; 3 for \$5.25, postpaid.

CIRCUS. (Plant Pat. 1382) Gay, bright flowers in an array of colors. The predominant color of Circus is yellow with the tight buds richly marked red. As the bloom unfolds, it offers a most interesting, and ever changing succession of shades and tints with open blooms putting on a finish of bright scarlet. Flowers profusely in clusters. Bush of medium height, with large, glossy foliage. \$2.50 each; 3 for \$6.60, postpaid.

WHITE BOUQUET. (Plant Pat. 1415) All-America winner for 1957. Sparkling 4 to 5-inch white blooms, with about 45 petals, open slowly to show a cluster of yellow stamens. The blooms are gardenia-like. The flowers are constantly produced both in clusters and individual blooms on a plant which does not grow very tall but does broaden out and become a wonderful bedding type. \$2.50 each; 3 for \$6.60, postpaid.

Fashion Floribunda Rose

HYBRID TEA

Everblooming

TREE ROSES

2-Yr. No. 1, \$5.50 each; 2 for \$10.00; 4 for \$19.00, postpaid.

Tree Roses can be planted in beds with your other roses or as a specimen. They occupy little space yet produce an abundance of beauty. They bloom from spring until frost giving their beauty and fragrance at eye-level.

CRIMSON GLORY. Intense deep, vivid crimson shaded oxblood red and mellowed by a soft velvety nap. The large, well formed blooms are produced freely until frost.

K. A. VICTORIA. The lovely snow-white buds open to magnificent, high-centered, fully double flowers of pure ivory-white. Very fragrant. Blooms freely and continuously no matter what the weather.

MCGREDY'S YELLOW. Large, high-centered flowers of a dazzling yellow. Blooms are delightfully fragrant and long lasting. A continuous succession of blooms all summer long. Excellent foliage.

TALISMAN. One of the most vivid colors yet produced in roses. Brilliant red and gold buds opening to well shaped blooms of scarlet-orange and rich yellow. Constantly in bloom.

THE DOCTOR. The color is a uniform silvery pink in both bud and open flower. Very large blooms, often 5 to 6 inches across. Healthy and vigorous. A favorite for its color and performance.

Allen's *Climatized* HYBRID TEA ROSES

**2-Year Hardy, Field-Grown Bushes,
\$1.25 each; 3 for \$3.50,
by MAIL POSTPAID**

No garden is ever complete without a planting of Roses. They bring sweet fragrance, beauty of form and exquisite colors, in glorious succession from June until frost. Our list includes the best of both old and new varieties, and we know you'll find among them just the roses you want. Plant Allen's Climatized Roses this spring — you'll be hearing compliments on your lovely roses all summer!

RED SHADES

CHRISTOPHER STONE — Free blooming plant producing fragrant roses of vivid scarlet. A healthy, vigorous grower.

CRIMSON GLORY — A very well known deep velvety-crimson of great merit.

ETOILE DE HOLLANDE — Dark, velvety red with a fine fragrance. The bush is strong, free branching, and healthy. Fine for cutting.

RED RADIANCE — The color is bright cerise-red. Vigorous growing, hardy, healthy, free blooming. True rose fragrance.

McGREDY'S SCARLET — Large brilliant scarlet, shaded rose-pink.

POINSETTIA — Bud long-pointed, large brilliant scarlet, double and unfading.

ROUGE MALLERIN — Double, well formed blooms of striking and lasting deep-red. A vigorous prolific bloomer.

PINK SHADES

EDITOR McFARLAND — Brilliant, glowing pink. A profusion of shapely buds and large double flowers on long stems.

PICTURE — Velvety-clear rose-pink with undertones of salmon. Very double.

BETTY UPRICHARD — A large, salmon-pink rose with rolling edges.

THE DOCTOR — Large, beautiful buds opening to enormous semi-double, cupped flowers of satiny-pink. Fragrant. Plant vigorous and bushy.

SALMON RADIANCE — Salmon shaded shell-pink. A very welcome member of the famous old Radiance family.

YELLOW SHADES

GOLDEN DAWN — Bud rich sunflower yellow flushed old rose. Very double blooms.

MRS. P. E. DU PONT — Bud reddish-gold, flower golden yellow, lighter with age.

YELLOW CONDESA — A very vigorous yellow sport of the popular Condesa de Sastago.

TWO-TONED SHADES

CONDESA DE SASTAGO — Very distinct and beautiful Rose. Blooms are very double, petals are coppery-pink inside, golden yellow on reverse. Tightly compact buds.

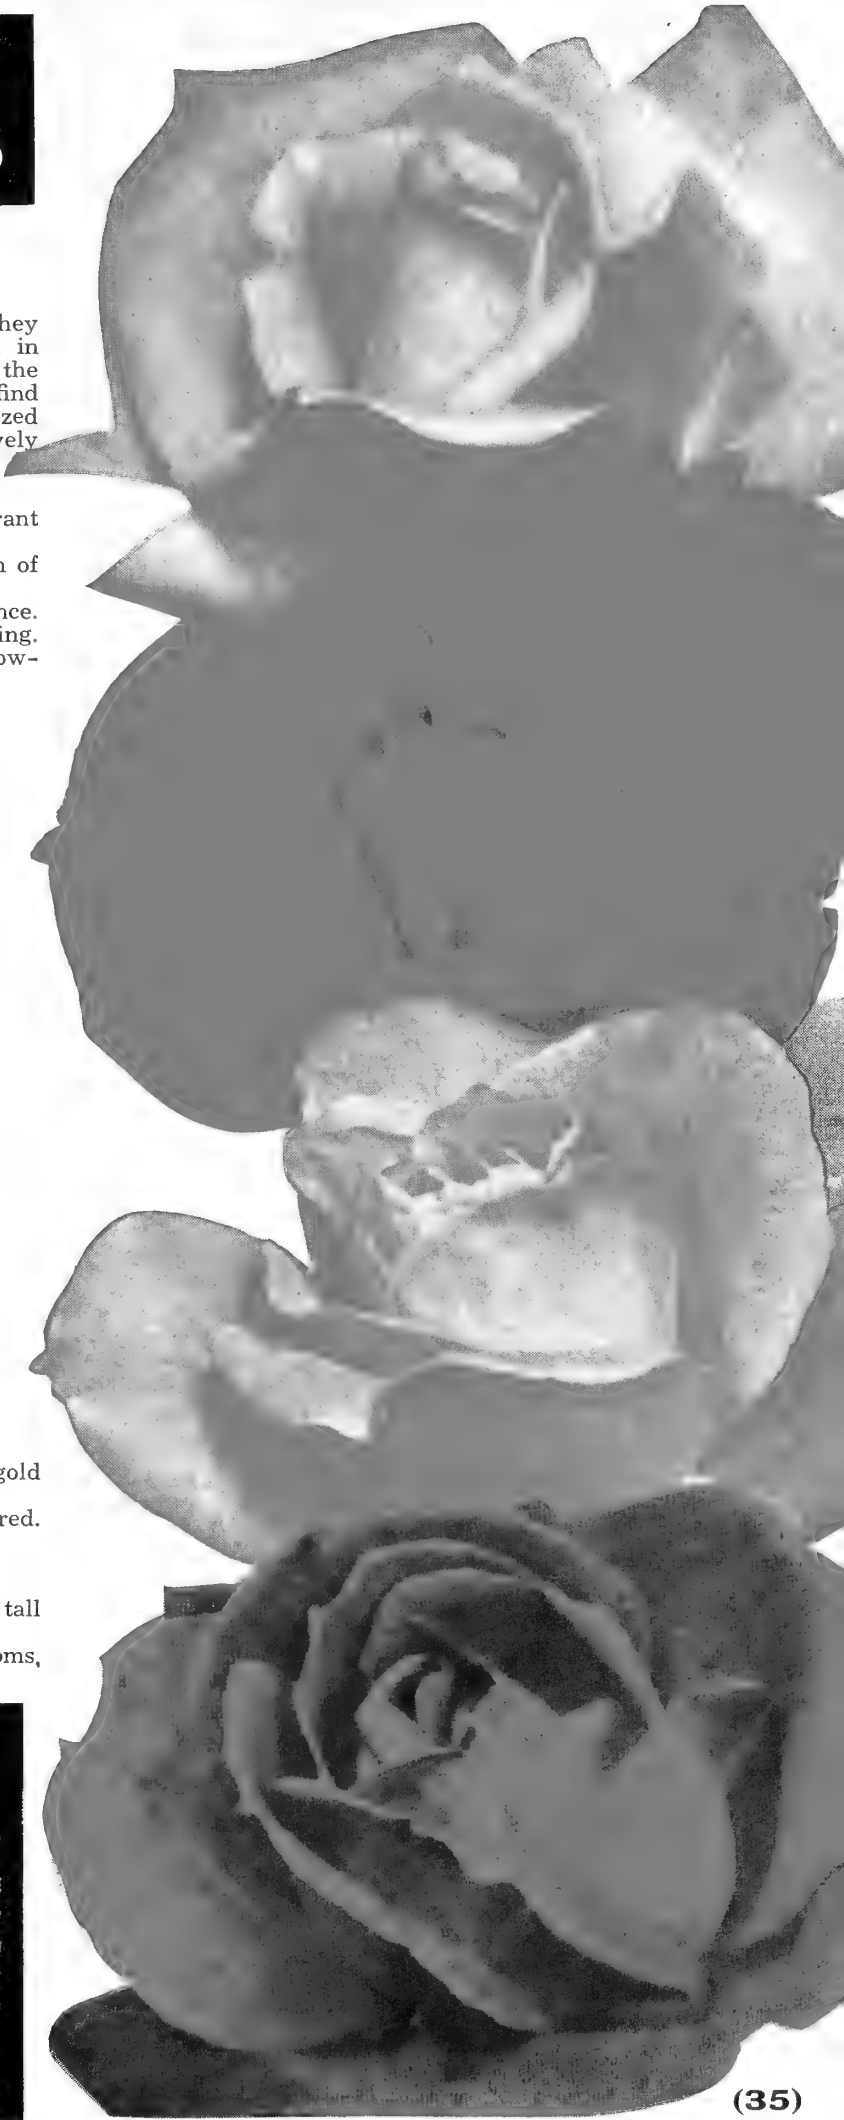

COUNTRESS VANDAL — Long pointed buds, upright stems. Color combination can hardly be described. Pink, copper, gold and salmon.

TALISMAN — Glowing golden-yellow stained with copper-red. Very tightly compact buds.

WHITE SHADES

K. A. VICTORIA — Popular snowy-white. Double flower, tall growing bush.

KONIGAN LOUISE — Clear, pure white. Fully double blooms, vigorous plants.

How to Prune

Properly pruned and planted

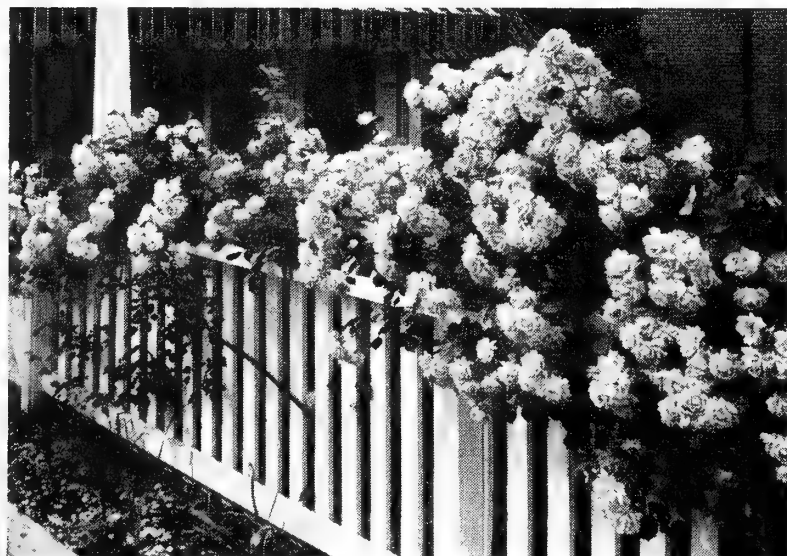

How to Plant Your Roses

Because so many of our customers write us asking "how to properly plant Roses", we are giving space to this subject in order to help all our customers achieve the best possible results with their Roses.

Plant roses where they will get full sun at least half of the day. They thrive in any good garden soil that is well drained. Fertilizer or well-rotted manure should be worked into the soil before planting. Dig holes large enough to avoid crowding

the roots and deep enough so the joint or bud just above the roots will be about **2 inches** below the surface of the soil. Water thoroughly—tamp soil down firmly around plant to prevent air pockets. Hill soil up around each plant to a height of 6 inches. Prune according to illustration. Keep Rose planting well watered at all times. Apply fertilizer twice during the summer, at 30-day intervals. For winter protection, hill soil up around each plant to a height of 8 to 12 inches.

See FREE Gifts on Page 3!

Allen's Climatized CLIMBING ROSES

2-Year, Hardy, Field-Grown Bushes
\$1.25 each,
by MAIL POSTPAID

BLAZE (Everblooming) — Clusters of enchanting scarlet-crimson blooms. A strong vigorous grower.

GOLD RUSH (Everblooming) — A vigorous climber, producing masses of handsome yellow flowers. It has proven to be one of the best and hardiest yellow climbing roses.

NEW DAWN (Everblooming) — Apple-blossom-pink flowers in large clusters. A vigorous monthly blooming climber.

PAUL'S SCARLET — Intense scarlet flowers of excellent shape and good size, born in great clusters. This is a very popular, old variety.

TALISMAN. Fragrant and rich in color shades. Buds are orange-yellow opening into large blooms of salmon-orange, shaded with red and gold. Sturdy canes; long stems.

WHITE DAWN (Everblooming) — Silvery pink in color, the flowers are borne on long stems. Tea Rose size and form.

Climatized ORNAMENTAL VINES

GROW FASTER — Pre-Treated with RA-PID-GRO

BITTERSWEET (*Celastrus scandens*). A native climber, with handsome, glossy foliage and large clusters of orange-crimson fruits, retained all winter. Very bright in effect and charming for winter house-decoration. 2-yr. No. 1 plants, 85c each; 3 for \$2.25, postpaid.

CLEMATIS henryi. Large, waxy, pure white flowers. Good foliage. Makes an attractive trellis vine. Should find a place in all collections. Continuous blooms all summer. 2-yr. No. 1 plants, \$1.50 each; 2 for \$2.80, postpaid.

CLEMATIS jackmani. Favorite Purple, large-flowered. Strong grower. Mass of rich velvety purple blooms cover entire vine, June, July. Often blooms second time in fall. Flowers 4 to 6 inches in diameter when fully expanded. 2-yr. No. 1 plants, \$1.50 each; 2 for \$2.80, postpaid.

CLEMATIS, Mme. Edouard Andre. Large, red, velvety flowers similar to Jackmani. Blooms profusely. Hardy, very fine plants. 2-yr. plants, \$1.50 each; 2 for \$2.80, postpaid.

CLEMATIS, Crimson Star. Exciting, new variety. The flowers are extra large, of vinous red color with brownish anthers. Considered the best red tone yet produced. Makes a spectacular display in full bloom from June to September. \$1.75 each; 2 for \$3.30, postpaid.

HONEYSUCKLE, Flaming Beauty. Coral-carmine trumpets lined with gold; foliage dark, glossy green. An everblooming vine. Can be kept trimmed to make compact shrub or hedge. Hardy over the entire country. \$1.00 each; 2 for \$1.95, postpaid.

HONEYSUCKLE, Hall's Japan. A strong, vigorous climber with pure white flowers. Foliage stays green nearly all winter. Perfectly hardy, very fragrant, prolific. 2-yr., No. 1 plants, 75c each; 3 for \$2.10; 5 for \$3.25, postpaid.

IVY, English. (Stays Green All Winter) A lovely vine with glossy evergreen foliage. Makes a very compact, dense growth; useful for covering walls, fences, rocks, tree trunks. 2 1/4 in. Pot Plants, 60c each; 5 for \$2.80; 10 for \$5.00; 25 for \$11.20; 50 for \$20.00, postpaid.

IVY, Boston. Best of all vines for covering stone, concrete, posts, etc., as it clings closely to hard surfaces without support. Grows to a height of thirty to forty feet and spreads out, covering all bare spaces. The leaves are a beautiful green, three lobed, and grow very thickly. In autumn the foliage changes to beautiful shades of crimson and yellow. Although somewhat slow growing and tender when young, it is perfectly hardy and grows faster once it becomes established. 80c each; 3 for \$2.25, postpaid.

POLYGONUM auberti. Silver Lace Vine. One of the fastest growing vines. Foliage perfectly clean, never bothered by insects or other pests. A splendid hardy climber of vigorous growth, attaining a height of 25 or more feet, producing during summer and fall, great foamy sprays of white flowers. A well-established plant during its long period of flowering, it is a great mass of bloom. 2-yr., No. 1 plants, 90c each; 3 for \$2.40, postpaid.

TRUMPET VINE (Bignonia Radicans). Hardy, easy-to-grow variety, that has long been a favorite. Withstands severe climatic conditions. Long, trumpet-shaped flowers of brilliant orange-red make a colorful display. 75c each; 3 for \$2.00, postpaid.

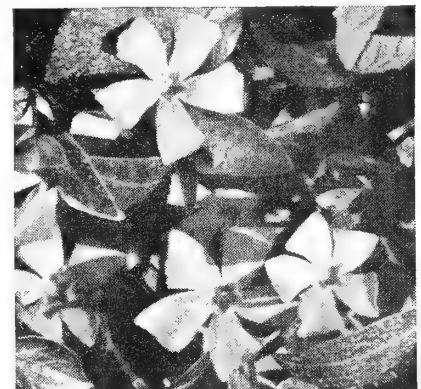

WISTERIA, Chinese Purple. One of the most magnificent hardy climbers. A rapid growing tall vine, attaining a height of 15 to 20 feet in one season, produces racemes of pale purple flowers in the spring and autumn. The foliage is grayish green in color and the plant is of such sturdy woody growth that it may easily be trained to a standard tree form of considerable size, making a beautiful specimen. 2-yr. No. 1 plants, \$1.00 each; 3 for \$2.75, postpaid.

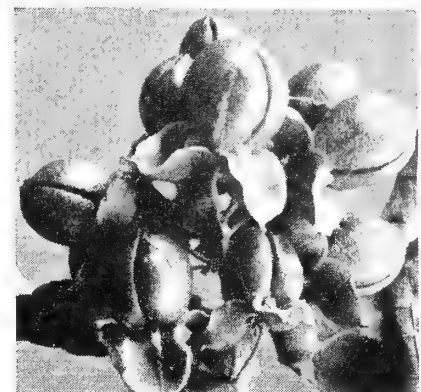

Bignonia Radicans

Wisteria

Vinca Minor

American Bittersweet

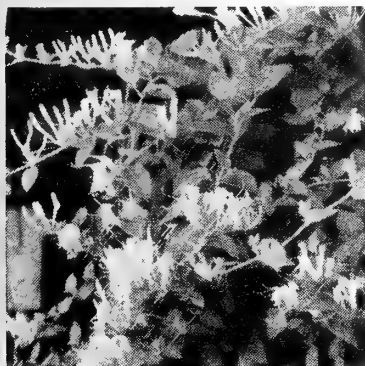

GROUND COVERS — Perfect for Shady Areas

Pachysandra Terminalis. A perfect plant for shady areas where grass will not grow. Beautiful waxy green foliage that stays green all winter. Plants spread rapidly; set 1 to 2 feet apart. 5 for \$1.00. 10 for \$1.95; 20 for \$3.65; 50 for \$7.95; 100 for \$15.00, postpaid.

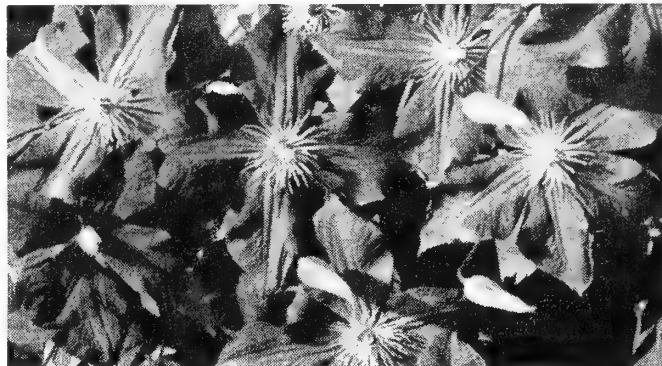

Vinca Minor. Hardy Myrtle. A trailing evergreen plant used for carpeting the ground where it is too shady for grass. In early summer, there are many solitary, singly lilac-blue flowers. Extra heavy, field-grown plants, 10 for \$2.10; 50 for \$8.25; 100 for \$16.00, postpaid.

HONEYSUCKLE, Hall's Japan. An ideal ground cover. Grows rapidly; makes a beautiful dense carpet for shady areas or sunny. Plant 18 in. apart. 2-yr. No. 1 plants, 75c each; 3 for \$2.10; 5 for \$3.25, postpaid.

All Vines sent by Mail Postpaid

Hall's Japan Honeysuckle

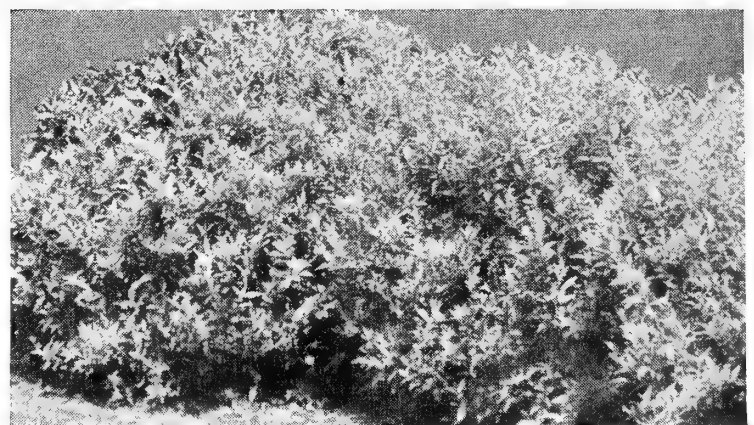

Clematis Jackmani

GOLDEN VICARY PRIVET

A Picturesque Hedge That Is Extremely Hardy

(*Ligustrum vicari*). An enchanting golden leaf hedge plant — new and completely different. Grows to a height of 4 to 6 feet, but can be trimmed to any desired height and shape. The bright golden-yellow foliage makes it a fine specimen, when planted alone or for color accent in shrub borders. If kept trimmed to 15 or 18 inches, it makes a superb edging for walks or flower beds. Should be grown in full sun for best color. For an "out-of-the-ordinary" hedge, plant Golden Vicary Privet this spring. 2-yr., 12-in., plants, 90c each; 2 for \$1.65; 10 for \$5.95, postpaid. (37)

GORGEOUS . . . EASY TO GROW HARDY PHLOX

All items on this page by Mail Postpaid.

No other flower can surpass the brilliant colorings of Allen's Hardy Phlox. Grows and thrives in any kind of soil in a sunny spot, but prefers a light, rich loam. Begins to bloom in early summer and continues till fall if faded flowers are removed. Beautiful for bedding, borders and edgings.

2-Yr., No. 1 Field Grown Plants, 45c each; 3 for \$1.20; 10 for \$3.25, postpaid.

BRIGHT EYES. The florets are extraordinarily large and amazingly brilliant red with dark eyes or centers.

CAROLINE VANDENBURG. Large flower heads of lavender blue. A good grower and a prolific bloomer.

CHARLES CURTIS. The most brilliant Phlox in cultivation—sunset-red. Will bloom for several weeks.

EARLY GEM. An improved variety. Soft salmon pink with carmine eye.

MARY LOUISE. Pure white heads of unusually large size. A prolific bloomer.

PURPLE SWEETHEART. The color is a brilliant, live shade of deep reddish-purple intensified by a darker eye.

SIR JOHN FALSTAFF. Enormous trusses of rich salmon pink.

SAN ANTONIO. An outstanding blood-red. Large, compact flower heads.

SPITFIRE. Large trusses of brilliant orange scarlet florets.

CREeping PHLOX SUBULATA →

Gladiolus make attractive displays in the garden — beautiful for bedding and borders — ideal for cut flowers. Easy to grow in any good, well-drained soil. Guaranteed to bloom gorgeously.

Gladiolus should be planted in good garden soil. 6 inches apart, 3 inches deep. For best results the bulbs must be disinfected. This can be done by dipping bulbs in Calomel (mercurous chloride) 4 to 6 oz. per gallon of water. Allow bulbs to remain in this solution until completely coated. Spray growing plants with 5-5-50 Bordeaux Mixture to prevent leaf lesions.

No. 1 Bulbs, 3 for 45c; 6 for 75c; 10 for \$1.10; 50 for \$4.50; 100 for \$8.50. MAIL POSTPAID

(No order for less than 3 bulbs of a variety can be accepted.)

BEAUTY'S BLUSH — A delicate blush-pink with very large florets. Of vigorous growth habit and very disease resistant.

BENJAMIN BRITTEN — Beautiful ruffled flowers of clear lavender. Large, fine form and one of the best in its color.

BETTY DUNCAN — An entirely new shade of rich glowing orange with golden throat. The flower spike is unusually large.

BURMA — Very large heavily ruffled deep rose, shading to lighter in throat. A very outstanding Gladiolus.

FLORENCE NIGHTINGALE — Crystal clear white shading into creamy throat. Straight ruffled florets of excellent substance.

FRIENDSHIP — The handsome flowers are a soft pink with cream throat. It is a very strong grower and one of the earliest to bloom. Stems are slender and very stiff.

HAPPY END — Orange scarlet with large creamy yellow blotch. The spike is sturdy and upright. An excellent variety.

LADY JANE — Huge florets of glistening cream are ruffled. The texture of the flower is excellent.

PACTOLUS — Delicate apricot-cream with unusual red markings on lower petals. The wide open-flowers are very closely attached to the stem.

PANDORA — A geranium pink with very large florets. Spike is sturdy and upright.

RED CHERRY — A very outstanding flashing vibrant scarlet. Giant plants, strong and healthy. An ideal variety for all growing conditions.

SPIC & SPAN — Ruffled deep pink with salmon shadings. Excellent habit of growth. Spikes are tall and strong.

VALERIA — A most brilliant light red with white penciling. The flower spike is unusually large and the florets are exceptionally well placed.

SANS SONCI — A very outstanding rich, vibrant red. A tall straight grower with exceptionally large florets.

GENE — Very heavily ruffled yellow florets borne on spikes as straight as spires. A bright and unusual variety.

Yellow King Humbert Canna

Flowering Bulbs

COLORFUL CANNAS

Cannas are especially good for large beds. They are very showy in mid-summer, when their huge blooms and striking foliage provide a tropical effect. They require plenty of moisture.

No. 1 Field-Grown Bulbs, 3 for 75c;
12 for \$2.50; 50 for \$6.50.
By Mail Postpaid.

FIREBIRD. 4 ft. Green foliage. A deep red bloomer. So firm are glistening petals that they do not wilt in the brightest sun.

HUNGARIA. One of the finest pinks, green foliage. 4 ft. tall. Large heads of peach-pink. Our choice of the Pink Cannas.

YELLOW KING HUMBERT. 5 ft. tall. Deep rich yellow, heavily spotted and flecked with deep red. Green foliage.

RED KING HUMBERT. 5 ft. tall. The heart shaped leaves are purple-madder over-bronze. The plants are crowned with immense heads of orchid-like velvety-orange-scarlet, rose tinted and blooms incomparably beautiful.

THE PRESIDENT. 4 ft. tall. Glowing scarlet, blue-green foliage. Extra large trusses of brilliant color. The finest Red Canna of today.

ALLEN'S TESTED FLOWER SEEDS

Grow Better — Add Color and Beauty to Your Garden

In the following pages, we have tried to offer you the very best, high germination flower seeds, at the lowest possible price. We have also tried to list the outstanding new introductions. We are certain that while the prices can be duplicated, or even be lowered by other companies, the quality of the seeds offered here cannot be duplicated. We feel that our customers are going to the labor of conditioning their soil for planting, and for a very few cents more, would rather have seeds that are certain to produce the most beautiful and abundant blooms obtainable. We have contracted the best California growers, to grow these seeds for us. We accept only the selected and highest quality.

ALYSSUM (Annual)

Blooms August to October.

Pfizer's Hybrids. Very large brilliant red flowers. **Pkt. 15c; 2 pkts. 25c.**

VERBENA (Annual)

Gigantea Mixed. Huge blooms, well balanced color mixture. **Pkt. 15c; 2 pkts. 25c.**

ZINNIAS (Annual)

Easiest of all flowers to grow. Bloom all summer.

Cupid Mixed. Plants more compact and uniform than Lilliput. All colors including many bicolor hybrids. **Pkt. 15c; 2 pkts. 25c.**

Peppermint Stick. Candy striped flowers in all colors. **Pkt. 15c; 2 pkts. 25c.**

Sunshine Tints. Medium size plants and blooms. This Zinnia is one of the best for floral arrangements. **Pkt. 15c; 2 pkts. 25c.**

Burpee Hybrids. Mixture of gorgeous colors. Mum type; ideal for cutting. **Pkt. 15c; 2 pkts. 25c.**

Fantasy Mixed. Long shaggy petals. Wide color range. Plants 3 ft. tall. **Pkt. 15c; 2 pkts. 25c.**

Persian Carpet. 1952 All-America Winner. Small fully double flowers. Wide color range; many blooms with contrasting petal edges. 12-inch plants; ideal for boxes, borders and cutting. **Pkt. 15c; 2 pkts. 25c.**

Dahlia Flowered. Double blooms of mammoth size. Still one of the best large flowered Zinnias. **Pkt. 15c; 2 pkts. 25c.**

ALLEN'S TESTED FLOWER SEEDS

STRAWFLOWER (Helichrysum Annual)

Blooms mid-summer until late fall.

Fine Mixed. Hardy 30-inch plants produce large double flowers. Fine for beds and borders. Often dried for winter bouquets. Pkt. 15c; 2 pkts. 25c.

SWEET PEAS (Summer-flowering Spencer)

Allen's Best Mixture. Pkt. 15c; 2 pkts. 25c.

Little Sweetheart (Mixed). Grows only 8 in. tall, but bears full size flowers in profusion. Rounded, bushy plants. Pkt. 25c; 2 pkts. 45c.

HARDY SWEET PEAS (Perennial Lathyrus)

Choice Mixed Colors. Pkt. 15c; 2 pkts. 25c.

SWEET WILLIAM (Dianthus Barbatous)

Biennial Double Mixed. Pkt. 15c; 2 pkts. 25c.

Annual Finest Mixed. Pkt. 15c; 2 pkts. 25c.

TITHONIA (Annual)

Torch. Very early blooming plant that needs little care. Yields bright orange-scarlet cut flowers all summer until frost. Pkt. 15c; 2 pkts. 25c.

TRITOMA (Perennial Red Hot Poker)

Blooms August to October

Pfitzer's Hybrids. Very large brilliant red flowers. Pkt. 15c; 2 pkts. 25c.

VERBENA (Annual).

Gigantea Mixed. Huge blooms, well balanced color mixture. Pkt. 15c; 2 pkts. 25c.

ZINNIAS (Annual)

Easiest of all flowers to grow. Bloom all summer.

Cupid Mixed. Plants more compact and uniform than Lilliput. All colors including many bicolor hybrids. Pkt. 15c; 2 pkts. 25c.

Peppermint Stick. Candy striped flowers in all colors. Pkt. 15c; 2 pkts. 25c.

Sunshine Tints. Medium size plants and blooms. The Zinnia is one of the best for floral arrangements. Pkt. 15c; 2 pkts. 25c.

Burpee Hybrids. Mixture of gorgeous colors. Mum type; ideal for cutting. Pkt. 15c; 2 pkts. 25c.

Fantasy Mixed. Long shaggy petals. Wide color range. Plants 3 ft. tall. Pkt. 15c; 2 pkts. 25c.

Persian Carpet. 1952 All-American Winner. Small fully double flowers. Wide color range; many blooms with contrasting petal edges. 12-inch plants; ideal for boxes, borders and cutting. Pkt. 15c; 2 pkts. 25c.

Dahlia Flowered. Double blooms of mammoth size. Still one of the best large flowered Zinnias. Pkt. 15c; 2 pkts. 25c.

Many of these premiums are very new and exclusive and could not even be purchased from us. We are certain these will be very pleasing and exciting to you. Vegetable seeds are sent with those orders that are for Vegetables, and Flower seeds are sent with orders for Flower seeds.

PLANT ALLEN'S QUICK GROWING LAWN SEED

For Weed-Free Turf That Everyone Will Admire

A lawn is your most important home asset. Start right by using Allen's seed and you will not be disappointed. Prices are extremely high and subject to change. This condition is caused by a shortage of Kentucky Blue Grass seed which is the basis of all good lawn mixtures. We have always carried good lawn seed and will not handle cheap weed-filled seed. Beware of cheap mixtures this year. Demand an analysis of any mixture before you buy.

1 and 2 Pound Parcel Post Prepaid — 5 to 50 Pounds Not Prepaid.

ALLEN'S SHADY NOOK MIXTURE. A lawn seed mixture designed for deeply shaded lawns. Produces a fine compact, velvety grass under most conditions. Shady ground often becomes sour; in that case, give it an application of crushed limestone at the rate of 25 pounds for each 100 square feet, before seeding. Seed at the rate of 1 pound for each 250 square feet. 2 lbs. \$1.75; 5 lbs. \$4.10; 10 lbs. \$7.80; 50 lbs. \$35.00.

ALLEN'S EVERGREEN MIXTURE. Where conditions are seasonably favorable, you can have a good stand ready to mow in 3 to 5 weeks. This mixture is completely free from noxious weeds and suitable for any type of soil. Sow at the rate of 1 pound for each 300 square feet of a new lawn. For renovating old lawns use 1 pound for each 600 square feet. 2 lbs. \$1.75; 5 lbs. \$4.10; 10 lbs. \$7.80; 50 lbs. \$35.00.

CREEPING BENT. Modern golf-greens type of grass; dense growing, thickly rooted. Sow 1 pound for each 600 square feet. 1 lb. \$.95; 3 lbs. \$2.70, postpaid.

KENTUCKY BLUE GRASS. The old standby. Famous the world over. Basic ingredient of all lawn mixtures. Sow 1 pound for each 300 square feet. 1 lb. \$1.10; 5 lbs. \$5.00, postpaid.

MERION BLUE GRASS. A superior strain of blue grass produced from a single plant found growing on a tee in the Merion Country Club near Philadelphia. The plant was green when blue grass around it was brown. It had a thick, strong growth and stood close mowing without harm. Seed propagated from this plant was sent all over the country for testing, and it proved to retain its superior quality. It requires less seed per given area (about 1 lb. to 750 square feet) because of its stocky and spreading growth. Seed stock is very scarce. Price, 1 lb. \$2.50, postpaid; 5 lbs. \$12.00, postpaid. 10 lbs. \$23.00, not postpaid.

WHITE DUTCH CLOVER A leguminous plant that enriches the lawn as it grows. Sow 1 pound for each 500 square feet. 1 lb. 95c; 3 lbs. \$2.50, postpaid. (44)

Allen's Quick-Gro Lawn Seed

ALLEN'S BARGAIN SPECIAL QUICK-GRO LAWN SEED

Need a good lawn quickly at low cost? This mixture contains a blend of good quality lawn seed that will germinate rapidly and give quick results. Useful for new homes and wherever a lawn must be built fast and soil improved later. 2 lbs., 98c; 5 lbs., \$2.25; 10 lbs., \$4.25, Postpaid. 25 lbs., \$9.95; 50 lbs., \$15.95, not Postpaid.

SELECTED VEGETABLE SEEDS

The garden seeds offered in the following pages can probably be obtained a few cents cheaper at some hardware, department or grocery stores. **We do not offer bargain prices.** We do however, offer the best quality, highest germination seeds obtainable at any price. All seeds are fresh 1957 crop, tested by the growers and then re-tested by us, under State and Federal supervision to insure our customers an abundant crop of the finest vegetables. All seeds up to and including 1 lb., are shipped postpaid. Larger quantities express postpaid.

All seeds up to and including 1 lb. shipped by mail postpaid.
Larger quantities by express collect.

Pole Beans

Pkt. 15c; ½ lb. 45c; 1 lb. 75c. Express Collect, 5 lbs. \$3.00.

Kentucky Wonder. 65 days. Stringless pods 7 inches long. Good dry or green. If gathered will produce large crops until frost.

BEETS

Plant as early as ground can be worked, 3 to 4 inches apart, in rows. Beet tops are very good as greens. ½ ounce plants 50 feet of row.

Pkt. 15c; oz. 40c; ¼ lb. 70c; 1 lb. \$1.75.

Allen's Select. 45 days. Several years ago we noticed in a bed of Crosby's Egyptian, a Beet that grew faster and larger and matured earlier than the rest. After careful testing we became convinced that this Beet is not only of commercial value but deserved trial by all lovers of Beets. It is globular, dark red, fine flavored and a good keeper. Excellent for greens.

Detroit Dark Red. 60 days. Small tops; can be planted close together. Very sweet, fine flavor for table use.

Mangel Wurzel

Oz. 18c; ¼ lb. 50c; 1 lb. \$1.40.

Mammoth Long Red. 110 days. Grows to an immense size; in good soil has yielded 1400 to 2000 bushels per acre.

BRUSSELS SPROUTS

Sow and transplant like cabbage. 2500 plants per ounce.

Sluis' Big Crop. 90 days. Strong plants; heavy producers. Pkt. 15c; ½ oz. 40c; oz. 70c; ¼ lb. \$1.25.

BROCCOLI

Start indoors and transplant in rows 2 feet apart each way. Cut before flower buds open. 2500 plants per ounce.

Italian Green. 75 days. Similar to Cauliflower in table use. Large, green heads. Pkt. 15c; ½ oz. 50c; oz. 85c; ¼ lb. \$1.25.

Hansen Inoculators

Garden Size. Contains a mixture of bacteria for inoculating Sweet Peas, Garden Peas, Beans, Lima Beans and Lupines. Pkt. 25c.

CUCUMBER

Plant in rich soil when warm weather is certain. Drop 6 to 8 seeds in a group and thin to the three strongest plants. Hills should be about 4 feet apart. An ounce plants 50 hills.

Pkt. 15c; oz. 45c; ¼ lb. \$1.00; 1 lb. \$2.50.

Colorado. 68 days. Averages 10-12 inches long. Slender, well-formed; very dark green.

Early Fortune. 65 days. Rich dark green; 7 to 8 inches long when left for slicing. Fine for pickling. Disease-resistant.

Early White Spine. 58 days. Good crisp cucumber; early to mature. Grows 7 inches long. Very smooth; dark green color.

London Long Green. 67 days. One of the best long green sorts. The young fruit is best for pickling. A good slicer.

Marketer. 65 days. Fruit is somewhat tapered at ends; extremely uniform. Good marketing sort.

Vaughn (Longfellow). 70 days. Much darker than other long white-spined varieties; more uniform in shape and size; ideal for forcing as well as outdoors.

Ohio No. 17. New black-spine pickling Cucumber, developed to combat mosaic disease.

SWEET CORN

Corn should not be planted until the soil is thoroughly warm and dry. Plant 6 kernels in a hill and space the hills 3 feet apart; thin to 3 plants in each hill. Keep well cultivated. A pound plants 300 hills.

Pkt. 15c; ½ lb. 40c; 1 lb. 70c. Express Collect, 5 lbs. \$2.60; 10 lbs. \$5.00.

Barden's Wonder Bantam. 80 days. Beautiful yellow corn. Stalks grow 5 to 6 feet tall; ears 8 to 10 in., length.

Golden Bantam. 80 days. Most exquisite quality; bright golden yellow color. Can be planted very early for it is quite hardy. Small stalks grow close together and produce 2 to 3 ears each.

Hybrid Sweet Corn

Pkt. 20c; ½ lb. 50c; 1 lb. 90c. Express Collect, 5 lbs. \$3.75; 10 lbs. \$7.00.

Golden Cross Bantam. 85 days. Wilt-resistant and high yielding. This corn, product of crossing two pure lines, is not only resistant to bacterial wilt but produces larger crops of beautiful ears, 8 inches long with 10 to 14 rows of golden yellow kernels.

Iochief. 89 days. 1951 All-America Winner. Rated best main crop yellow sweet corn. Ideal for eating fresh, canning and freezing; 8 to 9-inch ears filled right to the tips.

Marcross C6.13. 72 days. Stalks short but sturdy, highly resistant to Stewart's disease. Ears long, plump, abruptly tapered at the tips. 10 to 14 rows of light yellow kernels.

Pop Corn

Pkt. 15c; ½ lb. 40c; 1 lb. 65c. Express Collect, 5 lbs. \$2.00. Write for larger quantity prices.

Japanese Hulless (Tom Thumb). 100 days. 5-foot stalk with 2 to 3 ears to the stalk. Waxy white kernels; pops snow white.

South American (Dynamite). 100 days. 2 ears to a stalk. Ears 6 to 7 inches long with 12 to 14 rows of large, yellow kernels; excellent popping quality.

CRISP LETTUCE

Sow seed early indoors and transplant to open ground, or sow directly in rows and thin out the plants. Head Lettuce should be set 8 inches apart. Does best in cool weather. An ounce plants 300 feet of row.

Early Prizehead. 50 days. Leaves are very crimped, bright green, tinted brownish-red; very tender, crisp and sweet. Forms a large, loose head. Pkt. 15c; oz. 40c; ¼ lb. 85c; 1 lb. \$2.25.

Black-Seeded Simpson. 45 days. This is not a head Lettuce but spreads a mass of curled leaves over the ground. Pkt. 15c; oz. 40c; ¼ lb. 85c; 1 lb. \$2.25.

Grand Rapids, Ashtabula Strain. 43 days. well-known and liked for its curled, crisp, light green fringed leaves; tender and attractive. Pkt. 15c; oz. 40c; ¼ lb. 85c; 1 lb. \$2.25.

Great Lakes. 75 days. Fine new, crisp-heading Lettuce, able to stand some heat and therefore sure to head. Resistant to tip-burn. Crisp, creamy white. Pkt. 20c; oz. 60c; ¼ lb. \$1.60.

Oak Leaf. Does better in warm weather than most varieties. Retains tenderness and flavor without getting bitter. Pkt. 15c; oz. 50c; ¼ lb. \$1.00.

ASPARAGUS

Mary Washington. Rust-resistant. Large, tender stalks. Sow seed as soon as ground can be worked; same as peas. Transplant following year. Pkt. 15c; oz. 35c; ¼ lb. 85c; 1 lb. \$1.95.

BEANS

Plant seed after ground is warm and throughout summer. Sow seed 3 inches apart in rows. Pole Beans are planted in hills 4 feet apart. ½ pound plants 50-foot row.

Wax or Yellow Podded (Bush Beans)

Price of Yellow and Green-Podded Beans: Pkt. 15c; ½ lb. 45c; 1 lb. 75c. Express Collect, 5 lbs. \$3.00.

Brittle Wax or Round Pod Kidney Wax. 54 days. Very tender. Entirely stringless.

Cherokee Wax. 58 days. Improved type of Black Wax with narrow pod, 6-inch pod is deep yellow. Stringless.

Pensil Pod Black Wax. 52 days. Best round-podded Wax Bean for market.

Green Podded (Bush Beans)

Pkt. 15c; ½ lbs. 45c; 1 lb. 75c. Express Collect, 5 lbs. \$3.00.

Tendergreen. 54 days. Absolutely stringless. Fleshy pods about 6 inches long. Very productive.

Topcrop. 50 days. Resistant to bean mosaic. Very heavy yielder and holds good dark green color.

Burpee's Stringless. 50 days. Round green pods 6 inches long; thick and brittle. Good yielder.

Bush Limas

Pkt. 15c; ½ lb. 45c; 1 lb. 75c. Express Collect, 5 lbs. \$3.00.

Burpee's Improved Bush Lima. 75 days. Pods 5 to 6 inches long. Finest quality beans; good for freezing.

Fordhook Bush. 75 days. An improved variety with plants growing erect and bearing well above the ground. Pods are medium green in color; 4 to 5 inches long, and produce in large clusters; they contain from 3 to 5 large beans of fine quality. The beans are white, with greenish tinge, thick and meaty.

SELECTED VEGETABLE SEEDS

All seeds up to and including 1 lb. shipped by mail postpaid.
Larger quantities by express collect.

CABBAGE

Sow seed indoors and transplant outdoors in early spring. Set the plants 1½ feet apart in rows. 2000 plants per ounce. **Pkt. 15c; oz. 45c; ¼ lb. \$1.15; 1 lb. \$3.75.**

Danish Ballhead. 100 days. Heads are medium to large size. Fine white color; good keeper.

Early Jersey Wakefield. 65 days. Fine early variety for summer use. Grows quickly; cooks tender. Medium size, solid head.

Golden Acre. 65 days. Small, but very fine variety. Produces uniform, tightly folded and well-blanched heads; best table type.

Penn State Ballhead. 105 days. Produces more tons per acre and is less subject to disease than original strain of Ballhead. Hard heads 6 to 7 inches deep, late in season.

Premium Flat Dutch. 100 days. Large, heavy, hard heads. Very tight and compact; fine late sort.

Wisconsin All Season (Yellows Resistant Cabbage). Very good for kraut and winter use. Solid dark green heads on a short stem. Gardeners who have had trouble with yellows disease should try this kind.

Pkt. 15c; oz. 70c; ¼ lb. \$1.50; 1 lb. \$4.00.

Chinese Cabbage

Chihili. 75 days. Early and sure-heading variety; grows 18 to 20 inches tall and 3 to 4½ inches thick. Firm, well-blanched heads taper near the top.

Pkt. 15c; oz. 45c; ¼ lb. \$1.15; 1 lb. \$3.75.

CARROTS

Sow the seed as early as the ground can be worked. Plant it thinly in rows. An ounce will plant 100 feet of row. **Pkt. 15c; oz. 40c; ¼ lb. 75c; 1 lb. \$2.00.**

Chantenay. 72 days. Thick stump roots 5 inches long; fine grained, deep orange. Best half-long variety for table use.

Improved Danvers. 75 days. A standard market sort, fine for table use. Rich orange, 6 to 8 inches long, 2½ in. thick.

Improved Nantes. 65 days. Half-long, blunt; small tap root, very little core. Skin orange, smooth.

New Early Coreless. Completely without core. Tampering 8-inch roots of deep orange. Best for table, market and stock feeding.

CAULIFLOWER

Grown like cabbage. Heads should be tied up for blanching. 2000 plants per ounce. **Pkt. 25c; ¼ oz. 60c; 1 oz. \$2.00; ¼ lb. \$6.00.**

Allen's White Surehead. 90 days. An improved Snowball of the best quality. Good header in dry weather and in all climates.

Sluis' Ideal Early Snowball. 90 days. Very early and one of the surest to head. Dwarf grower with good sized heads, valuable for late planting, and early.

EGGPLANT

Start indoors and transplant to open ground when weather is warm. Space plants 1½ feet apart; 1000 plants per ounce.

Black Beauty. 110 days. Early large and productive. Rich dark purple fruits borne 4 to 6 to a plant. Easy to grow. **Pkt. 20c; ½ oz. 50c; 1 oz. 70c; ¼ lb. \$2.25.**

(46)

CELERY

Sow seed in spring and transplant when seedlings are 5 to 6 inches tall. Set 5 inches apart; blanch by earthing up when plants are large enough; 3000 plants per ounce. **Pkt. 15c; 1 oz. 80c; ¼ lb. \$2.25.**

Giant Pascal. 135 days. Produces perfect large green stalks, crisp and thick. Fine shipper. Blanches early and easily.

Golden Self-Blanching. 115 days. Great self-blanching variety, easily marketed. Beautiful golden color; good keeper of fine quality.

SWISS CHARD

Plant seed an inch apart. Leaves are used as greens all summer. Ounce plants 60 feet of row.

Lucullus. 60 days. Light green, crimped leaves. Grows 1½ to 2 feet tall. **Pkt. 15c; oz. 30; ¼ lb. 55c; 1 lb. \$1.45.**

DILL

Largely used for flavoring pickles. **Pkt. 15c; 1 oz. 30c; ¼ lb. 60c.**

ENDIVE

Sow the seed in spring for a fall crop; thin plants to 12 inches apart. Tie outer leaves together to blanch the hearts when plants are nearly grown. An ounce plants 150 feet of row. **Pkt. 15c; oz. 35c; ¼ lb. 80c; 1 lb. \$2.10.**

Broad-leaved Batavian (Escarolle). 90 days. Broad, flat, deep green leaves.

Green Curled. 85 days. Very hardy; rich dark green color.

White or Moss Curled. 95 days. Fine quality, beautifully curled.

KALE (Borecole)

Sow seed in rows 2½ feet apart and thin plants to 2 feet apart. Furnishes very healthful greens all season. An ounce plants 200 feet of row.

Dwarf Green Curled Scotch. 55 days. Green, beautiful curled leaves. **Pkt. 15c; 1 oz. 40c; ¼ lb. 90c.**

KOHLRABI

(Turnip-Rooted Cabbage)

Sow seed in early spring in rows. Thin to 3 inches apart. May be eaten raw or cooked. An ounce plants 200 feet of row. **Pkt. 15c; 1 oz. 45c; ¼ lb. \$1.00.**

Early White Vienna. 55 days. Flesh white and tender; use before fully grown.

MUSTARD

An ounce plants 100 feet of row.

Chinese Smooth Leaved. 45 days. Very large leaves, often measure 15 inches. Bears until frost. Tops are eaten like spinach. **Pkt. 15c; 1 oz. 30c; ¼ lb. 55c; 1 lb. \$1.40.**

LEEK

Sow in early April and thin to 6 inches apart. Earth up to blanch, like celery. An ounce plants 150 feet of row.

Broad American Flag. 142 days. Long, narrow stalks. **Pkt. 15c; oz. 50c.**

OKRA

Ounce plants 50 feet of row.
White Velvet. 60 days. Free from spines. Light green, tender pods. **Pkt. 15c; 1 oz. 30c; ¼ lb. 60c.**

ONION SETS

YELLOW WHITE

1 lb. 45c; 3 lbs. \$1.00; 5 lbs. \$1.50; 10 lbs. \$2.65, postpaid.

Not Postpaid: 1 bu. \$3.50; 2 bu. \$6.80.

ONIONS

Sow seed as early as possible in spring in drills a foot apart; thin to 3 inches apart in the drill. Onions need a rich, loamy soil. Ounce plants 100 feet of row. **Pkt. 15c; oz. 50c; ¼ lb. \$1.30; 1 lb. \$4.00. (Except Asgrow Y42.)**

Write for Quantity Prices

Allen's Selected Ohio Yellow Globe Danvers. 110 days. This is our specialty. Hundreds of carloads of this variety are shipped from this section each season. Considered by buyers to be the truest Globe Danvers type. Best keeper in any section.

Hybrid Asgrow Y42. Yellow sweet Spanish type but earlier and larger. Mild medium firm flesh. Yield is much higher than any standard varieties of onion. **Pkt. 30c; 1 oz. \$1.00; ¼ lb. \$3.00; 1 lb. \$10.00.**

White Sweet Spanish. 110 days. A large, mild white variety that keeps well.

Prizetaker. 100 days. Largest onion grown, weighs up to 6 lbs. Perfectly round, light yellow with pure white flesh; mild flavor, solid.

White Silverskin. 100 days. Delicate mild flavor; pure white, flat and well formed. Ripens early and keeps well.

PARSLEY

An ounce plants 200 feet of row. **Pkt. 15c; 1 oz. 40c; ¼ lb. 75c; 1 lb. \$2.25.**

Champion Moss Curled. 70 days. Handsome curly, dark green leaves.

Hamburg Rooted. 90 days. Thick, fleshy edible root 10 to 12 inches long and used extensively for flavoring.

PARSNIPS

Sow early in spring and thin to 2 inches apart in rows. Roots may be left in the ground over winter. An ounce plants 150 feet.

Hollow Crown (Long Smooth). 95 days. Long sweet white roots of excellent quality. **Pkt. 15c; 1 oz. 40c; ¼ lb. 75c; 1 lb. \$1.25.**

PUMPKINS

Plant in hills 8 to 10 feet apart each way; often planted among rows of corn. An ounce plants 25 to 50 hills.

Pkt. 15c; oz. 40c; ¼ lb. 80c; 1 lb. \$2.10.

Connecticut Field. 118 days. Good for stock or pies. A favorite because of hardness and immense crops. Almost round, light yellow fruit.

Small Sugar. 108 days. Best pie Pumpkin; small, almost solid, very sweet; deep orange inside.

HALLOWE'EN. 112 days. A new strain developed to serve the Hallowe'en trade for Jack O' Lanterns. Just the right size and roundness; weight 10 to 12 lbs. Flesh is bright orange, dry, sweet and flavorful; fine quality for baking and cooking.

SELECTED VEGETABLE SEEDS

All seeds up to and including 1 lb. shipped by mail postpaid.
Larger quantities by express collect.

MUSKMELON

Plant in hills 4 to 6 feet apart when the weather is warm, thinning to 3 plants to a hill. Rich soil is needed. An ounce plants 50 hills. **Pkt. 15c; 1 oz. 45c; ¼ lb. \$1.00; 1 lb. \$3.00.**

Bender (Bender's Surprise). 95 days. Deep orange flesh is thick and deliciously flavored; rind is light green changing to golden when ripe; heavily ribbed and netted. Melons are uniformly large, often weigh 8 to 10 pounds; superior shipper.

Hale's Best. 85 days. Earliest of all melons. Oval in shape with heavy netting and ribs; very small seed cavity.

Hearts of Gold. 90 days. Firm orange flesh of fine flavor. Fruit is nearly round with thin hard rind covered with fine gray netting. Exceedingly productive; splendid shipper.

Honey Rock (Sugar Rock). 93 days. Wonderfully sweet melon with thick orange flesh and distinctive flavor, suggesting the Honeydew. Heavy producer of medium-size, oval fruits, not ribbed.

GARDEN PEAS

Plant the seed 2 inches deep and an inch apart in single or double rows 2½ feet apart. Tall varieties need brush for support. Peas require light, rich soil and cool weather. A pound plants 100 feet of row. **Pkt. 20c; ½ lb. 40c; 1 lb. 70c. By Express, 10 lbs. \$4.00; 50 lbs. \$15.00.**

Allen's Extra Early. 55 days. Splendid table qualities; very productive. If you want early peas, you should give this variety a trial.

Early Gradus. 55 days. About 3 feet tall; medium early. Very large pods filled with fine flavored Peas that keep in top condition for a long time.

Freezonian. 62 days. Similar to Thomas Laxton but resistant to Fusarium wilt. Blunt, dark green pod 3½ inches long. Medium height vines. Peas are large and tender.

Laxton's New Progress. 60 days. Vines are dwarf; 15 to 18 inches high; rich dark green pods are 4½ inches long and always filled with large, dark green Peas.

Thomas Laxton. 57 days. Grows 3½ feet tall and produces 3-inch pods full of large, tender Peas. Popular for market, canning and freezing.

PEPPERS

Sow early indoors and transplant 18 inches apart when the weather and soil are warm. 1200 plants per ounce. **Pkt. 15c; 1 oz. 75c; ¼ lb. \$2.00; 1 lb. \$7.00.**

California Wonder (California Giant). 75 days. Mild, sweet mid-season variety. Very large, 4½ inches in length by 4 inches in diameter; blocky in shape. Extremely thick flesh.

Early Calwonder. 65 days. Fruits are mild and sweet; averaging 3½ inches in diameter by 4 inches long; smooth and uniform. Flesh is thick, deep green, changing to bright crimson when ripe.

Hungarian Yellow. 65 days. A hot, long slender Pepper of bright yellow color. Fruits are pointed and 5½ to 7 in. long.

Sunnybrook Pimiento. 73 days. Shaped like a tomato; sweet, mild flavor; good canner and extra fine for salads.

Yolo Wonder (New). 75 days. Blocky dark green fruits 4 by 4½ inches. Very thick meat. Plants more compact than California Wonder and resistant to Mosaic. **Pkt. 15c; ½ oz. 50c; 1 oz. 80c; ¼ lb. \$2.75; 1 lb. \$10.00.**

RADISHES

Sow at intervals of 2 weeks, beginning in early spring. An ounce plants 100 feet of row. **Pkt. 15c; 1 oz. 35c; ¼ lb. 55c; 1 lb. \$1.30.**

Early Scarlet Globe. 24 days. Early, round, bright scarlet. Small top, tender and delicious.

French Breakfast. 25 days. Fine oval shape; white-tipped; mild, crisp and tender.

Iceberg. 27 days. Pure white, quite large, long and crisp.

Mixed Radish Seed. Contains all varieties.

RHUBARB SEED

Myatt's Victoria. Thick red stalks of fine quality. Sow seed in spring; thin to 6 inches and transplant in fall, 3 to 4 feet apart. **Pkt. 20c; oz. 55c; ¼ lb. \$1.25.**

RUTABAGA

Grown like turnips. An ounce plants 100 feet of row.

American Purple Top (Long Island Improved). 90 days. Roots large, globular, inclined toward top shape; yellow with purple top. Flesh light yellow; firm. **Pkt. 15c; oz. 25c; ¼ lb. 50c; 1 lb. \$1.25.**

SALSIFY

Grown like parsnips. An ounce plants 50 feet of row.

Mammoth Sandwich Island. 120 days. Roots 8 inches long, almost white; oyster flavor. **Pkt. 15c; 1 oz. 55c; ¼ lb. \$1.45.**

SPINACH

Plant in rows and thin to 4 inches. Sow every two weeks until hot weather. An ounce will plant 100 feet of row. **Pkt. 15c; 1 oz. 25c; ¼ lb. 45c; 1 lb. \$1.10, except where noted.**

America (New). Leaves dark green crumpled and thick. Withstands heat well.

Giant Nobel (Giant Thick Leaved). 43 days. Plants large, vigorous and spreading; slow to form seed stalks; extremely heavy yielder. Leaves very large, thick, smooth with rounded tips.

New Zealand (Tetragonia expansa). 55 days. Strong-growing summer variety. Young branches and leaves can be gathered at any time. **Pkt. 20c; 1 oz. 30c; ¼ lb. 70c; 1 lb. \$1.75.**

WATERMELON

Grown like Muskmelon except that hills need to be 8 to 10 feet apart. **Pkt. 15c; 1 oz. 45c; ¼ lb. 75c; 1 lb. \$2.10. (except Icebox and Rhode Island Red).**

Cole's Early. 77 days. Early and hardy. Very sweet, deep pink flesh; medium size, nearly round; dark green striped lighter.

Improved Kleckly Sweet, No. 6. 85 days. Dark green rind, bright red flesh and large white seeds. Weight about 35 pounds; length about 20 inches. Strong grower; covering ground with fruit.

Icebox. 70 days. Only slightly larger than a large Muskmelon. Red flesh; prolific, early maturing. Easily fits into apartment-size icebox. **Pkt. 20c; 1 oz. 50c; ¼ lb. \$1.00; 1 lb. \$2.75.**

Rhode Island Red. 85 days. Flesh is brilliant red and fine quality; solid and crisp. Good shipping variety. Very vigorous and productive. Matures to size of 11 x 8 in.; around 14 lbs. **Pkt. 20c; 1 oz. 50c; ¼ lb. \$1.00; 1 lb. \$2.75.**

SQUASH

Plant in hills when weather becomes warm; grow like cucumbers. An ounce plants 20 hills. **Pkt. 15c; 1 oz. 35c; ¼ lb. 85c; 1 lb. \$2.25.**

Summer Varieties

Giant Summer Straightneck. 60 days. A bush squash, 18 to 20 inches long; deep orange color. Thick, meaty flesh. Heavily warted.

Italian Cocozella (Green Bush Marrow Squash). 64 days. Long, smooth, dark green fruits, striped lighter. Fine grained; good for frying.

Extra Early White Bush Scallop. 35 days. Scallop, pure white. Early and prolific. White flesh.

Fall and Winter Varieties

Blue Hubbard. 110 days. Large, gray-blue fruit. Keeps very well. Splendid quality, yield and appearance.

Butternut. Dry, solid, sweet flesh of bright orange. Fruit is buff color outside; long oval shape. Keeps very well.

Select Hubbard. 105 days. Best winter squash. Fine-grained orange flesh. Good for baking.

Table Queen. 60 days. Grows 6 to 7 in., long, 5 in., thick. Smooth, dark green. Fine flavor. Very productive.

TOMATOES

Start seed indoors and transplant when weather is warm. Set plants 3 feet apart and support with stakes if possible. 1500 plants per ounce.

Enormous. Largest, smoothest and reddest with glossy appearance. Few seeds, almost solid. Fine flavor; good keeper. **Pkt. 15c; ¼ oz. 35c; oz. 90c; ¼ lb. \$2.80**

Marglobe. 75 days. Globular, red, very smooth fruits without cracks. Wilt-resistant. A good canner. **Pkt. 15c; ¼ oz. 35c; 1 oz. 90c; ¼ lb. \$2.80.**

Oxheart. 100 days. Shaped like a big ox-heart. Smooth, pink skin, few seeds. Its supreme qualifications are the broken cell structure and the 1 to 2 inches of solid flesh before a seed is reached. **Pkt. 20c; ¼ oz. 45c; 1 oz. \$1.15; ¼ lb. \$3.00.**

Penn State Earliana. 64 days. Fruit is very rich, even scarlet; contains very few seeds. Disease-resistant. **Pkt. 20c; ¼ oz. 45c; 1 oz. \$1.15; ¼ lb. \$3.00.**

Ponderosa. 90 days. Large and solid with few seeds. Dark, heavy foliage. **Pkt. 15c; 1 oz. 90c; ¼ lb. \$2.80.**

Rutgers. 73 days. Large and similar to Marglobe. Thick outer and inner walls; very small seed cavities. Firm, red flesh. **Pkt. 15c; oz. 90c; ¼ lb. \$2.80.**

Yellow Wonder. 90 days. Large, smooth pure yellow fruit of mild flavor. **Pkt. 15c; ¼ oz. 35c; oz. 90c; ¼ lb. \$2.30.**

TURNIPS

Plant for either an early spring or a fall crop. Thin to 6 inches apart in the row. An ounce plants 100 feet of row. **Pkt. 15c; oz. 25c; ¼ lb. 50c; 1 lb. \$1.00.**

Purple-Top Strap Leaved. 46 days. Tops medium small, upright and compact. Roots flat, purple-red at top, white below. Flesh white, tender and fine grained.

Purple-Top White Globe. 55 days. Tops dark green; large, erect, cut-leaved. Roots large, globular; very smooth, upper part purple-red, white below. Flesh white, sweet, crisp, tender.

New GERMAN STRAIN of **TUBEROUS BEGONIAS**

**Masses of Colorful Blooms
To Give Your Garden Sparkling New Beauty!**

We are pleased to offer, for the first time, this new European development — Begonia Multiflora. An interesting new strain that was developed to produce hundreds of medium size blooms per plant, instead of a limited number of very large flowers. In addition to their free-flowering quality, the plants withstand heat and direct sunlight better than other types. The flowers are carried well above the luxuriant, deep green foliage and because of their greater masses they provide a more brilliant, colorful display.

Ideal For Dull, Shady Areas

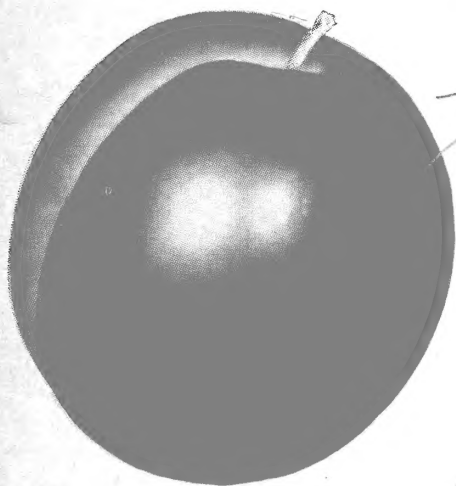

No need to tolerate those empty spaces in the garden because of shade. Tuberous Begonias are easy to grow and require very little care. The bulbs may be started indoors in pots during early spring, then set out in permanent garden location when danger of frost is past. Bulbs should be stored in the fall and used again the following season. Your choice of the following colors: Red, White, Yellow, Orange and Pink. 4 Roots for \$1.00; 8 for \$1.75, postpaid.

The Most Sensational Fruit of A Decade

HOWARD'S MIRACLE PLUM

(Plant Patent No. 721)

There's never been anything like it! "Howard's Miracle" Plum is an exciting new achievement in fine table fruits. The tantalizing, delicious flavor is best described as a combination of Nectarine, Peach and Plum — a "miracle" of taste-tempting good eating! The fruit is unusually large, thin-skinned; flesh is similar to Nectarine in quality. Makes superb rich-flavored preserves.

The trees are fast growing, quick-to-bear and heavy producers. Extremely hardy; withstand temperatures of 20 degrees below zero. Bears over a long period. Fruits are a delightful red and yellow color. Makes a beautiful ornamental tree — from spring blossom stage to richly tinted autumn foliage. Be first in your neighborhood to have this new "Wonder Plum"! 3 to 4 ft. trees, \$2.25 each; 2 for \$4.25, postpaid.

FLAME AZALEA **AZALEA MOLLIS**

You can achieve gorgeous color effects in garden and foundation planting with Flame Azalea. It is one of the showiest shrubs, with brilliant orange-scarlet flowers and glossy green foliage. Individual flowers and flower clusters are unusually large; borne in great profusion in May and June.

The plant is very hardy and easy to grow. Will succeed in full sun or partial shade. Grows 3 to 4 feet tall. Perfect in formal plantings, in groups, in foreground of shrub borders and in foundation planting. For a spectacular display of color, you can do no better than a planting of Flame Azalea. Field-grown, well-branched 12-in., plants, \$2.50 each; 2 for \$4.50, postpaid.
